1. Introduction 1

2. Global security: learning from possible futures 17

3. Explaining the First World War: learning from classical theories of imperialism 36

4. The origins of the First World War: using historical counterfactuals in constructing open-system explanations 59

5. The long downward wave of the world economy in the late twentieth century: towards a return of the past? 100

7. Possible futures A: the logic of violence and war returns to the core areas of global political economy 156

8. Possible futures B and C: wars, crises and peaceful transformations of global governance 182

9. Conclusions: is the future of global security a tragedy, farce, or comedy? 216
Appendix 1: How to analyse and help solve global collective dilemmas
225
Appendix 2: Layers of agency, structures and geo-historical nodal points that explain the First World War
