Pascal Savioz

Technology Intelligence in Technology-based SMEs
Conceptual Design and Implementation

Eine Publikation in der Reihe
Technology, Innovation and Management
herausgegeben von Prof. Dr. Hugo Tschirky
Band 6

Verlag Industrielle Organisation

4 RESEARCH FRAMEWORK

4.1 Gaps of Technology Intelligence in Technology-based SMEs
4.2 Working Hypotheses
4.3 Empirical Research Design
4.4 Empirical Research Methodology and Raw Data

5 ACTION RESEARCH AT INSTITUT STRAUMANN AG

5.1 Case Study ‘Straumann 1999’
5.1.1 Company’s Characteristics and History
5.1.2 Products and Market
5.1.2.1 A Short Technical Description of the Products
5.1.2.2 Market Dynamics
5.1.2.3 Competitors
5.1.3 R&D at Straumann
5.1.3.1 R&D Mission
5.1.3.2 R&D Structures and Tasks
5.1.3.3 R&D Process
5.1.3.4 R&D Tools (Methods and Infrastructure)
5.1.4 Technology Intelligence at Straumann
5.1.4.1 TI Management
5.1.4.2 TI Mission and Goals
5.1.4.3 TI Structures
5.1.4.4 TI Process
5.1.4.5 TI Tools (Methods and Infrastructure)
5.2 Insights from the Case Study and Action Requirements
5.3 Solution for Technology Intelligence at Straumann: Elements
5.3.1 Elements in a Holistic Context
5.3.2 Business Mission and Strategy in Relation to Technology Intelligence
5.3.3 The Technology Management Group
5.3.3.1 Justification of the Technology Management Group
5.3.3.2 Tasks in the Technology Management Group
5.3.3.3 Structural Organization and Philosophy of the Technology Management Group
5.3.4 External Expert Network (ITI)
5.3.5 The New Screening Process
5.3.5.1 Structural Organization of the Screening Task
5.3.5.2 The New Process Design
5.3.5.3 Implementation of the Screening Process
5.3.5.4 Practical Experiences with the New Screening Process at Straumann
5.3.6 The Opportunity Landscape
6.3.3.3 Discussion of the Technology and Business Opportunity Processes ........................................... 171
6.3.3.4 Implementation of the Technology and Business Opportunity Processes ........................................... 172
6.3.4 Comparison of the Screening Process at Esec and Straumann .................................................... 173
6.4 Vertical Validation Case C: Start-ups .................................................................................................... 176
  6.4.1 Sample of Start-ups .................................................................................................................... 176
  6.4.2 Practice of Technology Intelligence in Start-ups .......................................................................... 179
  6.4.3 Example of Technology Intelligence in a Start-up (Zeptosens) .................................................. 181
    6.4.3.1 Company Description ........................................................................................................ 181
    6.4.3.2 Technology Intelligence System at Zeptosens .................................................................... 182
  6.4.4 Comparison of Technology Intelligence in Start-ups and at Straumann ........................................ 184
6.5 Vertical Validation Case D: Large Companies .................................................................................... 187
  6.5.1 Technology Intelligence at Novartis ............................................................................................ 187
    6.5.1.1 Novartis: Company Profile ............................................................................................... 187
    6.5.1.2 R&D and Technology Management at Novartis Pharma ............................................... 189
    6.5.1.3 Technology Intelligence at Novartis: Elements ................................................................. 190
  6.5.2 Technology Intelligence at Daimler-Benz ...................................................................................... 194
    6.5.2.1 Daimler-Benz: Company Profile ....................................................................................... 194
    6.5.2.2 R&D and Technology Management at Daimler-Benz ....................................................... 195
    6.5.2.3 Technology Intelligence at Daimler-Benz: Elements ......................................................... 197
  6.5.3 Comparison of Technology Intelligence at Large Companies with the Solution at Straumann ........ 202
6.6 Conclusion of Further Validation of Generated Technology Intelligence Elements .............................. 206
7 Working Hypotheses Rethought ............................................................................................................ 209
  7.1 Discussion of Working Hypothesis 1 .............................................................................................. 209
  7.2 Discussion of Working Hypothesis 2 .............................................................................................. 212
8 Towards a New Set of Management Principles ...................................................................................... 215
  8.1 Basic Principles .............................................................................................................................. 216
    8.1.1 Principle 1: Company Size ...................................................................................................... 216
    8.1.2 Principle 2: Major Pitfalls ...................................................................................................... 217
  8.2 Conceptual Principles ....................................................................................................................... 218
    8.2.1 Principle 3: Systemic and Systematic Approach ....................................................................... 218
    8.2.2 Principle 4: Strategy Relatedness .......................................................................................... 219
    8.2.3 Principle 5: Cultural and Organizational Fit ........................................................................... 220
    8.2.4 Principle 6: Parallel Definition and Implementation ............................................................... 222
  8.3 Organizational Principles ................................................................................................................ 223
    8.3.1 Principle 7: Roles during Definition and Implementation ........................................................ 223
