Preface ........................................................................................................... xiii
Acknowledgments ......................................................................................... xvii

Chapter 1  The Business Value of Business Intelligence ............................. 1

1.1 What Is Business Intelligence? .............................................................. 2
1.2 Business Intelligence in Action ............................................................. 3
1.3 The Origins of Business Intelligence .................................................... 5
1.4 Business Intelligence Today ................................................................. 11
1.5 Using Business Intelligence to Capture Business Value ... 12
1.6 How Do We Achieve Strategic Alignment? ................................. 16
1.7 The Need for Process Engineering ...................................................... 17
1.8 Process Engineering in Practice ........................................................... 19
1.9 The Need for Change Management ..................................................... 20
1.10 Business Value Analysis of Business Intelligence Initiatives .......... 21
1.11 Managing for Business Value Delivery ............................................. 22
1.12 Key Points to Remember ................................................................. 23
1.13 Think Tank ......................................................................................... 23
   1.13.1 Seven Questions to Ask About Your Organization's BI Needs ...... 23
   1.13.2 Quiz: What Might BI Mean for Your Company? ....... 24

Chapter 2  Identifying and Prioritizing Business Intelligence-Driven Opportunities for Your Organization .......... 25

2.1 Business Intelligence Opportunity Analysis Overview ..................... 26
2.2 Case Study: McCormick Opportunity Analysis .................................... 27
   2.2.1 Evolution of McCormick’s Relevant Industries ......................... 28
   2.2.2 Summary of Food Industry Drivers and Trends ....................... 29
   2.2.3 Application of the Business Intelligence Opportunity Analysis Framework at McCormick ... 29
   2.2.4 Business Intelligence Opportunity Analysis Summary ............... 36
2.3 Business Intelligence Opportunity Analysis: Practical Considerations ......................................................... 36
   2.3.1 Art Versus Science in Business Intelligence Opportunity Analysis ............................................. 36
   2.3.2 Quality of Business Intelligence Opportunity Analysis ......................... 38
   2.3.3 Risk-Reward Tradeoffs and the Business Intelligence Opportunity Map ............................................. 41
   2.3.4 Business Intelligence Opportunity Analysis: Summary ............... 42
2.4 Key Points to Remember .................................................. 43
2.5 Think Tank ....................................................................... 43
   2.5.1 Seven Questions to Ask About Your Company's Business Intelligence Opportunities .................................................. 43
   2.5.2 Quiz: How Prepared Are We to Leverage Business Intelligence? .................................................. 43

Chapter 3  Business Intelligence Readiness: Prerequisites for Leveraging Business Intelligence to Improve Profits ........... 44

   3.1 Business Intelligence Readiness Overview ......................... 45
   3.2 Business Intelligence Readiness, Business Risk, and Traditional Development Methods .................................................. 47
   3.2.1 Manufacturing Company Example .................................. 47
   3.2.2 Disability Insurance Company Example .......................... 49
   3.3 Business Intelligence Readiness Factors ................................ 50
       3.3.1 Strategic Alignment .................................................. 50
       3.3.2 Continuous Process Improvement Culture .................... 51
       3.3.3 Culture Around the Use of Information and Analytical Applications .................................................. 52
       3.3.4 Business Intelligence Portfolio Management ................. 53
       3.3.5 Decision Process Engineering Culture .......................... 55
       3.3.6 Business Intelligence and Data Warehousing Technical Readiness .................................................. 56
       3.3.7 Effective Business/Information Technology Partnership for Business Intelligence .................................................. 58
       3.3.8 Summary: Business Intelligence Readiness Factors ........ 58
   3.4 Case Study: BYTECO Business Intelligence Readiness Assessment .................................................. 59
       3.4.1 The Business Intelligence Readiness Assessment .................. 60
   3.5 Business Intelligence Readiness: Summary .......................... 62
   3.6 Key Points to Remember ............................................... 63
   3.7 Think Tank ....................................................................... 63
       3.7.1 Seven Questions to Ask About Your Company’s Business Intelligence Readiness .................................................. 63
       3.7.2 Quiz: How Prepared Is the Business to Leverage Business Intelligence? .................................................. 63

Chapter 4  Business-Centric Business Intelligence Development with the BI Pathway Method ........................................... 65

   4.1 The BI Pathway Overview .............................................. 67
       4.1.1 Unique Characteristics of the BI Pathway Method .............. 68
       4.1.2 Organizational Tailoring of the BI Pathway Method ........... 69
### Contents

#### Part 1: The Architectures Phase of the BI Pathway Method

- 4.2 The Case for Investing in an Architectures Phase
- 4.2.2 BI Pathway Architectures Phase Overview: Aligning the Business Intelligence Program To Deliver Return on Investment
- 4.2.3 Setting the Architectural Foundation for Business Intelligence Project Success
- 4.2.4 BI Pathway Architectures Summary

#### Part 2: The Implementation Phase of the BI Pathway Method

- 4.3 Logical Data Mart Modeling
- 4.3.2 Technical Development Work

#### The Operations and Continuous Improvement Phase of the BI Pathway Method

- 4.4 The Operations and Continuous Improvement Phase of the BI Pathway Method

#### Chapter Summary

- 4.5 Chapter Summary

#### Key Points to Remember

- 4.6 Key Points to Remember

#### Think Tank

- 4.7 Think Tank
  - 4.7.1 Seven Questions to Ask About Your Company and Business Intelligence
  - 4.7.2 Quiz: How Prepared Is Your Company to Leverage Business Intelligence?

### Chapter 5 Leading and Managing a Business Intelligence-Driven Profit Improvement Program

- 5.1 A Leadership Perspective on Business Intelligence-Driven Profit Improvement
  - 5.1.1 Changing the Culture of Information Usage
  - 5.1.2 The Three Stages of Business Intelligence-Driven Cultural Change
  - 5.1.3 Steps for Advancing Business Intelligence Maturity
  - 5.1.4 Summary: A Leadership Perspective on Business Intelligence-Driven Profit Improvement

- 5.2 A General Management Perspective on Business Intelligence-Driven Profit Improvement
  - 5.2.1 The Program Plan for Business Intelligence-Driven Profit Improvement
  - 5.2.2 Summary: The Program Plan for Business Intelligence-Driven Profit Improvement
  - 5.2.3 Business Intelligence-Driven Profit Improvement Is a General Management Responsibility

- 5.3 Business Intelligence-Driven Profit Improvement Is Crossing the Chasm

- 5.4 Key Points to Remember
Chapter 8 Common Mistakes Companies Make on Business Intelligence Initiatives

8.1 Critical Success Factor: Establishing the Value Proposition
