<b>Introduction</b>	15
<b>A) Spatial economic disparities within the European Union: The evidence</b>	19
A1) Preface: Level of spatial disaggregation and the choice of territorial units	19
A2) Gross domestic product (GDP)	20
A2.1.) GDP of European NUTS II-regions, 1999	20
A2.2.) Regional convergence versus divergence in Europe	21
A3) Regional unemployment in Europe	26
A3.1.) Unemployment rates in NUTS2-regions, 2000	28
A3.2.) Convergence versus divergence of regional unemployment rates	31
A4) Other regional indicators	32
A4.1.) Employment Growth	32
A4.2.) Population Density, Population Changes and Migration	34
A4.3.) Education	39
A4.4.) Innovation and research activities	39
A5) A closer look at the West German Länder	42
A6) Summing up the evidence	45
<b>B) Macroeconomic theories of unemployment and the “European labour market model”</b>	47
B1) Introduction	47
B2) A brief historical overview about macroeconomics	47
B2.1.) The ‘classics’	47
B2.2.) Keynes and the neoclassical synthesis	48
B2.3.) Friedman and the ‘natural rate of unemployment’	49

B2.4.) 'New classical macroeconomics' and rational expectations	50
B2.5.) The Keynesian response	52
<b>B3) The "European labour market model (ELMM)"</b>	<b>54</b>
B3.1.) Why is there insider power in the labour market	55
B3.2.) The aggregate wage setting curve	58
B3.3.) The aggregate price setting curve	60
B3.4.) Equilibrium in the ELMM	63
B3.5.) Some further issues of the ELMM	67
<b>C) The wage curve</b>	<b>71</b>
C1) Introduction	71
C2) The wage curve as an empirical regularity	72
C3) Wage curve theory: The Blanchflower/Oswald-model	75
C3.1.) The partial equilibrium foundation of the wage curve	75
C3.2.) General equilibrium in the Blanchflower/Oswald-model	79
C3.3.) Critique of the Blanchflower/Oswald-model	82
C4) The model of Blien (2001)	83
C4.1.) Partial labour market equilibrium in the Blien-model	83
C4.2.) The product market and general equilibrium in the Blien-model	84
C4.3.) Critique of the Blien-model	86
C 5) Conclusion on wage curve theory and motivation for an own approach	88
<b>D) Regional agglomeration theory and 'new economic geography'</b>	<b>91</b>
D1) Introduction	91
D2) Scale economies, externalities, and market competition	93
D3) The Marshallian agglomeration economies	95
D4) Centrifugal forces and other location factors	98

---

D5)	The core-periphery model of 'new economic geography'	100
	D5.1.) Consumer behaviour	101
	D5.2.) Production	103
	D5.3.) Equilibrium conditions	104
	D5.4.) Sustainability	107
	D5.5.) Stability	109
	D5.6.) 'New economic geography' and the new trade theory	112
D6)	Other 'new economic geography'-models	113
	D6.1.) Venables (1996) and Krugman/Venables (1995)	113
	D6.2.) Housing scarcity: Helpman (1998)	117
	D6.3.) Analytically tractable models	120
	D6.4.) More sectors, more regions	120
	D6.5.) Dynamic models	121
	D6.6.) Empirics, politics, and other unsettled issues	121
D7)	Regional costs-of-living: An extension of the Krugman-model	122
	D7.1.) Regional costs-of-living: the evidence	124
	D7.2.) The basic structure of the extended model	126
	D7.3.) Sustainability and stability	128
	D7.4.) Conclusion of our approach	136
	Appendix	138
<b>E)</b>	<b>Regional agglomeration and regional unemployment</b>	<b>139</b>
E1)	Introduction	139
E2)	The existing literature	139
	E2.1.) The model of Matusz (1996)	139
	E2.2.) The model of Peeters/Garretsen (2000)	140
E3)	Regional agglomeration and the wage curve: The model	142
	E3.1.) The closed-economy setting	142
	E3.2.) The two-region case with imperfect trade	148
	E3.3.) The impact of labour mobility	155

E4)	Critical discussion of our model approach	159
	E4.1.) Discussion of the model from a theoretical point of view	159
	E4.2.) Discussion of the model from an empirical point of view	164
E5)	Further issues	169
<b>F)</b>	<b>Internal migration and regional disparities</b>	<b>171</b>
F1)	Introduction	171
F2)	The causes of internal migration	172
F3)	The consequences of internal migration: The neoclassical view	173
F4)	Internal migration and regional divergence: alternative views	175
	F4.1.) Increasing returns to scale	176
	F4.2.) Selective labour migration	179
F5)	Selective migration in a two-region model	183
	F5.1.) The full-employment case	183
	F5.2.) Union wage setting and unskilled unemployment	186
	F5.3.) Conclusion of the model with constant returns to scale	190
F6)	Agglomeration, worker heterogeneity and national union wage setting	191
	F6.1.) The full employment case	193
	F6.2.) The case with unemployment	205
F7)	Discussion of the theoretical models and their empirical relevance	207
	F7.1.) Discussion from a theoretical point of view	207
	F7.2.) Discussion from an empirical point of view	208
	<b>Concluding remarks</b>	<b>211</b>
	<b>List of references</b>	<b>215</b>
