Institutional Change in Agriculture and Natural Resources
Institutioneller Wandel der Landwirtschaft und Ressourcennutzung

edited by/herausgegeben von
Volker Beckmann & Konrad Hagedorn

Volume/Band 10

Franz W. Gatzweiler,
Renate Judis,
Konrad Hagedorn (Eds.)

Sustainable Agriculture in
Central and Eastern European Countries

The Environmental Effects of
Transition and Needs for Change

Shaker Verlag
Aachen 2002
## Table of Contents

Series Editors' Preface ................................................................. v
Proceedings Editors' Preface .......................................................... vii
Acknowledgements ........................................................................ 11

### Section 1 – Transition and Agri-Environmental Change – Identifying the Issues ........................................ 1

1.1 The Evolution of Institutions of Sustainability in Transition  
*Franz Gatzweiler and Konrad Hagedorn* .......................................... 3

1.2 Agri-environmental Policy Systems in Transition: Problems and Perspectives  
*Anett Zellei, Matthew Gorton and Philip Lowe* ................................. 17

1.3 Analysis of Environmental Impact of Farming Systems in Five CEE Countries  
*Stefan Bäckman, Timo Sipiläinen and John Sumelius* ...................... 31

1.4 Agri-environmental Challenges to Farming Systems in Transition  
*Stjepan Tanic* ........................................................................... 43

1.5 New Horizons for Agri-Environment Policy in Europe?  
*David Baldock* ........................................................................ 51

1.6 Sustainable Farming Systems in Central and Eastern European Countries  
*Jeffrey M. Peterson and David W. Norman* ..................................... 65

1.7 Comparative Agricultural Success in Central and Eastern European Countries: Institutions and Social Capital  
*Cornelis G. van Kooten, Louis H.G. Slangen and Pavel Suchanek* .... 81

1.8 The Study of Human-Ecological Systems in the Laboratory  
*Elinor Ostrom* ........................................................................ 99
### Section 2 – Agri-Environmental Change and Institutions of Sustainability

## Table of Contents

2.11 Tradable Pollution Permits: A Useful Instrument for Agri-environmental Policy?
*Peter Weingarten* .......................................................... 181

Section 3 – Determinants of Agri-Environmental Policies and their Impact on the Environment .......... 189

3.1 Agri-environmental Policy in Environmentally Fragile Areas in Hungary
*Katalin Balázs, Gábor Szabó and László Podmaniczky* .................. 191

3.2 Agri-environmental Policy System of Slovenia in the Process of European Integration with Special Attention Paid to Protected Areas
*Ana Barbic and Andrej Udovc* ............................................. 195

3.3 Problems with the Transposition and Implementation of Requirements Imposed by Directive 91/676/EEC in Poland
*Zbigniew M. Karaczun* ......................................................... 201

3.4 Agri-chemical and Water Usage and Management in Corn Island, Slovakia
*Milan Macak, Karol Kovac, Pavol Stehlo and Pavol Otepka* ........... 207

3.5 Expected Impact of Implementation of Key EU Measures to Solve the Conflict of Conservation vs. Farming
*Jaroslav Prazan* .............................................................. 213

3.6 Water Quality Protection in the Environmentally Fragile Karst Areas in Lithuania
*Romualdas Zemeckis, Sigitas Lazauskas and Matthew Gorton* ........ 217

3.7 Key Choices in Agri-environment Policy Design
*Zélie Peppiette* ............................................................. 221

3.8 Building the Road to Accession: Institutional Issues Concerning the Adoption of European Union Rural Development Policies by European Union Candidate Countries
*John Powell* ................................................................. 229

3.9 Integration of Agricultural and Environmental Policies as a Way for Sustainable Development of Rural Areas
*Mieczyslaw Adamowicz* ..................................................... 245
### 3.10 The European Union Drivers of Agri-environmental Policies in Central and Eastern Europe
*Harriet Bennett*

---

### 3.11 Why Not More Sustainable Development? Possible Factors for Determining Policy Change
*Markus Brem*

---

### 3.12 Water, Soil and Landscape Related Issues and Policies in Bulgaria
*Monica Koubratova Hristova*

---

### 3.13 Can SAPARD Form the Foundations for Agri-environmental Sustainability?
*Tobias Leiber*

---

### 3.14 Profit, Politics and Sustainability: The Determinants of Rural- and Agri-environmental Policy-making in Hungary
*Gusztáv Nemes*

---

### 3.15 The Role of the European Environment Agency in Building Agri-environmental Indicators for Environmental Assessments in Europe
*Jan-Erik Petersen*

---

### Section 4 – Environmental Effects of Farming Systems in Transition and Indicators for Measurement

#### 4.1 Environmental Impact of Farming Systems in Bulgaria
*Alexi Alexiev*

---

#### 4.2 Land Use Changes and Land Abandonment in Estonia: The Case of Jõgeva County
*Olavi Hiiemäe*

---

#### 4.3 Agri-environmental Practices that Preserve Biodiversity and Landscape in Hungary
*László Podmaniczky, Katalin Balázs and Gábor Szabó*

---

#### 4.4 Analysis of Environmental Impact of Farming Systems in Romania, Agri-Environmental Indicators
*Luiza Toma*

---

#### 4.5 Environmental Effects of Farming Systems in Transition and Indicators for Measurement
*Dirk Wascher and John Dixon*
