The Mesoamerican Region

SOUTHEASTERN MEXICO AND CENTRAL AMERICA
# Table of Contents

**Abbreviations List** ................................................................. 10

**Introduction** ............................................................................. 13

**Assessment and Recommendations** .......................................... 15

*Chapter 1. Trends and Challenges in the Mesoamerican Region.* .... 35

Introduction .................................................................................. 36

1.1. Defining the unit of analysis – Mesoamerica ......................... 36

1.2. The region’s shared economic potential ............................... 39

    Improving infrastructure to capitalise on the privileged geographic location .......................................................... 40

    Regional economic opportunities linked to rich natural and cultural resources ....................................................... 45

    Assembly and light manufacturing industries: competitive challenges and new opportunities ......................... 49

1.3. Mesoamerica’s economic and social challenges .................... 52

    Macroeconomic performance .................................................... 53

    Territorial disparities and poverty ............................................ 66

    Trends in inequality ............................................................... 73

1.4. Conclusion ............................................................................. 78

Notes ............................................................................................ 78

*Chapter 2. Improving Competitiveness and Social Cohesion.* ...... 81

Introduction .................................................................................. 82

2.1. The emergence of the competitiveness agenda in the MAR region ........................................................................... 83

    Regional integration efforts: setting the stage ....................... 83

    Competitiveness policies: the business climate and growth sectors ................................................................. 86

    MAR competitiveness performance and strategies .............. 87

    Common competitiveness challenges and priorities ............ 90

2.2. Crucial cross-sectoral determinants of competitiveness ........ 92

    Building human capital .......................................................... 92
# TABLE OF CONTENTS

Quality standards and technological upgrades to increase productivity and market access .......... 100
Regional networks between cities ........................................ 108

2.3. Key industries for greater sectoral specialisation .......... 111
  Developing tourism .................................................. 111
  Agro-industry: from regional production to world exports .......... 116
  Assembly and light manufacturing industries: capturing greater value-added in the supply chain . .. 121
  Logistics industry: synergies with other sectors ................. 125
  Cluster initiatives to support microenterprises, SMEs and large firms. .......... 127

2.4. Competitiveness and poverty ........................................ 131
  Poverty alleviation still a challenge, especially in rural areas  ............... 131
  Are competitiveness and poverty alleviation mutually reinforcing? ............... 132
  Linking competitiveness and poverty reduction: stakeholders and strategies .......... 133
  Rethinking competitive strategies to integrate the poor ................. 135

2.5. Conclusion .................................................. 139
Notes ................................................................. 140

Chapter 3. **Towards More Effective Governance** ........................................ 145
Introduction ................................................................. 146

3.1. The governance of Mesoamerica ....................................... 146
  Regional integration and governance .................................. 147
  The need for a strategic vision and the cost of non-coordination .......... 150
  Successful areas of mesoregional co-operation ....................... 155
  Towards an effective governance of the Mesoamerican region .......... 157

3.2. Multilevel governance in Mesoamerican countries .................. 165
  Decentralisation trends in MAR countries .......................... 165
  Weak spending and administrative capacity at both national and sub-national levels .......... 171
  Lack of a multi-level framework for regional development .......... 174
  Towards an integrated, territorial approach to policy-making .......... 175

Notes ................................................................. 186

**Bibliography** .............................................................. 189
List of boxes

1.1. Mesoamerica's population statistics ........................................ 37
1.2. Logistics: what is it? How much does it cost? .......................... 42
