

CHAINS OF PRODUCTION,
LADDERS OF PROTECTION

SOCIAL PROTECTION
FOR WORKERS IN THE INFORMAL ECONOMY

edited by Francie Lund and Jillian Nicholson

CONTENTS

Preface	9
<u>Introduction: A new approach to social protection</u>	13
The process of globalization and its impact on the informal economy and on social protection	13
The informal economy	14
Approaches to social protection	16
Using value chain analysis to understand the dynamics and possibilities of social protection	18
The sectoral studies	20
<u>Social protection for informal workers in the horticulture industry</u>	23
The horticulture value chain	25
The horticulture sector in the global economy	25
The horticulture value chain in Chile and South Africa	26
Employment and the employment relationship in the value chain	28
Productive activities and employment across the horticulture value chain	28
Characteristics of workers in horticulture	32
The employment relationship	34
General and specific risks associated with horticulture	40
The risks affecting informal workers in horticulture	40
Social protection for informal workers — a social responsibility analysis	45
Lessons and policy implications	52
1. Incorporating informal workers fully under existing labor legislation	52
2. Extending coverage of public programs for informal workers in horticulture	52
3. Developing social protection linkages	54
4. Involving public and private participants in social protection	54
5. Empowering informal workers	54
Conclusion and further research	56

Social protection for informal workers in the garment industry 59

PART 1: INTRODUCTION	60
An overview of the industry within the global economy	61
Value chains in the industry	61
Homeworkers and other informal workers in garment value chains	62
The garment industry in Thailand and the Philippines	63
The regulatory environment in Thailand and the Philippines	66
PART 2: THE PHILIPPINES SOCIAL PROTECTION STUDY	70
Social protection for formal and informal workers in the Philippines	70
First case study: Large-scale factory production for export	72
This value chain in focus	72
Protection for formal workers	75
Agency workers: no formal protection	75
Subcontracted workers: a few are luckier than most	76
Second case study: Home-based embroidery for export	78
The value chain in focus	78
Workers doing straight sewing: formal protection as a minority choice	80
Social protection actions and recommendations: PATAMABA	81
Summarizing the implications of these case studies	83
PART 3: THAILAND SOCIAL PROTECTION STUDY	84
Government sponsored social protection	84
Informal access to social protection	86
First case study: Large-scale factory production for export	87
GFB	87
The BVS Company and its agency workers	90
Second case study: Home-based production for local and export markets	92
The value chain	92
Subcontracting to groups at the village level	93
Subcontracting group: Makuejae sewing group (Anong's group)	93
The Banthi subcontracting group	95
Summarizing the implications of these two case studies	97
Formal workers	97
Agency factory workers	97
Homeworkers	99
PART 4: CONCLUSIONS AND RECOMMENDATIONS	102
The organization and representation of workers in the industry	102
Recommendations	103
The social protection of workers in the industry	104
Recommendations	106

Conclusion: Implications for policy, research and action 111

Main lessons learned from using a comparative methodology for two sectors	111
Sites for practical policy engagement and program intervention	117
Recommendations for further research	119

References	123
Appendix	127

Tables

Table 1: Fruit exports from Chile (1997—98) and South Africa (1998—99)	25
Table 2: Typology of employment in the horticulture value chain	29
Table 3: Estimates of employment in the horticulture/retailing value chain in selected countries, and share of temporary and female employment	30
Table 4: Panel A: Age of fruit workers (as % of sample in each country) Panel B: Marital status of fruit workers (as % of sample in each country)	31
Table 5: Locating permanent and temporary women in agriculture within the national income distribution in Chile	39
Table 6: Coverage of pension plans and contract of employment among agricultural workers in Chile in 1998	47
Table 7: Benefits provided for the formal workers at GFB	89
Table 8: Typology of workers and their access to social protection	100
Table 9: Current problems, types of organization and representation, further needs and potential organizations	101

Boxes

Box 1: Continuum of horticultural employment	35
Box 2: Income poverty risks among temporary workers in agriculture in Chile	38
Box 3: Low coverage of formal social protection programs in Chile	47
Box 4: Extending health insurance to <i>temporeras</i> in Chile — a promising development?	53
Box 5: Commissions set up to extend social protection to <i>temporeras</i> in Chile	55
Box 6: The difficulties of enforcing labour laws	69
Box 7: Different sites for policy intervention and influence	116

Figures

Figure 1: Overview of global value chain for South African and Chilean deciduous fruit	27
Figure 2: Large-scale garment production for export: Philippines	72
Figure 3: Home-based embroidery for export: Philippines	78
Figure 4: Large-scale lingerie production for export: Thailand	87
Figure 5: Home-based production of jackets and women's clothing for middle level export markets in Europe	93
