CONTENTS

Preface 5

Health Service Planning Models 9
Operational Research Modelling to Support Healthcare Operations Management
Dave Worthington

The ORCHID Project – Using Operational Research to build Partnerships for Community Health Development
Colin Thunhurst, Mary Cronin and Margaret Curtin 23

Managing a Hospital Geriatric Ward: Identifying Cost-Effective Strategies
Barry Shaw and Adele H. Marshall 39

Hospital Workflow Management: a Case Study
Burcu Toker Ersöz and Haluk S. Balkan 53

Developing an Application of an Accident and Emergency Patient Simulation Modelling Using an Interactive Framework
A Codrington-Virtue, T Chaussalet, P Whittlestone and J Kelly 61

Simulation Modelling of a Major Accident and Emergency Department in Rome
Linda Salustri, Paola Sbandi, Sally Brailsford, Roberto Brocato, Vanda De Angelis, Paul Harper and Giovanna Jona Lasinio. 77

Waiting Time and Reducing the Delay in Hospital Elective Procedures
Saeedeh Ketabi 91

Optimising the use of Resources 105

Decision Support for Efficient Ambulance Logistics
Tobias Andersson, Sverker Petersson, Peter Värbrand 107

Modelling the Assignment of Outpatient Examination Rooms
Steve Gallivan 127

Optimization Modelling of Hospital Operating Room Planning: Analyzing Strategies and Problem Settings
Marie Persson and Jan A. Persson 137
NSPLib – A Nurse Scheduling Problem Library: a Tool to Evaluate (meta-) Heuristic Procedures
Mario Vanhoucke and Broos Maenhout

Performance Measurement
Performance Assessment of Hospitals by using Simulation
Murat M. Gunal and Mike Pidd
An Evaluation of the Managed Care Program as Applied to the Brazilian Supplementary Health Service
Léa Maria Dantas Sampaio, Mario Jorge Ferreira De Oliveira and Anibal Alberto Vilcapoma Ignácio
Production Functions and Efficiency Evaluation in Health Care
Martin Dlouhy

Patient Issues
Choice OR Choice?
Penelope M Mullen

Disease Modelling
Can Patient Progress Modelling Inform the Management of Cancer Patients?
Martin Utley, Steve Gallivan, Mark Jit, Christos Paschalides, Carol Tan and Tom Treasure
A Scenario-Based Approach to the Improvement of Healthcare Delivery to Stroke Patients in the Community
Beste Kucukyazici, Vedat Verter, Lyne Nadeau and Nancy E Mayo
The Development of a Risk Model to Assist with the Monitoring of Surgical Wound Infections
Chris Sherlaw-Johnson, Steve Gallivan and Peter Wilson

Corresponding Authors’ Addressee
List of Participants
Published Proceedings from Previous Meetings
