Table of contents

List of abbreviations	9
List of figures	11
List of tables	12
1 Introduction	15
1.1 Indirect protection effects	16
1.2 Indirect costs	17
1.3 Transferability	19
1.4 Objectives	20
1.5 Case studies	20
2 Cost-effectiveness of screening for genital <i>Chlamydia trachomatis</i> infections	23
2.1 Background and objectives	23
2.2 Methods	24
2.3 Results	25
2.4 Discussion	35
2.5 Summary	37
2.6 Information resources	38
3 Cost-effectiveness of screening programs for <i>Chlamydia trachomatis</i>: a population based dynamic approach	39
3.1 Background and objectives	39
3.2 Methods	39
3.3 Results	49
3.4 Discussion	55
3.5 Chapter appendix	58
4 Costs and effects of chlamydial screening programs: dynamic versus static modeling	61
4.1 Background and objectives	61
4.2 Methods	61
4.3 Results	71
4.4 Discussion	78

5	The role of economic evaluation in vaccine decision making: focus on meningococcal group C conjugate vaccine	81
5.1	Background and objectives	81
5.2	Epidemiology	81
5.3	Prevention of SCMD	84
5.4	Methods	85
5.5	Results	86
5.6	Discussion	98
6	Economic evaluation of meningococcal serogroup C conjugate vaccination programs in The Netherlands and its impact on decision making	103
6.1	Background and objectives	103
6.2	Methods	103
6.3	Results	112
6.4	Discussion	119
7	A decision chart for assessing and improving the transferability of economic evaluation results between countries	123
7.1	Background and objectives	123
7.2	Methods	124
7.3	Results	126
7.4	Discussion	139
7.5	Chapter appendix: glossary of transferability factors	143
8	General discussion	151
8.1	Indirect protection effects	151
8.2	Indirect costs	153
8.3	Transferability	155
8.4	Influence on decision making	156
8.5	Limitations of the presented analysis	157
8.6	Final remarks and guidance for future research	159
8.7	What this dissertation adds: main methodological conclusions	160
	Summary	161
	Literature	163
	General appendix	189
	Abstracts of chapters 2-7	189
