Contents

Preface xxix

PART 1

Introduction to International Trade.....

CHAPTER 1 Trade in the Global Economy 1

1 International Trade 2

The Basics of World Trade 3

Map of World Trade 4

HEADLINES Barbie and the World Economy 5

Trade Compared with GDP 10

Barriers to Trade 10

First "Golden Age" of Trade 11

HEADLINES A Sea Change in Shipping 50 Years Ago 14

2 Migration and Foreign Direct Investment 15

Map of Migration 15

HEADLINES Balkans Need Not Apply 17

HEADLINES Low-Wage Workers from Mexico Dominate Latest Great Wave of Immigrants 18

Map of Foreign Direct Investment 19

HEADLINES Chinese Buyer of PC Unit Is Moving to I.B.M.'s Hometown 23

3 Conclusions 23

Key Points, Key Terms, and Problems

PART 2

Patterns of International Trade.....

CHAPTER 2 Trade and Technology: The Ricardian Model 27

1 Reasons for Trade 29

Proximity 29

Resources 29

Absolute Advantage 30

Comparative Advantage 31

SIDE BAR David Ricardo and Mercantilism 32

2 Ricardian Model 32

The Home Country 32

The Foreign Country 37

APPLICATION Comparative Advantage in Apparel, Textiles, and Wheat 39

3 Determining the Pattern of International Trade 40

SIDE BAR Can Comparative Advantage Be Created? The Case of "Icewine" 41

International Trade Equilibrium 41

Solving for Wages across Countries 45

APPLICATION Labor Productivity and Wages 47

4 Solving for International Prices 49

Home Export Supply Curve 49

Foreign Import Demand Curve 51

International Trade Equilibrium 52

APPLICATION The Terms of Trade for Primary Commodities 53

5 Conclusions 56

Key Points, Key Terms, and Problems

CHAPTER 3 Gains and Losses from Trade in the Specific-Factors Model 61

HEADLINES All Smoke, No Fire in Bolivia 63

1 Specific-Factors Model 64

The Home Country 64

The Foreign Country 68

Overall Gains from Trade 68

APPLICATION How Large Are the Gains from Trade? 69

2 Earnings of Labor 70

Determination of Wages 70

Change in Relative Price of Manufactures 72

APPLICATION Manufacturing and Services in the United States:
Employment and Wages across Sectors 75

APPLICATION Trade Adjustment Assistance Programs: Financing the
Adjustment Costs of Trade 78

3 Earnings of Capital and Land 79

HEADLINES A New Safety Net for Displaced Workers 80

Determining the Payments to Capital and Land 80

Numerical Example 83

What It All Means 86

APPLICATION Prices in Agriculture 86

HEADLINES Rise in Coffee Prices—Great for Farmers, Tough on
Coops 90

4 Conclusions 90

Key Points, Key Terms, and Problems

CHAPTER 4 Trade and Resources: The Heckscher-Ohlin Model 95

1 Heckscher-Ohlin Model 97

Assumptions of the Heckscher-Ohlin Model 97

	APPLICATION Are Factor Intensities the Same across Countries? 99
	No-Trade Equilibrium 101
	Free-Trade Equilibrium 103
	Testing the Heckscher-Ohlin Theorem: Leontief's Paradox 108
2	Effects of Trade on Factor Prices 110
	Effect of Trade on the Wage and Rental of Home 110
	Determination of the Real Wage and Real Rental 114
	Changes in the Real Wage and Rental: A Numerical Example 115
	APPLICATION Opinions toward Free Trade 119
3	Extending the Heckscher-Ohlin Model 120
	Many Goods, Factors, and Countries 120
	Differing Productivities across Countries 124
	Extending the Heckscher-Ohlin Theorem 127
	HEADLINES Food Imports Close to Matching Level of Exports 128
	APPLICATION Why Does India Import Cotton Textiles? 131
4	Conclusions 133
	Key Points, Key Terms, and Problems
	Appendix to Chapter 4 138
CHAPTER 5	Movement of Labor and Capital between Countries: Migration 141
1	Movement of Labor between Countries 143
	Effects of Immigration in the Short Run: Specific-Factors Model 143
	APPLICATION Immigration to the New World 146
	APPLICATION Immigration to the United States and Europe Today 147
	HEADLINES EU's New Tack on Immigration 148
	Other Effects of Immigration in the Short Run 150
	Effects of Immigration in the Long Run 152
	Rybczynski Theorem 157
	Factor Price Insensitivity 157
	APPLICATION The Effects of the Mariel Boat Lift on Industry Output in Miami 158
	APPLICATION Immigration and U.S. Wages, 1990-2004 160
2	Movement of Capital between Countries: Foreign Direct Investment 161
	Greenfield Investment 162
	FDI in the Short Run: Specific-Factors Model 162
	FDI in the Long Run 165

APPLICATION The Effect of FDI on Rentals and Wages in Singapore 166

HEADLINES The Myth of Asia's Miracle 169

3 Gains from Labor and Capital Flows 169

Gains from Immigration 170

SIDE BAR Immigrants and Their Remittances 173

APPLICATION Gains from Migration 174

SIDE BAR How Large Are Moving Costs? 175

Gains from Foreign Direct Investment 177

HEADLINES Labor Migration in the Expanded European Union 178

4 Conclusions 179

Key Points, Key Terms, and Problems

CHAPTER 6 Increasing Returns to Scale and Imperfect Competition 185

1 Basics of Imperfect Competition 189

Monopoly Equilibrium 189

Demand with Duopoly 190

2 Trade under Monopolistic Competition 191

Equilibrium without Trade 193

Equilibrium with Free Trade 195

3 Empirical Applications of Monopolistic Competition and Trade 199

Gains and Adjustment Costs for Canada under NAFTA 199

HEADLINES What Happened When Two Countries Liberalized Trade? Pain, Then Gain 200

Gains and Adjustment Costs for Mexico under NAFTA 201

Gains and Adjustment Costs for the United States under NAFTA 205

Another Application: Intra-Industry Trade 208

The Gravity Equation 209

APPLICATION The Gravity Equation for Canada and the United States 212

4 Imperfect Competition with Homogeneous Products: The Case of Dumping 215

A Model of Product Dumping 215

Numerical Example of Dumping 218

Reciprocal Dumping 218

Numerical Example of Reciprocal Dumping 219

5 Conclusions 222

Key Points, Key Terms, and Problems

PART 3 New Explanations for International Trade

.....

CHAPTER 7 Foreign Outsourcing of Goods and Services 227

APPLICATION Is Trade Today Different from the Past? 229

SIDE BAR Outsourcing versus Offshoring 230

1 A Model of Outsourcing 232

Value Chain of Activities 233

Changing the Costs of Trade 235

APPLICATION Change in Relative Wages across Countries 238

Change in Relative Wages in the United States 238

Change in Relative Wages in Mexico 244

2 The Gains from Outsourcing 245

Simplified Outsourcing Model 246

Production in the Absence of Outsourcing 248

Terms of Trade 251

APPLICATION U.S. Terms of Trade and Service Exports 254

HEADLINES Soccer, Samba and Outsourcing? 257

APPLICATION Impact of Outsourcing on U.S. Productivity 258

3 Outsourcing in Services 259

The Logic of Service Outsourcing 259

The Future of U.S. Comparative Advantage 261

SIDE BAR Outsourcing Microsoft Windows 261

4 Conclusions 263

HEADLINES Pomp and Circumspect 264

Key Points, Key Terms, and Problems

PART 4
International Trade
Policies

**CHAPTER 8 Import Tariffs and Quotas under Perfect
Competition 271**

1 A Brief History of the World Trade Organization 273

SIDE BAR Key Provisions of the GATT 275

2 Gains from Trade 276

Consumer and Producer Surplus 276

Home Welfare 277

Home Import Demand Curve 279

3 Import Tariffs for a Small Country 281

Free Trade for a Small Country 281

Effect of the Tariff 281

Why Are Tariffs Used? 285

SIDE BAR Globalization and Developing Countries—A Shrinking Tax
Base? 285

- APPLICATION** U.S. Tariffs on Steel 286
HEADLINES Europe's Little List: Apples, Tractors, and Toilet Paper 290

4 Import Tariffs for a Large Country 290

- Foreign Export Supply 291
 Effect of the Tariff 292
APPLICATION U.S. Tariffs on Steel Once Again 294

5 Import Quotas 298

- Import Quota in a Small country 298
HEADLINES Europe Reaches Deal on Banana Imports 299
HEADLINES Sweet Opportunity 299
APPLICATION Auctioning Import Quotas in Australia and New Zealand 302
APPLICATION China and the Multifibre Arrangement 304

6 Conclusions 308

- Key Points, Key Terms, and Problems

CHAPTER 9 Import Tariffs and Quotas under Imperfect Competition 313

1 Tariffs and Quotas with Home Monopoly 315

- No-Trade Equilibrium 315
 Free-Trade Equilibrium 316
 Effect of a Home Tariff 318
 Effect of a Home Quota 320
APPLICATION U.S. Imports of Japanese Automobiles 322

2 Infant Industry Protection 325

- Free-Trade Equilibrium 327
 Tariff Equilibrium 328
APPLICATION Examples of Infant Industry Protection 329
 Protecting the Automobile Industry in China 329
HEADLINES Thanks to Detroit, China Is Poised to Lead 333
 Computers in Brazil 334
 U.S. Tariff on Heavyweight Motorcycles 336

3 Tariffs with Foreign Monopoly 340

- Foreign Monopoly 340
APPLICATION Import Tariffs on Japanese Trucks 342

4 Policy Response to Dumping 343

- Antidumping and Countervailing Duties 344
APPLICATION Antidumping/Countervailing Duties versus Safeguard Tariffs 346

5 Conclusions 348

HEADLINES U.S. to Impose New Duties on Chinese Goods 349
Key Points, Key Terms, and Problems

CHAPTER 10 Export Subsidies in Agriculture and High-Technology Industries 355

1 WTO Goals on Agricultural Export Subsidies 356

Agricultural Export Subsidies 357

Other Matters from the Hong Kong WTO Meeting 359

HEADLINES Brazil Wins Rulings on 2 Trade Issues 359

2 Agricultural Export Subsidies in a Small Home Country 360

Impact of an Export Subsidy 361

3 Agricultural Export Subsidies in a Large Home Country 363

Effect of the Subsidy 363

APPLICATION Who Gains and Who Loses? 366

4 Agricultural Production Subsidies 368

HEADLINES Advertisement from UN Agencies 369

HEADLINES We Are Solely Concerned for Needs of Poor and Hungry 369

Effect of a Production Subsidy in a Small Home Country 370

Effect of the Production Subsidy in a Large Home Country 372

5 High-Technology Export Subsidies 373

"Strategic" Use of High-Tech Export Subsidies 373

Effect of a Subsidy to Airbus 377

HEADLINES Airbus, China and Quid Pro Quo 377

Subsidy with Cost Advantage for Boeing 379

Best Strategy for Boeing 381

APPLICATION Subsidies to Commercial Aircraft 382

6 Conclusions 385

HEADLINES Airbus in a Spin as Investors Punish Delays 386
Key Points, Key Terms, and Problems

CHAPTER 11 International Agreements: Trade, Labor, and the Environment 391

1 International Trade Agreements 393

The Logic of Multilateral Trade Agreements 394

Regional Trade Agreements 398

Trade Creation and Trade Diversion 399

Numerical Example of Trade Creation and Diversion 400
HEADLINES A Korean-American Strand Enters Trade's Spaghetti Bowl 401

Trade Diversion in a Graph 402

APPLICATION Trade Creation and Diversion for Canada 405

2 International Agreements on Labor Issues 406

Labor Side Agreement under NAFTA 407

Other Labor Agreements 407

HEADLINES Nike Reveals Overseas Supply Chain 410

3 International Agreements on the Environment? 412

Environmental Issues in the GATT and WTO 412

Does Trade Help or Harm the Environment? 416

HEADLINES The Power of Big Corn 417

The Tragedy of the Commons 418

HEADLINES Ban on Caspian Sea Caviar Exports 420

International Agreements on Pollution 422

APPLICATION The Kyoto Protocol 425

HEADLINES Fixing Kyoto—A Global Superfund 427

4 Conclusions 427

Key Points, Key Terms, and Problems

CHAPTER 12 The Global Macroeconomy 433

1 Foreign Exchange: Of Currencies and Crises 434

How Exchange Rates Behave 435

Why Exchange Rates Matter 436

When Exchange Rates Misbehave 438

HEADLINES Economic Crisis in Argentina 440

Summary 441

2 Globalization of Finance: Of Debts and Deficits 442

Deficits and Surpluses: The Balance of Payments 442

Debtors and Creditors: External Wealth 445

Darlings and Deadbeats: Defaults and Other Risks 446

Summary 448

3 Government and Institutions: Of Policies and Performance 449

Integration and Capital Controls: The Regulation of International Finance 450

Independence and Monetary Policy: The Choice of Exchange Rate Regimes 451

Institutions and Economic Performance: The Quality of Governance 453

PART 5

Introduction to
 International
 Macroeconomics.....

Summary 455

HEADLINES The Wealth of Nations 456

4 Conclusions 457

Key Points, Key Terms, and Problems

PART 6
Exchange Rates
.....

CHAPTER 13 Introduction to Exchange Rates and the Foreign Exchange Market 461

1 Exchange Rate Essentials 462

Defining the Exchange Rate 462

Appreciations and Depreciations 464

Multilateral Exchange Rates 466

Example: Using Exchange Rates to Compare Prices in a Common Currency 467

HEADLINES By How Much Has the Dollar Fallen? 468

2 Exchange Rates in Practice 470

Exchange Rate Regimes: Fixed versus Floating 471

APPLICATION Recent Exchange Rate Experiences 471

SIDE BAR Currency Unions and Dollarization 477

3 The Market for Foreign Exchange 477

The Spot Contract 478

Transaction Costs 478

Derivatives 479

APPLICATION Foreign Exchange Derivatives 479

Private Actors 480

Government Actions 481

4 Arbitrage and Spot Exchange Rates 483

Cross Rates and Vehicle Currencies 485

5 Arbitrage and Interest Rates 486

Riskless Arbitrage: Covered Interest Parity 487

APPLICATION Evidence on Covered Interest Parity 489

Risky Arbitrage: Uncovered Interest Parity 490

SIDE BAR Assets and Their Attributes 491

APPLICATION Evidence on Uncovered Interest Parity 493

Uncovered Interest Parity: A Useful Approximation 494

Summary 496

6 Conclusions 496

Key Points, Key Terms, and Problems

CHAPTER 14 Exchange Rates I: The Monetary Approach in the Long Run 501

1 Exchange Rates and Prices in the Long Run: Purchasing Power Parity and Goods Market Equilibrium 502

The Law of One Price 503

Purchasing Power Parity 504

The Real Exchange Rate 505

Absolute PPP and the Real Exchange Rate 506

Absolute PPP, Prices, and the Nominal Exchange Rate 506

Relative PPP, Inflation, and Exchange Rate Depreciation 506

Summary 508

APPLICATION Evidence for PPP in the Long Run and Short Run 508

How Slow is Convergence to PPP? 509

SIDEBAR Forecasting When the Real Exchange Rate Is Undervalued or Overvalued 510

What Explains Deviations from PPP? 511

HEADLINES The Big Mac Index 512

2 Money, Prices, and Exchange Rates in the Long Run: Money Market Equilibrium in a Simple Model 514

What is Money? 514

The Measurement of Money 515

The Supply of Money 516

The Demand for Money: A Simple Model 516

Equilibrium in the Money Market 517

A Simple Monetary Model of Prices 518

A Simple Monetary Model of the Exchange Rate 519

Money Growth, Inflation, and Depreciation 519

3 The Monetary Approach: Implications and Evidence 521

Exchange Rate Forecasts Using the Simple Model 521

APPLICATION Evidence for the Monetary Approach 524

APPLICATION Hyperinflations of the Twentieth Century 525

SIDEBAR Currency Reform 527

HEADLINES The First Hyperinflation of the Twenty-First Century 529

4 Money, Interest, and Prices in the Long Run: A General Model 530

The Demand for Money: The General Model 530

Long-Run Equilibrium in the Money Market 531

Inflation and Interest Rates in the Long Run 532

The Fisher Effect 533

Real Interest Parity 533

APPLICATION Evidence on the Fisher Effect 534

The Fundamental Equation under the General Model 536
 Exchange Rate Forecasts Using the General Model 536

5 Monetary Regimes and Exchange Rate Regimes 539

The Long Run: The Nominal Anchor 540
SIDE BAR Nominal Anchors in Theory and Practice 542

6 Conclusions 543

Key Points, Key Terms, and Problems

CHAPTER 15 Exchange Rates II: The Asset Approach in the Short Run 549

1 Exchange Rates and Interest Rates in the Short Run: UIP and FX Market Equilibrium 550

Risky Arbitrage 550
 Equilibrium in the FX Market: An Example 552
 Adjustment to FX Market Equilibrium 554
 Changes in Domestic and Foreign Returns and FX Market Equilibrium 554
 Summary 556

2 Interest Rates in the Short Run: Money Market Equilibrium 556

Money Market Equilibrium in the Short Run: How Nominal Interest Rates Are Determined 557
 Money Market Equilibrium in the Short Run: Graphical Solution 558
 Adjustment to Money Market Equilibrium in the Short Run 559
 Another Building Block: Short-Run Money Market Equilibrium 559
 Changes in Money Supply and the Nominal Interest Rate 560
 Changes in Real Income and the Nominal Interest Rate 561
 The Monetary Model: The Short Run versus the Long Run 561

3 The Asset Approach: Applications and Evidence 562

The Asset Approach to Exchange Rates: Graphical Solution 562
 Short-Run Policy Analysis 565
APPLICATION The Rise and Fall of the Dollar, 1999–2004 567

4 A Complete Theory: Unifying the Monetary and Asset Approaches 569

SIDE BAR Confessions of a Forex Trader 571
 Long-Run Policy Analysis 572
 Overshooting 576
APPLICATION Bernanke's Bold Move 577
SIDE BAR Overshooting in Practice 578

5 Fixed Exchange Rates and the Trilemma 580

What Is a Fixed Exchange Rate Regime? 581

Pegging Sacrifices Monetary Policy Autonomy in the Short Run:
Example 581Pegging Sacrifices Monetary Policy Autonomy in the Long Run:
Example 583

The Trilemma 585

APPLICATION The Trilemma in Europe 586**SIDE BAR** Intermediate Regimes 587**6 Conclusions 587****APPLICATION** News and the Foreign Exchange Market in
Wartime 589

Key Points, Key Terms, and Problems

**CHAPTER 16 National and International Accounts: Income, Wealth,
and the Balance of Payments 597****1 Measuring Macroeconomic Activity: An Overview 598**The Flow of Payments in a Closed Economy: Introducing the National Income
and Product Accounts 599The Flow of Payments in an Open Economy: Incorporating the Balance of
Payments Accounts 601

Summary 604

2 National Accounts: Product, Expenditure, and Income 605

Three Approaches 605

From GNE to GDP: Accounting for Trade in Goods and Services 605

HEADLINES Who Makes the iPod? 607

From GDP to GNI: Accounting for Trade in Factor Services 608

APPLICATION Celtic Tiger or Tortoise? 609

From GNI to GNDI: Accounting for Transfers of Income 611

What the National Economic Aggregates Tell Us 613

HEADLINES Are Rich Countries "Stingy" with Foreign Aid? 614

Understanding the Data for the National Economic Aggregates 615

What the Current Account Tells Us 617

APPLICATION Global Imbalances 618**3 Balance of Payments Accounts: International Transactions 624**

Accounting for Asset Transactions 624

Accounting for Home and Foreign Assets 626

How the Balance of Payments Accounts Work 626

Understanding the Data for the Balance of Payments Account 631

What the Balance of Payments Account Tells Us 635

PART 7
The Balance of
Payments
.....

4 External Wealth 635

The Level of External Wealth 636

Changes in External Wealth 636

SIDE BAR The Nokia Economy 638

Understanding the Data on External Wealth 639

What External Wealth Tells Us 642

5 Conclusions 643**HEADLINES** Lies, Damned Lies . . . 643

Key Points; Key Terms, and Problems

Appendix to Chapter 16: External Wealth and Total Wealth 649**CHAPTER 17 Balance of Payments I: The Gains from Financial Globalization 651****1 Intertemporal Macroeconomics 653**

The Long-Run Budget Constraint 654

A Long-Run Example: The Perpetual Loan 658

Implications of the LRBC for Gross National Expenditure and Gross Domestic Product 658

Summary 659

APPLICATION The Favorable Situation of the United States 659**APPLICATION** The Difficult Situation of the Emerging Markets 662**2 Gains from Consumption Smoothing 665**

The Basic Model 665

Consumption Smoothing: A Numerical Example and Generalization 666

Summary: Save for a Rainy Day 670

SIDE BAR Wars and the Current Account 670**APPLICATION** Consumption Volatility and Financial Openness 671**APPLICATION** Precautionary Saving, Reserves, and Sovereign Wealth Funds 672**HEADLINES** Copper-Bottomed Insurance 674**HEADLINES** The Next Globalization Backlash? 674**3 Gains from Efficient Investment 675**

The Basic Model 675

Efficient Investment: A Numerical Example and Generalization 675

Summary: Make Hay while the Sun Shines 679

APPLICATION Delinking Saving from Investment 679

Can Poor Countries Gain from Financial Globalization? 681

APPLICATION A versus k 686**SIDE BAR** What Does the World Bank Do? 690**HEADLINES** A Brief History of Foreign Aid 691

4 Gains from Diversification of Risk 692

Diversification: A Numerical Example and Generalization 692

APPLICATION The Home Bias Puzzle 698

Summary: Don't Put All Your Eggs in One Basket 700

5 Conclusions 702

Key Points, Key Terms, and Problems

Appendix to Chapter 17: Common versus Idiosyncratic Shocks 707**CHAPTER 18 Balance of Payments II: Output, Exchange Rates, and Macroeconomic Policies in the Short Run 709****1 Demand in the Open Economy 710**

Preliminaries and Assumptions 711

Consumption 711

Investment 713

The Government 713

The Trade Balance 714

HEADLINES Soaring Loonie Drives Canadian Shoppers South 716**APPLICATION** The Trade Balance and the Real Exchange Rate 718**SIDE BAR** Barriers to Expenditure Switching: Pass-Through and the J Curve 719

Exogenous Changes in Demand 722

2 Goods Market Equilibrium: The Keynesian Cross 723

Supply and Demand 723

Determinants of Demand 724

Factors That Shift the Demand Curve 726

HEADLINES Expenditure Switching and the Dollar Devaluation 727

Summary 727

3 Goods and Forex Market Equilibria: Deriving the IS Curve 728

Equilibrium in Two Markets 728

Forex Market Recap 728

Deriving the IS Curve 730

Factors That Shift the IS Curve 731

Summing Up the IS Curve 733

4 Money Market Equilibrium: Deriving the LM Curve 734

Money Market Recap 734

Deriving the LM Curve 736

Factors That Shift the LM Curve 736

Summing Up the LM Curve 737

5 The Short-Run IS-LM-FX Model of an Open Economy 738

Macroeconomic Policies in the Short Run 739

Monetary Policy under Floating Exchange Rates 740

Monetary Policy under Fixed Exchange Rates 741

Fiscal Policy under Floating Exchange Rates 742

Fiscal Policy under Fixed Exchange Rates 744

Summary 745

APPLICATION The Rise and Fall of the Dollar in the 1980s 746

6 Stabilization Policy 749

APPLICATION Australia, New Zealand, and the Asian Crisis of 1997 749

Problems in Policy Design and Implementation 752

7 Conclusions 754

Key Points, Key Terms, and Problems

Appendix 1 to Chapter 18: The Marshall-Lerner Condition 759

Appendix 2 to Chapter 18: Multilateral Real Exchange Rates 761

PART 8
Applications and
Policy Issues.....

CHAPTER 19 Fixed versus Floating: International Monetary Experience 763

1 Exchange Rate Regime Choice: Key Issues 765

APPLICATION Britain and Europe: The Big Issues 765

Key Factors in Exchange Rate Regime Choice: Integration and Similarity 771

Economic Integration and the Gains in Efficiency 771

Economic Similarity and the Costs of Asymmetric Shocks 772

Simple Criteria for a Fixed Exchange Rate 772

APPLICATION Do Fixed Exchange Rates Promote Trade? 774

APPLICATION Do Fixed Exchange Rates Diminish Monetary Autonomy and Stability? 777

2 Other Benefits of Fixing 780

Fiscal Discipline, Seigniorage, and Inflation 780

SIDE BAR The Inflation Tax 782

Liability Dollarization, National Wealth, and Contractionary Depreciations 782

HEADLINES The Last Temptation? 789

Summary 790

3 Fixed Exchange Rate Systems 791

Cooperative and Noncooperative Adjustments to Interest Rates 792

Cooperative and Noncooperative Adjustments to Exchange Rates 794

APPLICATION The Gold Standard 797

4 International Monetary Experience 800

The Rise and Fall of the Gold Standard 800

Bretton Woods to the Present 804

5 Conclusions 807

Key Points, Key Terms, and Problems

CHAPTER 20 Exchange Rate Crises: How Pegs Work and How They Break 811

1 Facts about Exchange Rate Crises 812

What Is An Exchange Rate Crisis? 812

How Costly Are Exchange Rate Crises? 813

SIDE BAR The Political Costs of Crises 815

Summary 817

2 How Pegs Work: The Mechanics of a Fixed Exchange Rate 817

Preliminaries and Assumptions 817

The Central Bank Balance Sheet 818

Fixing, Floating, and the Role of Reserves 820

How Reserves Adjust to Maintain the Peg 820

Graphical Analysis of the Central Bank Balance Sheet 821

Defending the Peg I: Changes in the Level of Money Demand 823

APPLICATION Risk Premiums in Advanced and Emerging Markets 826

APPLICATION The Argentine Convertibility Plan before the Tequila Crisis 830

Defending the Peg II: Changes in the Composition of Money Supply 832

APPLICATION The Argentine Convertibility Plan after the Tequila Crisis 838

The Central Bank Balance Sheet and the Financial System 839

SIDE BAR The Great Reserve Accumulation in Emerging Markets 842

HEADLINES Too Much of a Good Thing? 844

Summary 844

3 How Pegs Break I: Inconsistent Fiscal Policies 846

The Basic Problem: Fiscal Dominance 846

A Simple Model 846

APPLICATION The Peruvian Crisis of 1986 851

Summary 854

4 How Pegs Break II: Contingent Monetary Policies 854

The Basic Problem: Contingent Commitment 855

A Simple Model 856

APPLICATION The Man Who Broke the Bank of England 861

Summary 862

5 Conclusions 863

Can We Prevent Crises? 863

Key Points, Key Terms, and Problems

CHAPTER 21 The Euro 869

1 The Economics of the Euro 872

The Theory of Optimum Currency Areas 872

Simple Optimum Currency Area Criteria 873

What's the Difference between a Fix and a Currency Union? 874

Other Optimum Currency Area Criteria 875

APPLICATION Optimum Currency Areas: Europe versus the United States 878

Are the OCA Criteria Self-Fulfilling? 882

HEADLINES Currency Unions and Trade 884

Summary 885

2 The History and Politics of the Euro 885

A Brief History of Europe 885

Summary 893

3 The ECB and the Eurozone in Theory and Practice 893

The European Central Bank 893

HEADLINES The ECB Is from Mars, the Fed Is from Venus 896

The Rules of the Club 898

Sticking to the Rules 902

4 Conclusions: Assessing the Euro 903

HEADLINES Whither the Euro? 907

Key Points, Key Terms, and Problems

CHAPTER 22 Topics in International Macroeconomics 911

1 Exchange Rates in the Long Run: Deviations from Purchasing Power Parity 912

Limits to Arbitrage 913

APPLICATION It's Not Just the Burgers That Are Cheap 916

Nontraded Goods and the Balassa-Samuelson Model 917

Overvaluations, Undervaluations, and Productivity Growth: Forecasting Implications for Real and Nominal Exchange Rates 919

APPLICATION Real Exchange Rates in Emerging Markets 922
 Conclusions 924

2 Exchange Rates in the Short Run: Deviations from Uncovered Interest Parity 924

HEADLINES Eastern Europe and the Euro 925

APPLICATION The Carry Trade 925

HEADLINES Mrs. Watanabe's Hedge Fund 929

APPLICATION Peso Problems 930

The Efficient Markets Hypothesis 932

Limits to Arbitrage 935

Conclusions 939

3 Global Imbalances 940

Facts about Emerging Global Imbalances 940

A Model of Saving and Investment in the World Economy 940

APPLICATION The Savings Glut 946

Looking Backward: How We Got Here 947

Looking Forward: What Next? 948

SIDE BAR Reserves and Global Imbalances 948

Debtors, Creditors, and the Long-Run Budget Constraint 950

Real Exchange Rates and Global Imbalances: Two Views 951

Conclusions 954

4 Debt and Default 956

A Few Peculiar Facts about Sovereign Debt 957

A Model of Default, Part One: The Probability of Default 958

APPLICATION Is There Profit in Lending to Developing Countries? 964

A Model of Default, Part Two: Loan Supply and Demand 965

APPLICATION The Costs of Default 968

Conclusions 972

APPLICATION The Argentina Crisis of 2000–02 973

HEADLINES Is the IMF "Pathetic"? 977

Key Points, Key Terms, and Problems
