A. W. H. Phillips: Collected Works in Contemporary Perspective

Edited by

Robert Leeson

CAMBRIDGE UNIVERSITY PRESS
Contents

List of contributors .............................. page x
Foreword by Arthur Brown ....................... xii
Preface by Robert Leeson ......................... xvi

Part I  Bill Phillips: Some Memories and Reflections

1 A.W.H. Phillips: An extraordinary life
   Robert Leeson ........................................ 3

2 The versatile genius
   James Meade ........................................... 18

3 To be his colleague was to be his friend
   Henry Phelps Brown .................................. 20

4 Phillips’ adaptive expectations formula
   Phillip Cagan ......................................... 22

5 Economist – washing machine fixer
   Elizabeth Johnson .................................... 23

6 Playing around with some data
   Ann S. Schwier ....................................... 24

7 The Festschrift
   Brian Silverstone .................................... 26

Part II  The Phillips Machine

8 The origins of the machine in a personal context
   Walter Newlyn ......................................... 31

9 The Phillips Machine as a ‘progressive’ model
   David Vines ............................................ 39
Contents

10 Mechanical models in economic dynamics  
A.W. Phillips  
68

11 The history of the Phillips Machine  
Nicholas Barr  
89

12 Early reactions to Mark I and II  
Graeme Dorrance  
115

13 A superb explanatory device  
R.M. Goodwin  
118

14 The Phillips Machine and the history of computing  
Doron Swade  
120

Part III Dynamic Stabilisation

Optimal Control

15 The optimal control articles  
Adrian Pagan  
130

16 Stabilisation policy in a closed economy  
A.W. Phillips  
134

17 Stabilisation policy and the time-forms of lagged responses  
A.W. Phillips  
169

18 Arnold Tustin’s The Mechanism of Economic Systems: a review  
A.W. Phillips  
184

19 Michel Kalecki’s Theory of Economic Dynamics: An Essay on Cyclical and Long-Run Changes in the Capitalist Economy: a review  
A.W. Phillips  
186

Growth

20 The growth articles  
A.R. Bergstrom  
190

21 A simple model of employment, money and prices in a growing economy  
A.W. Phillips  
195
Contents

22 Employment, inflation and growth
   A.W. Phillips
   207

23 Economic policy and development
   A.W. Phillips
   224

The Empirical Phillips Curve

24 The famous Phillips Curve article
   Richard G. Lipsey
   232

25 The relation between unemployment and the rate of change of money wage rates in the United Kingdom, 1861–1957
   A.W. Phillips
   243

26 Discussion of Dicks-Mireaux and Dow’s The Determinants of Wage Inflation: United Kingdom, 1946–1956
   A.W. Phillips
   261

27 The Melbourne paper
   John Pitchford
   263

28 Wage changes and unemployment in Australia, 1947–1958
   A.W. Phillips
   269

29 Phillips and stabilisation policy as a threat to stability
   William J. Baumol
   282

30 The Phillips Curve in macroeconomics and econometrics
   L.R. Klein
   288

31 Bill Phillips’ contribution to dynamic stabilisation policy
   Stephen J. Turnovsky
   296

32 A Left Keynesian view of the Phillips Curve trade-off
   G.C. Harcourt
   304

33 Interactions with a fellow research engineer–economist
   Charles C. Holt
   308

34 Does modern econometrics replicate the Phillips Curve?
   Fatemeh Shadman-Mehta
   315

35 The famous Phillips Curve article: a note on its publication
   Basil S. Yamey
   335
Part IV Econometrics

The Published Papers

36 The Bill Phillips legacy of continuous time modelling and econometric model design 342
   Peter C.B. Phillips

37 The published papers 348
   Peter C.B. Phillips

38 The influence of A.W. Phillips on econometrics 353
   David F. Hendry and Grayham E. Mizon

39 An appreciation of A.W. Phillips 365
   Lars P. Hansen and Thomas J. Sargent

40 Some notes on the estimation of time-forms of reactions in interdependent dynamic systems 370
   A.W. Phillips

41 Cybernetics and the regulation of economic systems 385
   A.W. Phillips

42 The estimation of parameters in systems of stochastic differential equations 395
   A.W. Phillips

43 Estimation, regulation and prediction in interdependent dynamic systems 408
   A.W. Phillips and M.H. Quenouille

The Walras-Bowley Paper

44 The Walras–Bowley paper 420
   Adrian Pagan

45 Estimation of systems of difference equations with moving average disturbances 423
   A.W. Phillips

The Unpublished Papers

46 The estimation of continuous time models 446
   A.R. Bergstrom
Contents

47 Estimation in continuous time series models with autocorrelated disturbances
   A.W. Phillips

48 Efficient fitting of rational spectral density functions and transfer functions
   A.W. Phillips

Phillips' Foreshadowing of the Lucas Critique

49 The Lucas Critique: did Phillips make a comparable contribution?
   Robin Court

50 Models for the control of economic fluctuations
   A.W. Phillips

51 Statistical estimation for the purpose of economic regulation
   A.W. Phillips

52 The last paper: a foreshadowing of the Lucas Critique?
   A.W. Phillips
