Natural Heritage, Ecotourism and Sustainable Development

Potentials and Pitfalls for China

Contributions delivered at the Sino-German Symposium on Natural Heritage, Ecotourism and Sustainable Development, Zhangjiajie (China), 4.-11. November 2004

Edited by Hubert Job and Jianxin Li
Contents

List of Contributors .................................................................................................................. VIII

Introduction:
Wolfgang Arlt and Hubert Job
Tourism and Sustainable Development in China ...................................................................... 1

Part 1: Sustainable Regional Development
Wolfgang Arlt
Sustainability – Term and Meaning in Asia and Europe ......................................................... 11
Evelyn Gustedt
Sustainability and Regional Development – The Case of the Biosphere Reserve of the Elbe/Germany .................................................................................................................. 17
Jianping Liu and Xianfu Wu
Analysis on the Ecological Protection in Chinese World Legacy Ground Tourism Development .................................................................................................................. 27
Fu Yan and Xiaorong Yan
Approaching the Sustainable Civilized Tourism .................................................................... 37
Youbing Yan
Advantages of Tourism and Construction of the Well-off Society in an Overall Way of Ethnic Minority Area ........................................................................................................... 47

Part 2: Ecotourism
Wolfgang Strasdas
The Global Market for Nature-based Tourism .......................................................................... 55
Xianzheng Xie and Zhong Ma
Willingness to Pay for Protecting the World Heritage - A Case Study of Yellow Mountain 65
Manfred Domroes
Ecotourism and Nature Interpretation - Basic Notes and Application on Horton Plains National Park, Sri Lanka ......................................................................................................... 75
Zhong Linsheng, Zheng Qunming and Liu Yuan
Study on the Urbanization of Zhangjiajie National Forest Park, China ................................. 81
Tourism marketing for protected areas under the constraints of nature conservation

Qiu Keming and Chen Zhizhuang

Studies on the Change of the Surface Water Quality in Wulingyuan Scenic Spot after Pulling Down Greatly

Part 3: Management Strategies for Protected Areas

Hubert Job and Sabine Weizenegger

Actor Oriented Management Strategies for Protected Areas

Wolfgang Eder

The Role of UNESCO in Protecting and Developing Geological Heritage through Geoparks

Wu Jian, Ma Zhong and Wen Feng

Role of Government in Protecting Natural Heritage: Case of China’s National Nature Reserves

Christian Krause and Christoph Ruckert

Between Impact and Integration: Tourism-Related Infrastructure and Landscape Aesthetics in Protected Areas

Yin Huaguang, Wu Hao and Li Dajun

A Research on Aesthetic Value of World Natural Heritage of Wulingyuan

Yunguo Liu, Ting Fan, Xin Li, Xianhai Wang, Ming Zhou and Yongli Li

Applying Matter Element Model to Evaluate the Tourism Environmental Carrying Capacity

Karl Friedrich Sinner

Scientific Research and its Influence on National Park Management

Yang Meixia

Sustainable Development and Environmental Protection for Tourism Industry in Wulingyuan Scenic Area

Part 4: Landscape Ecology

Chen Ningsheng, Di Baofeng, Jin Fajun and Gao Yuanchao

The debris flow erosion, deposition and control in the Tianchi Lake

Renate Bürger-Arndt

Nature Conservation in Protected Forest Areas
Part 5: Environmental Monitoring and Geographical Information Systems

Marcus Nüsser
Human Ecology and Environmental Monitoring: An Integrated Approach Using Repeat Photography ................................................................. 213

Yunguo Liu, Guangming Zeng, Xiaofang Guo and Hua Zhu
The Ecology Function Division of Changsha City Based on GIS ................................................................. 223

Zhongwu Li, Guangming Zeng, Yunguo Liu, Ying Xiong, Yaxian Huang and Guohe Huang
Current Analysis and Simulation of Dynamic Changes on Landscape Pattern in the Red Soil Hilly Region, China ................................................................. 233

Martin Kappas
Remote Sensing based Environmental Information Gathering & GIS Management for World Heritage Sites ................................................................. 243

Eckhard Jedicke
Analytical Methods and Concepts for Nature Conservation ................................................................. 251
