

# INTRODUCTION TO OPERATIONS AND SUPPLY CHAIN MANAGEMENT

---

SECOND EDITION

**Cecil C. Bozarth**

North Carolina State University

**Robert B. Handfield**

North Carolina State University

Pearson Education International

# CONTENTS

PREFACE xvii

## PART I

### CREATING VALUE THROUGH OPERATIONS AND SUPPLY CHAINS 1

#### 1 *Introduction to Operations and Supply Chain Management* 1

- Introduction 2
- 1.1 Why Study Operations and Supply Chain Management? 3
  - Operations Management 5
  - Supply Chain Management 7
- 1.2 Important Trends 11
  - Electronic Commerce 11
  - Increasing Competition and Globalization 12
  - Relationship Management 12
- 1.3 Operations and Supply Chain Management and You 12
  - Professional Organizations 13
  - Cross-functional and Interorganizational Linkages 14
- 1.4 Purpose and Organization of This Book 15
- Chapter Summary 17
- Key Terms 17
- Discussion Questions 17
- Problems 17
- Supply Chain Challenges at Leapfrog 18
- References 20

#### 2 *Operations and Supply Chain Strategies* 21

- Apple iPod 22
- Introduction 23
- 2.1 Elements of the Business 23
- 2.2 Strategy 24
- 2.3 Operations and Supply Chain Strategies 26
  - Customer Value 28
  - Four Performance Dimensions 29
  - Trade-Offs among Performance Dimensions 32
  - Order Winners and Order Qualifiers 32

- Stages of Alignment with the Business Strategy 33
- Core Competencies in Operations and Supply Chains 34

- Chapter Summary 36
- Key Formulas 36
- Key Terms 37
- Solved Problem 37
- Discussion Questions 39
- Problems 39
- Catherine's Confectioneries 41
- References 41

#### 3 *Business Processes* 43

- Procter & Gamble 44
- Introduction 45
- 3.1 Business Processes 46
  - Improving Business Processes 47
- 3.2 Mapping Business Processes 48
  - Process Maps 48
  - Swim Lane Process Maps 52
- 3.3 Managing and Improving Business Processes 55
  - Measuring Business Process Performance 55
  - Productivity 56
  - Efficiency 58
  - Cycle Time 59
  - Benchmarking 60
  - The Six Sigma Methodology 61
  - Continuous Improvement Tools 62
  - Coordinating Process Improvement Efforts across the Supply Chain 70
  - Business Process Reengineering (BPR) 70
- 3.4 The Supply-Chain Operations Reference (SCOR) Model 71
- Chapter Summary 74
- Key Formulas 74
- Key Terms 74
- Solved Problem 75
- Discussion Questions 77
- Problems 77
- Zephthrex Fabric 79
- References 79

#### 4 *Managing Quality* 81

- Dell Computers Burned by Poor Quality 82
- Introduction 82
- 4.1 Quality Defined 83
- 4.2 Total Cost of Quality 86

- 4.3 Total Quality Management 88
  - TQM and the Six Sigma Methodology 92
- 4.4 Statistical Quality Control 92
  - Process Capability 93
  - Acceptance Sampling 104
  - Taguchi's Quality Loss Function 106
- 4.5 Managing Quality across the Supply Chain 107
  - ISO 9000 Family 108
  - External Failures in the Supply Chain 108
- Chapter Summary 109
- Key Formulas 109
- Key Terms 112
- Using Excel in Quality Management 112
- Solved Problem 113
- Discussion Questions 114
- Problems 114
- Dittenhoefer's Fine China 119
- References 121

**PART II**

**ESTABLISHING THE OPERATIONS ENVIRONMENT 124**

**5 Managing Projects 124**

- Building Mega Refineries in Record Time 124
- Introduction 125
- 5.1 The Growing Importance of Project Management 126
- 5.2 Project Phases 126
  - Concept Phase 127
  - Project Definition Phase 127
  - Planning Phase 127
  - Performance Phase 128
  - Postcompletion Phase 128
- 5.3 Project Management Tools 128
  - Gantt Charts 129
  - Network Diagrams 131
  - Constructing a Network Diagram 132
  - Crashing a Project 136
- 5.4 Project Management Software 139
- 5.5 PMI and the Project Management Body of Knowledge (PMBOK®) 141
- Chapter Summary 142
- Key Formulas 142
- Key Terms 143
- Solved Problem 143
- Discussion Questions 145
- Problems 145
- Viva Roma! 147
- References 148

**6 Developing Products and Services 149**

- Whirlpool 150
- Introduction 151
- 6.1 Operations and Supply Chain Perspectives on Design 153
  - Repeatability, Testability, and Serviceability 153
  - Product Volumes 154
  - Product Costs 154
  - Match with Existing Capabilities 155
- 6.2 The Development Process 156
  - A Model of the Development Process 157
  - Sequential Development versus Concurrent Engineering 158
- 6.3 Organizational Roles in Product and Service Development 159
  - Engineering 159
  - Marketing 160
  - Accounting 160
  - Finance 160
  - Designers 160
  - Purchasing 161
  - Suppliers 162
  - Who Leads? 162
- 6.4 Approaches to Improving Product and Service Designs 162
  - DMADV (Define-Measure-Analyze-Design-Verify) 162
  - Quality Function Deployment (QFD) 163
  - Computer-Aided Design (CAD) and Computer-Aided Design/Computer-Aided Manufacturing (CAD/CAM) 165
  - The "Design for . . ." Approaches 165
  - Target Costing and Value Analysis 166
- Chapter Summary 169
- Key Terms 169
- Discussion Questions 169
- Gillette 170
- References 171

**7 Process Choice and Layout Decisions in Manufacturing and Services 173**

- Bliven Furniture Company 174
- Introduction 175
- 7.1 Manufacturing Processes 175
  - Production Lines and Continuous Flow Manufacturing 176
  - Job Shops 178
  - Batch Manufacturing 178
  - Fixed-Position Layout 179
  - Hybrid Manufacturing Processes 179
  - Linking Manufacturing Processes across the Supply Chain 180

- Selecting a Manufacturing Process 181
- The Product-Process Matrix 181
- 7.2 Product Customization within the Supply Chain 182
  - Four Levels of Customization 182
  - The Customization Point 183
- 7.3 Service Processes 186
  - The Service Package 186
  - Service Customization 187
  - Customer Contact 188
  - Service Positioning 191
  - Services within the Supply Chain 192
- 7.4 Layout Decision Models 194
  - Line Balancing 194
  - Assigning Department Locations in Functional Layouts 199
- Chapter Summary 203
- Key Formulas 203
- Key Terms 204
- Solved Problem 204
- Discussion Questions 207
- Problems 207
- Manufacturing and Service Processes: Loganville Window Treatments 211
- References 212

## 8 *Managing Capacity* 213

- Merck and Crixivan 214
- Introduction 215
- 8.1 Capacity 215
  - Measures of Capacity 215
  - Factors That Affect Capacity 216
  - Supply Chain Considerations 217
- 8.2 Three Common Capacity Strategies 218
- 8.3 Methods of Evaluating Capacity Alternatives 219
  - Cost 219
  - Demand Considerations 222
  - Expected Value 222
  - Decision Trees 224
  - Break-Even Analysis 227
  - Other Considerations 227
- 8.4 Advanced Perspectives on Capacity 228
  - The Theory of Constraints (TOC) 228
  - Waiting Line Theory 229
  - Learning Curves 235
- Chapter Summary 238
- Key Formulas 238
- Key Terms 240
- Solved Problem 241
- Discussion Questions 242
- Problems 242
- Forster's Market 246
- References 247

## 8S *Advanced Waiting Line Theory and Simulation Modeling* 249

- Introduction 250
- 8S.1 Waiting Lines 250
  - Assumptions behind Waiting Line Theory 251
  - Waiting Line Formulas for Three Different Environments 253
- 8S.2 Simulation Modeling 256
  - Monte Carlo Simulation 256
  - Building and Evaluating Simulation Models with Sim Quick 258
- Supplement Summary 262
- Discussion Questions 262
- Problems 263
- References 263

### PART III

## ESTABLISHING SUPPLY CHAIN LINKAGES 265

### 9 *Forecasting* 265

- Cheeznax Snack Foods, Part 1 266
- Introduction 266
- 9.1 Forecast Types 267
  - Demand Forecasts 267
  - Supply Forecasts 267
  - Price Forecasts 267
- 9.2 Laws of Forecasting 269
  - Law 1: Forecasts Are Almost Always Wrong (But They Are Still Useful) 269
  - Law 2: Forecasts for the Near Term Tend to Be More Accurate 269
  - Law 3: Forecasts for Groups of Products or Services Tend to Be More Accurate 269
  - Law 4: Forecasts Are No Substitute for Calculated Values 270
- 9.3 Selecting a Forecasting Method 270
- 9.4 Qualitative Forecasting Methods 271
- 9.5 Time Series Forecasting Models 272
  - Last Period 273
  - Moving Average 274
  - Weighted Moving Average 276
  - Exponential Smoothing 277
  - Adjusted Exponential Smoothing 281
  - Linear Regression 282
  - Seasonal Adjustments 286
- 9.6 Causal Forecasting Models 290
  - Linear Regression 291
  - Multiple Regression 293
- 9.7 Measures of Forecast Accuracy 296
- 9.8 Computer-Based Forecasting Packages 299

9.9 Collaborative Planning, Forecasting, and Replenishment (CPFR) 299  
 Chapter Summary 304  
 Key Formulas 304  
 Key Terms 306  
 Solved Problem 307  
 Discussion Questions 310  
 Problems 310  
 Top-Slice Drivers 314  
 References 315

## 10 Sourcing Decisions 317

Apple's iPod Supply Chain at Risk 318  
 Introduction 319  
 10.1 The Sourcing Decision 319  
     Advantages and Disadvantages of Insourcing and Outsourcing 319  
     Total Cost Analysis 321  
 10.2 Sourcing Strategies 323  
     Portfolio Analysis 234  
     Single/Multiple Sourcing, Cross Sourcing, and Dual Sourcing 325  
 10.3 Supplier Evaluation 326  
     Weighted-Point Evaluation System 327  
 10.4 Trends in Supply Management 329  
     Supply Base Reduction 330  
     Global Sourcing 330  
     Supply Chain Disruptions 332  
 Chapter Summary 332  
 Key Formulas 332  
 Key Terms 333  
 Solved Problem 333  
 Discussion Questions 334  
 Problems 335  
 Pagoda.com 337  
 References 338

## 11 Purchasing 339

Sciqest 340  
 Introduction 341  
 11.1 Why Purchasing Is Critical 341  
     The Changing Global Competitive Landscape 341  
     Performance Impact 345  
 11.2 The Purchasing Process 346  
     Needs Identification 347  
     Description 347  
     Supplier Selection and Contracting 348  
     Ordering 351  
     Follow-up and Expediting 351  
     Receipt and Inspection 351  
     Settlement and Payment 351  
     Records Maintenance 352  
 11.3 Spend Analysis 352  
 Chapter Summary 355

Key Formulas 356  
 Key Terms 356  
 Discussion Questions 356  
 Problems 356  
 The ABCs of Spend Analysis 357  
 References 359

## 12 Logistics 362

Kraft Foods 362  
 Introduction 363  
 12.1 Logistics in the Twenty-First Century 363  
 12.2 Why Logistics Is Critical 364  
 12.3 Logistics Decision Areas 365  
     Transportation 365  
     Selecting a Transportation Mode 367  
     Multimodal Solutions 368  
     Warehousing 369  
     Improving Operational Flexibility 372  
     Logistics Information Systems 373  
     Material Handling and Packaging 375  
     Inventory Management 376  
 12.4 Logistics Strategy 377  
     Owning versus Outsourcing 377  
     Measuring Logistics Performance 378  
     Landed Costs 380  
     Reverse Logistics Systems 381  
 12.5 Logistics Decision Models 382  
     Weighted Center of Gravity Method 382  
     Optimization Models 384  
     The Assignment Problem 385  
 Chapter Summary 390  
 Key Formulas 391  
 Key Terms 392  
 Solved Problem 392  
 Discussion Questions 394  
 Problems 394  
 Just-In-Time Shipping 397  
 References 398

### PART IV

## PLANNING AND CONTROLLING OPERATIONS AND SUPPLY CHAINS 399

### 13 Sales and Operations Planning (Aggregate Planning) 399

Covolo Diving Gear, Part 1 400  
 Introduction 401  
 13.1 S&OP in the Planning Cycle 401  
 13.2 Major Approaches to S&OP 402  
     Top-Down Planning 404

Level, Chase, and Mixed Production Plans	407
Bottom-Up Planning	411
Cash Flow Analysis	413
13.3 Organizing for and Implementing S&OP	415
Choosing between Alternative Plans	416
Rolling Planning Horizons	418
Implementing S&OP in the Organization	418
13.4 Services Considerations	419
Making Sales Match Capacity	419
Making Capacity Match Sales	420
13.5 Linking S&OP throughout the Supply Chain	422
13.6 Applying Optimization Modeling to S&OP	423
Chapter Summary	426
Key Formulas	427
Key Terms	427
Solved Problem	427
Discussion Questions	429
Problems	429
Covolo Diving Gear, Part 2	433
References	434

## 14 *Managing Inventory throughout the Supply Chain* 435

Inventory Management at Amazon.com	436
Introduction	437
14.1 The Role of Inventory	438
Inventory Types	438
Inventory Drivers	441
Independent versus Dependent Demand Inventory	443
14.2 Periodic Review Systems	443
Restocking Levels	444
14.3 Continuous Review Systems	445
The Economic Order Quantity (EOQ)	446
Reorder Points and Safety Stock	449
Quantity Discounts	452
14.4 Single-Period Inventory Systems	454
Target Service Level	455
Target Stocking Point	456
14.5 Inventory in the Supply Chain	458
The Bullwhip Effect	458
Inventory Positioning	459
Chapter Summary	462
Key Formulas	462
Key Terms	464
Using Excel in Inventory Management	464
Solved Problems	465
Discussion Questions	466
Problems	467
Northcutt Bikes: The Service Department	471
References	473

## 15 *Managing Production across the Supply Chain* 475

Herman Miller	476
Introduction	477
15.1 Master Scheduling	478
The Master Schedule Record	479
Using the Master Schedule	485
15.2 Material Requirements Planning	486
The MRP Record	488
The Advantages of MRP	494
Special Considerations in MRP	494
15.3 Production Activity Control and Vendor Order Management Systems	496
Job Sequencing	496
Monitoring and Tracking Technologies	498
15.4 Synchronizing Planning and Control across the Supply Chain	498
Distribution Requirements Planning	498
Chapter Summary	502
Key Formulas	502
Key Terms	503
Solved Problem	504
Discussion Questions	505
Problems	505
The Realco Breadmaster	513
References	513

## 15S *Supply Chain Information Systems* 515

Introduction	516
15S.1 Understanding Supply Chain Information Needs	516
Differences across Organizational Levels	516
Direction of Linkages	518
15S.2 Supply Chain Information Systems	518
Supplement Summary	521
Key Terms	522
Discussion Questions	522
References	523
Internet	523

## 16 *JIT/Lean Production* 526

Toyota Motor Company	526
Introduction	527
16.1 The Lean Perspective on Waste	528
16.2 The Lean Perspective on Inventory	530
16.3 Recent Developments in Lean Thinking	531
Mapping the Process	532
Behind the Waste and Variation	532
Improving the Process	534
Maintaining Improvement	534
Summary: Process in Control	535

16.4 Kanban Systems	535
Controlling Inventory Levels Using Kanbans	538
Synchronizing the Supply Chain Using Kanbans	540
Using MRP and Kanban Together	541
Chapter Summary	543
Key Formula	543
Key Terms	543
Solved Problems	543
Discussion Questions	545

Problems	545
A Bumpy Road for Toyota	545
References	548

APPENDICES 549

GLOSSARY 555

INDEX 569
