I THE ELEMENTS OF BANK FINANCIAL SUPERVISION

1. Introduction to Banks and Banking
   A. Banks Considered as Risk Takers 1.03
   B. A Prototypical Bank
      Business summary 1.06
      Risk analysis 1.11
      Credit risk 1.20
      Market and asset liquidity risks 1.26
      Funding liquidity risk 1.33
      Interest rate risk 1.35
      Operational risk 1.36
      Risk consolidation 1.38
      Economic capital 1.40

2. Why are Banks Supervised?
   A. Basis of Bank Supervision—the Basel Principles 2.02
   B. Capital Regulation 2.28
   C. The Constraints on Bank Capital Regulation 2.33
   D. The Quantum of Bank Capital Requirements 2.39
   E. Did Risk Capital-based Regulation Fail in 2007–8? 2.40
      Quantitative risk modelling and the crash 2.41
   F. Market Crisis and Regulation 2.49
   G. Protecting the Public from the Consequences of Bank Failure
      Bank insolvency regimes 2.57

3. International Bank Regulation
   A. The Basel Committee and the Basel Accord 3.01
   B. Addressing Failures of Multinational Banks 3.09
## Contents

C. International Institutional Co-Operation in Bank Regulation 3.16

4. The Bank Capital Calculation

   A. The Basic Bank Capital Calculation 4.01
   B. What is Capital? 4.04
   C. The Bank Capital Hierarchy 4.09
   D. Capital Monitoring 4.12
   E. 'Gearing' Rules 4.14
   F. The Components of Capital 4.16
   G. Tier one 4.17
       Issuance 4.19
       Redeemability 4.20
       Permanence 4.22
       Power to defer payments 4.29
       Loss absorption 4.30
       Subordination 4.31
       Moral hazard 4.32
       Associate transactions 4.33
       Reserves 4.34
       Share premium account 4.37
       Externally verified profits 4.38
       Innovative tier one 4.39
       Convertible and exchangeable instruments 4.44
       Deductions from tier one 4.46
   H. Tier two 4.49
       Upper tier two 4.50
       Lower tier two 4.51
       Upper tier two requirements 4.53
       Lower tier two requirements 4.61
       Provisioning and expected loss 4.67
   I. Deductions 4.79
       Qualifying holdings (holdings in non-financial undertakings) 4.79
       Material holdings (holdings in financial undertakings) 4.82
       Connected lending of a capital nature 4.87
       Expected losses and other negative amounts 4.89
       Securitization positions 4.90
   J. Tier three 4.92
       Upper tier three 4.93
       Lower tier three 4.94
       Deductions from tier three 4.95
II COMMERCIAL BANKING

5. Credit Risk
   A. Background 5.01
   B. Risk Weighting of Assets 5.04
   C. The Basel Approaches 5.06
   D. Valuation of Exposures 5.13
   E. Mark to Market 5.16
       Financial assets at fair value through profit or loss 5.17
       Available-for-sale financial assets 5.20
       Loans and receivables 5.21
       Held-to-maturity investments other than loans and receivables 5.22

6. The Standardized Approach
   A. Classification of Exposures, Credit Conversion Factors, and Credit Risk Mitigation 6.03
   B. Ratings and Rating Agencies 6.04
   C. Exposures to Sovereigns 6.13
       Regional governments or local authorities 6.16
       Public sector entities 6.19
       Multilateral Development Banks (MDBs) 6.20
   D. Exposures to Banks and Financial Institutions 6.21
   E. Exposures to Corporates 6.25
   F. Exposures to Retail Customers 6.28
       Retail mortgage lending 6.29
   G. Commercial Mortgage Exposures 6.34
   H. Overdue Undefaulted Exposures 6.36
   I. High-Risk Exposures 6.37
   J. Covered Bonds 6.38
   K. Securitization Exposures 6.42
       What is a securitization? 6.44
       Tranching 6.45
       Performance dependent payment 6.46

## Contents

B. Exposure at Default 8.23  
Netting and EAD 8.31  
Commitments—when should a CF/EAD be applied? 8.33  
Maturity 8.37  

C. Specialized Lending 8.40  

D. Retail and Mortgage Exposures 8.46  
Retail exposures 8.46  
Specialized retail exposures 8.50  
Default in the retail portfolio 8.54  

E. Eligible Purchased Receivables 8.57  

F. Equity Exposures 8.60  
The simple risk weight approach for equity 8.67  
The PD/LGD approach for equity 8.70  
The internal models approach for equity 8.75  

9. Netting, Collateral, and Credit Risk Mitigation  
A. Introduction 9.01  
B. Netting 9.04  
On balance sheet netting 9.06  
Off balance sheet netting and master netting agreements 9.08  
C. Collateral 9.13  
The simple approach 9.14  
The comprehensive approach 9.17  
Haircuts 9.21  
Secured lending transactions 9.24  
Government repo market concession 9.26  
D. Unfunded Credit Protection 9.29  
Effect of unfunded credit protection 9.32  
Multiple default credit derivatives 9.35

      Unsettled transactions 14.12
      Free deliveries 14.15

xvi
15. Counterparty Credit Risk for Derivatives, Securities Financing, and Long Settlement Exposures
   A. Introduction 15.01
   B. Calculating Exposures 15.08
   C. The Mark to Market Method 15.13
      PFE calculation 15.15
      Netting within the mark to market method 15.20
   D. The Standardized Method 15.21
   E. Credit Risk Exposure Calculation 15.25
   F. The CCR Internal Model Method 15.31
      Contractual netting within the CCR regime 15.39
      CCR models and securities financing transactions 15.45

16. Securitization and Repackaging
   A. Introduction 16.01
   B. What is a Securitization? 16.07
   C. True Sale and Derecognition of Assets 16.15
      'Derecognition' for synthetic securitizations 16.23
      Implicit support, or 'de-derecognition' 16.27
   D. Risk Weighting of Securitization Exposures 16.31
   E. Weighting Holdings of Securitization Positions—
      the Standardized Approach 16.35
      Liquidity facilities 16.39
   F. The IRB Approach 16.42
      The ratings based approach 16.46
      The supervisory formula approach 16.47
      The ABCP IAA 16.52
   G. Revolving Credit Securitizations 16.53
      Treatment of the originator's share 16.58

IV OTHER RISKS

17. Operational Risk Requirements
   A. Operational Risk 17.01
   B. The Basic Indicator Approach 17.08
   C. Standard and Advanced Measurement Approaches—
      Criteria for Use 17.13

xvii
18. Concentration and Large Exposures
   A. The Large Exposures Regime 18.01
   B. Exposure 18.07
   C. Counterparty 18.11
       Connected counterparties 18.14
       Total exposure 18.17
   D. Exposure Limits 18.25
       Parental guarantees 18.31
       Collateralization 18.33
       Advanced IRB firms 18.35
       Treasury concession 18.37
       Intra-group securities financing transactions 18.39
       National integrated groups 18.40
       The UK Integrated Group 18.44

19. Liquidity
   A. Liquidity Supervision 19.01
   B. Qualitative Supervision of Liquidity 19.05
   C. Quantitative Supervision of Liquidity 19.07
       'Global concession' policy 19.10
       Liquidity assessment 19.12
   D. Mismatch Liquidity 19.15
       Inflows and outflows 19.17
       Committed facilities available to the bank 19.22
       Marketable assets 19.25
   E. Sterling Stock Liquidity 19.34
       'Net wholesale sterling outflow' 19.38
       Sterling retail deposits 19.40
       Sterling liquid assets 19.43

V BANK GROUP SUPERVISION

20. Group Supervision
   A. Introduction 20.01
   B. Consolidated Supervision 20.08
   C. Scope of Consolidation 20.10
21. Financial Conglomerates

A. Issues with Conglomerates
   - Double or multiple gearing
   - Debt downstreamed as equity
   - Unregulated intermediate holding companies
   - Unregulated entities engaged in financial business
   - Participations and minority interests in regulated entities

B. Banks in Non-Financial Groups

C. Mixed-Activity Groups

D. Methods of Regulating Financial Conglomerates
   - Method 1
   - Method 2
   - Method 3
   - Method 4

E. Consolidating Unconnected Entities

F. Groups Headquartered Outside the EU

22. Cross-Border Supervision of Bank Groups

A. International Group Supervision

B. EU Group Supervision

23. Pillar Three—Disclosure Requirements

A. Introduction

B. Scope of the Pillar Three Regime

C. Basic Requirements
   - Basel requirements
   - EU requirements

D. Capital Structure
   - Basel requirements
   - EU requirements
