

**Agricultural Policy
and Soil Fertility Management
in the Maize-based
Smallholder Farming System
in Malawi**

TABLE OF CONTENTS

1	INTRODUCTION	1
1.1	BACKGROUND OF THE STUDY	1
1.2	RESEARCH STATEMENT AND MOTIVATION	2
1.3	RESEARCH OBJECTIVES AND HYPOTHESES	4
1.4	ORGANIZATION OF THE DISSERTATION	5
2	MALAWI'S AGRICULTURAL SECTOR AND THE SURVEY DESIGN	7
2.1	INTRODUCTION	7
2.2	AGRICULTURAL DEVELOPMENT IN MALAWI: A HISTORICAL REVIEW	7
2.3	OVERVIEW OF THE STATUS OF THE AGRICULTURE SECTOR AND POVERTY IN MALAWI	9
2.4	SOIL FERTILITY DEGRADATION IN MALAWI	17
2.4.1	Malawi's relief and biophysical features	17
2.4.2	Extent of Malawi's soil fertility degradation	18
2.5	SURVEY DESIGN	19
2.5.1	Primary data	20
2.5.2	Secondary data	21
2.5.3	Household disaggregation criteria	21
3	LITERATURE REVIEW	25
3.1	INTRODUCTION	25
3.2	AGRICULTURAL HOUSEHOLDS, POLICY AND SUSTAINABLE DEVELOPMENT INTERFACE	25
3.3	ADOPTION OF SOIL FERTILITY MANAGEMENT OPTIONS: OPPORTUNITIES AND CONSTRAINTS	28
3.4	ECONOMICS OF SOIL FERTILITY MANAGEMENT: WHAT ARE THE PAY-OFFS OF ALTERNATIVE SOIL FERTILITY MANAGEMENT OPTIONS AMONG SMALLHOLDER FARMERS?	30
3.5	MODELLING SMALLHOLDER SOIL FERTILITY MANAGEMENT DECISIONS	31
3.5.1	Review of bio-economic models	32
3.5.2	Bio-economic models used in the analysis of soil fertility management	34
3.5.3	Production functions consistent with sustainability objectives	36
3.5.4	Objective functions in agricultural household modelling	38
3.5.5	Generic challenges in bio-economic modeling	39
3.6	CONCLUSIONS: RESEARCH GAPS AND CONTRIBUTION OF THIS STUDY	40

4	THEORETICAL FRAMEWORK	43
4.1	INTRODUCTION	43
4.2	AGRICULTURAL HOUSEHOLD THEORY: APPLICATION TO ANALYSIS OF SOIL FERTILITY MANAGEMENT	43
4.3	SMALLHOLDER PRODUCTIVITY ANALYSIS	45
4.4	TECHNICAL EFFICIENCY THEORY	48
4.5	MODELLING FARMERS' DECISION MAKING IN RELATION TO SOIL FERTILITY MANAGEMENT	50
4.5.1	Farmer's problem	53
4.5.2	Comparative statics of the short-run equilibrium	54
4.5.3	Comparative statics of the steady state (long-run equilibrium)	56
4.5.4	Conclusions	57
5	SOIL FERTILITY MANAGEMENT CHOICE AND INTENSITY AMONG SMALLHOLDER FARMERS IN THE MAIZE-BASED FARMING SYSTEM	59
5.1	INTRODUCTION	59
5.2	FARMERS' CHOICE OF SOIL FERTILITY MANAGEMENT TECHNOLOGIES	60
5.3	EMPIRICAL MODEL	64
5.4	THE DATA	66
5.5	RESULTS AND DISCUSSIONS	69
5.6	CONCLUSIONS AND POLICY IMPLICATIONS	73
6	SMALLHOLDER PRODUCTIVITY, EFFICIENCY AND PROFITABILITY UNDER ALTERNATIVE SOIL FERTILITY MANAGEMENT OPTIONS: THE CASE OF MAIZE IN MALAWI	75
6.1	INTRODUCTION	75
6.2	MAIZE PRODUCTIVITY IN MALAWI: A REVIEW	76
6.4	EMPIRICAL MODEL FOR THE ASSESSMENT OF TECHNICAL EFFICIENCY	82
6.5	THE DATA	83
6.6	DATA USED FOR TECHNICAL EFFICIENCY ANALYSIS	88
6.7	COMPARISON OF PLOT LEVEL BIOPHYSICAL CHARACTERISTICS	90
6.8	RESULTS AND DISCUSSION	92
6.9	DISCUSSION OF TECHNICAL EFFICIENCY RESULTS	98
6.10	CONCLUSIONS AND POLICY IMPLICATIONS	102

7	IMPACT OF SOIL FERTILITY MANAGEMENT OPTIONS ON PRODUCTIVITY, FOOD SECURITY AND HOUSEHOLD INCOME UNDER ALTERNATIVE POLICY SCENARIOS	107
7.1	INTRODUCTION	107
7.2	THE MODEL	108
7.3	DESCRIPTION OF THE SMALLHOLDER FARMING SYSTEM IN MALAWI AND DATA USED FOR MODEL CALIBRATION	112
7.4	DESCRIPTION OF BASELINE RESULTS	114
7.4.1	Sensitivity analysis of the baseline	116
7.4.2	Risk considerations	118
7.4.3	Insights from the dual solution	120
7.4	IMPACT OF ALTERNATIVE POLICY SCENARIOS	120
7.4.1	The policy scenarios	120
7.4.2	Impact of policy scenario A: distribution of hybrid maize and legume seed	121
7.4.3	Impact of policy scenario B: distribution of hybrid maize seed and relaxation of cash constraints	122
7.4.4	Impact of policy scenario C: fertilizer subsidy to poorest smallholder farmers	122
7.4.5	Impact of policy scenario D: improvement in relative prices	122
7.4.6	Impact of combined policy scenarios	123
7.5	CONCLUSIONS AND POLICY IMPLICATIONS	124
	APPENDIX	127
8	CONCLUSIONS, POLICY IMPLICATIONS, STUDY LIMITATIONS AND FUTURE RESEARCH AGENDA	139
8.1	INTRODUCTION	139
8.2	FACTORS INFLUENCING SMALLHOLDER FARMERS' CHOICE OF SOIL FERTILITY MANAGEMENT OPTIONS	139
8.3	POTENTIAL SOIL FERTILITY MANAGEMENT OPTIONS: PRODUCTIVITY, TECHNICAL EFFICIENCY AND PROFITABILITY	140
8.4	FEASIBILITY OF THE SOIL FERTILITY MANAGEMENT OPTIONS ON DIFFERENT HOUSEHOLD CATEGORIES	140
8.5	MAIN POLICY IMPLICATIONS	142
8.6	STUDY LIMITATIONS	143
8.7	AREAS FOR FUTURE RESEARCH	144
