Introduction: Measuring and Explaining Productivity Gaps Between Developed Countries	1
<i>Gilbert Cette, Michel Fouquin and Hans-Werner Sinn</i>	
Measurement Issues	1
International Comparisons	4
Country focus	7
Determinants	8
Conclusions of the Seminar	10
1. Comparing Growth in GDP and Labour Productivity:	
Measurement Issues	11
<i>Nadim Ahmad, François Lequiller, Pascal Marianna, Dirk Pilat, Paul Schreyer and Anita Wölfl</i>	
1.1 Measuring nominal GDP	11
1.2 Measuring real GDP	16
1.3 Measuring labour input	21
1.4 Conclusion and future work	21
1.5 Glossary	23
2. The Breaks in Per Capita Productivity: Trends in a Number of Industrial Countries	25
<i>Tristan Pierre-Maury and Bertrand Pluyaud</i>	
2.1 Abstract	25
2.2 Introduction	26
2.3 Chosen approach	27
2.4 Presenting and processing the data	29
2.5 Results	30
2.6 Conclusions	37

3. ICT Diffusion and Potential Output Growth	40
<i>Gilbert Cette, Jacques Mairesse and Yusuf Kocoglu</i>	
3.1 Abstract	40
3.2 Introduction	40
3.3 Medium to long-term effects	40
3.4 Short to medium-term effects	42
3.5 Conclusions	43
4. Yeasty Investment and Mushroom Productivity Growth: an Industry Perspective on European and American Performance, 1987–2003	45
<i>Robert Inklaar and Marcel P. Timmer</i>	
4.1 Introduction	45
4.2 Data and Methodology	47
4.3 Conclusions	60
5. Growth Patterns in the OECD Area: Evidence from the Aggregate, Industry and Firm Level	64
<i>Dirk Pilat</i>	
5.1 Introduction	64
5.2 Growth patterns in the OECD area	65
5.3 Strengthening MFP growth	75
5.4 Concluding remarks	89
6. Information Technology and the G7 economies	93
<i>Dale W. Jorgenson</i>	
6.1 Introduction	93
6.2 Investment and productivity	95
6.3 Investment in information technology	103
6.4 Alternative approaches	112
6.5 Conclusions	114
7. Productivity, Innovation and ICT in Old and New Europe	118
<i>Bart van Ark and Marcin Piatkowski</i>	
7.1 Summary	118
7.2 Introduction	118
7.3 Convergence and labour input during the 1990s and early 2000s	120
7.4 The contribution of ICT capital to growth	126
7.5 The contribution of ICT production and ICT use to growth	131
7.6 Determinants of ICT diffusion and the convergence process in CEE countries	138
7.7 Conclusions	141

8. Information Technology and the Japanese Economy	150
<i>Dale W. Jorgenson and Kazuyuki Motohashi</i>	
8.1 Abstract	150
8.2 Introduction	150
8.3 Theoretical Framework	151
8.4 Data	155
8.5 Results	161
8.6 Potential output growth in Japan and the US	167
8.7 Conclusions	171
9. Outsourcing and Productivity Growth: Sectoral Evidence from Germany	175
<i>Theo Eicher, Thomas Fuchs and Hans-Günther Vieweg</i>	
9.1 Abstract	175
9.2 Introduction	175
9.3 Methodology: value-added vs. gross output measures	178
9.4 The Ifo productivity database	187
9.5 Explanation of key industries	189
9.6 Conclusions	191
10. Determinants of Productivity per Employee: an Empirical Estimation using Panel Data	195
<i>Nicolas Belorgey, Rémy Lecat and Tristan-Pierre Maury</i>	
10.1 Abstract	195
10.2 Introduction	195
10.3 Determinants of the growth rate of apparent labour productivity in the 1990s	198
10.4 Factors determining the level of apparent labour productivity in 2000	205
11. Labour Quality and Skill Biased Technological Change in France	216
<i>Johanna Melka and Laurence Nayman</i>	
11.1 Summary	216
11.2 Background and motivations	216
11.3 Descriptive statistics	218
11.4 Demand for college educated workers: demand from technological change	231
11.5 Concluding remarks	238
Index	243
