Contents

PREFACE  xxi

1 MAKING ECONOMIC DECISIONS

Alternative Fuel Vehicles  2

A Sea of Problems  4
  Simple Problems  4
  Intermediate Problems  4
  Complex Problems  4

The Role of Engineering Economic Analysis  5
  Examples of Engineering Economic Analysis  5

The Decision-Making Process  6
  Rational Decision Making  6

Ethics  15
  Ethical Dimensions in Engineering Decision Making  15
  Importance of Ethics in Engineering and Engineering Economy  18

Engineering Decision Making for Current Costs  18

Summary  21
Problems  23
2 ENGINEERING COSTS AND COST ESTIMATING

North Slope Natural Gas Pipeline 32

Engineering Costs 34
  Fixed, Variable, Marginal, and Average Costs 34
  Sunk Costs 37
  Opportunity Costs 38
  Recurring and Nonrecurring Costs 40
  Incremental Costs 40
  Cash Costs Versus Book Costs 41
  Life-Cycle Costs 41

Cost Estimating 43
  Types of Estimate 44
  Difficulties in Estimation 45

Estimating Models 46
  Per-Unit Model 46
  Segmenting Model 48
  Cost Indexes 49
  Power-Sizing Model 51
  Triangulation 52
  Improvement and the Learning Curve 52

Estimating Benefits 56

Cash Flow Diagrams 56
  Categories of Cash Flows 57
  Drawing a Cash Flow Diagram 57
  Drawing Cash Flow Diagrams with a Spreadsheet 58

Summary 59
Problems 60

Trust Me, You'll Use This! 68

3 INTEREST AND EQUIVALENCE

Going Up in Smoke 70

Computing Cash Flows 72
Contents

Time Value of Money 73
  Simple Interest 74
  Compound Interest 75
  Repaying a Debt 76
Equivalence 78
  Difference in Repayment Plans 78
  Equivalence is Dependent on Interest Rate 81
  Application of Equivalence Calculations 82
Single Payment Compound Interest Formulas 83
Summary 90
Problems 91

4 More Interest Formulas

Anne Scheiber's Bonanza 94
Uniform Series Compound Interest Formulas 96
Economic Equivalence Viewed as a Moment Diagram 106
Relationships Between Compound Interest Factors 108
  Single Payment 109
  Uniform Series 109
Arithmetic Gradient 110
  Derivation of Arithmetic Gradient Factors 111
Geometric Gradient 116
Nominal and Effective Interest 120
Continuous Compounding 126
  Single Payment Interest Factors: Continuous Compounding 126
  Uniform Payment Series: Continuous Compounding at Nominal Rate \( r \) per Period 129
Spreadsheets for Economic Analysis 131
  Spreadsheet Annuity Functions 131
  Spreadsheet Block Functions 132
  Using Spreadsheets for Basic Graphing 133
5 Present Worth Analysis

Boeing Versus Airbus 150

Assumptions in Solving Economic Analysis Problems 152
  End-of-Year Convention 152
  Viewpoint of Economic Analysis Studies 152
  Sunk Costs 153
  Borrowed Money Viewpoint 153
  Effect of Inflation and Deflation 153
  Income Taxes 153

Economic Criteria 154

Applying Present Worth Techniques 154
  Useful Lives Equal the Analysis Period 155
  Useful Lives Different from the Analysis Period 158
  Infinite Analysis Period: Capitalized Cost 161
  Multiple Alternatives 165

Spreadsheets and Present Worth 169

Summary 171
Problems 172

6 Annual Cash Flow Analysis

Lowest Prices on the Net! Buy Now! 184

Annual Cash Flow Calculations 186
  Resolving a Present Cost to an Annual Cost 186
  Treatment of Salvage Value 186

Annual Cash Flow Analysis 190

Analysis Period 192
  Analysis Period Equal to Alternative Lives 194
  Analysis Period a Common Multiple of Alternative Lives 194
Analysis Period for a Continuing Requirement 194
Infinite Analysis Period 195
Some Other Analysis Period 196

Using Spreadsheets to Analyze Loans 198
Building an Amortization Schedule 198
How Much to Interest? How Much to Principal? 199
Finding the Balance Due on a Loan 199
Pay Off Debt Sooner by Increasing Payments 200

Summary 201
Problems 202

7 RATE OF RETURN ANALYSIS

Bar Codes Gives a Number; RFID Codes Tell a Story 210

Internal Rate of Return 212

Calculating Rate of Return 213
  Plot of NPW Versus Interest Rate $i$ 217

Interest Rates When There Are Fees or Discounts 220

Loans and Investments Are Everywhere 222

Incremental Analysis 226
  Present Worth Analysis 229
  Analysis Period 231

Spreadsheets and Rate of Return Analysis 233

Summary 233
Problems 235

Appendix 7A Difficulties in Solving for an Interest Rate 244
  Why Multiple Solutions Can Occur 245
  Projects with Multiple Sign Changes 246
  Evaluating How Many Roots There Are 248
  Modified Internal Rate of Return (MIRR) 252
8 CHOOSING THE BEST ALTERNATIVE

- Tapping into Controversy 258
- Incremental Analysis 260
- Graphical Solutions 260
- Elements in Comparing Mutually Exclusive Alternatives 269
- Doing a Set of Incremental Challenger–Defender Comparisons 270
- Choosing an Analysis Method 272
- Spreadsheets and GOAL SEEK 272

Summary 274
Problems 274

9 OTHER ANALYSIS TECHNIQUES

- Clean, Green, and Far Between 282
- Future Worth Analysis 284
- Benefit–Cost Ratio Analysis 286
  - Variations on the Theme of the Benefit–Cost Ratio 291
- Payback Period 294
- Sensitivity and Breakeven Analysis 298
- Graphing with Spreadsheets for Sensitivity and Breakeven Analysis 304
- Doing What-If Analysis with Spreadsheets 307

Summary 308
Problems 309

10 UNCERTAINTY IN FUTURE EVENTS

- They Only Thought They Were Done 318
- Estimates and Their Use in Economic Analysis 320
- A Range of Estimates 322
- Probability 324
Joint Probability Distributions 327

Expected Value 329

Economic Decision Trees 332

Risk 338

Risk Versus Return 341

Simulation 342

Real Options 346

Summary 346

Problems 347

<table>
<thead>
<tr>
<th>11 DEPRECIATION</th>
</tr>
</thead>
</table>

Depreciation and Competitiveness 354

Basic Aspects of Depreciation 356
  - Deterioration and Obsolescence 356
  - Depreciation and Expenses 357
  - Types of Property 358
    - Depreciation Calculation Fundamentals 358

Historical Depreciation Methods 359
  - Straight-Line Depreciation 360
  - Sum-of-Years’-Digits Depreciation 361
  - Declining Balance Depreciation 363

Modified Accelerated Cost Recovery System (MACRS) 365
  - Cost Basis and Placed-in-Service Date 365
  - Property Class and Recovery Period 366
  - Percentage Tables 367
    - Where MACRS Percentage Rates \(r_t\) Come From 369
  - MACRS Method Examples 370
    - Comparing MACRS and Historical Methods 371

Depreciation and Asset Disposal 372

Unit-of-Production Depreciation 376
Depletion 377
  Cost Depletion 377
  Percentage Depletion 378

Spreadsheets and Depreciation 379
  Using VDB for MACRS 380

Summary 381
Problems 382

12 INCOME TAXES

On with the Wind 388

A Partner in the Business 390

Calculation of Taxable Income 390
  Taxable Income of Individuals 390
  Classification of Business Expenditures 391
  Taxable Income of Business Firms 392

Income Tax Rates 393
  Individual Tax Rates 393
  Corporate Tax Rates 395
  Combined Federal and State Income Taxes 396
  Selecting an Income Tax Rate for Economy Studies 397

Economic Analysis Taking Income Taxes into Account 397

Capital Gains and Losses for Nondepreciated Assets 401
  Investment Tax Credit 401

Estimating the After-Tax Rate of Return 402

After-Tax Cash Flows and Spreadsheets 403

Summary 403
Problems 405
13 Replacement Analysis

14 Inflation and Price Change

The Athabasca Oil Sands 450

Meaning and Effect of Inflation 452
  How Does Inflation Happen? 452
  Definitions for Considering Inflation in Engineering Economy 453

Analysis in Constant Dollars Versus Then-Current Dollars 460

Price Change with Indexes 462
  What Is a Price Index? 462
  Composite Versus Commodity Indexes 464
  How to Use Price Indexes in Engineering Economic Analysis 466

Cash Flows That Inflate at Different Rates 466

Different Inflation Rates per Period 468

Inflation Effect on After-Tax Calculations 469

Using Spreadsheets for Inflation Calculations 472

Summary 474
Problems 475

15 Selection of a Minimum Attractive Rate of Return

BP Goes to Russia 482

Sources of Capital 484
  Money Generated from the Firm’s Operations 484
  External Sources of Money 484
  Choice of Source of Funds 484

Cost of Funds 485
  Cost of Borrowed Money 485
  Cost of Capital 485
  Inflation and the Cost of Borrowed Money 486

Investment Opportunities 487
  Opportunity Cost 487
16 ECONOMIC ANALYSIS IN THE PUBLIC SECTOR

From Waste to Power and Money 506

Investment Objective 508

Viewpoint for Analysis 510

Selecting an Interest Rate 511
- No Time-Value-of-Money Concept 511
- Cost of Capital Concept 511
- Opportunity Cost Concept 512
- Recommended Concept 512

The Benefit–Cost Ratio 513

Incremental Benefit–Cost Analysis 515
- Elements of the Incremental Benefit–Cost Ratio
  Method 516

Other Effects of Public Projects 520
- Project Financing 521
- Project Duration 521
- Quantifying and Valuing Benefits and Disbenefits 523
- Project Politics 524

Summary 526
Problems 526
17 ACCOUNTING AND ENGINEERING ECONOMY

The Two Faces of ABB 534

The Role of Accounting 536
   Accounting for Business Transactions 536

The Balance Sheet 537
   Assets 537
   Liabilities 538
   Equity 539
   Financial Ratios Derived from Balance Sheet Data 539

The Income Statement 540
   Financial Ratios Derived from Income Statement Data 542
   Linking the Balance Sheet, Income Statement, and Capital Transactions 542

Traditional Cost Accounting 543
   Direct and Indirect Costs 544
   Indirect Cost Allocation 544
   Problems with Traditional Cost Accounting 545
   Other Problems to Watch For 546

Problems 547

APPENDIX A INTRODUCTION TO SPREADSHEETS 551
   The Elements of a Spreadsheet 551
   Defining Variables in a Data Block 552
   Copy Command 552
