List of Charts v

Executive Summary vi

1. Estimation and Use of the Output Gap as a Guide for Monetary Policy for the SEACEN Countries 1
   1.1 Objectives 1
   1.2 Issues to be Covered 2

2. Potential GDP Defined 2
   2.1 Theoretical Framework Linking Inflation Targeting to Potential GDP 4

3. Challenges of Estimating Potential GDP 6

4. Selected Potential GDP Model Estimation Techniques 8
   4.1 Direct Measure: Survey Methodology 9
   4.2 Non-Structural Methods 10
       4.2.1 Linear Time Trend Model 10
       4.2.2 Unobservable Component Method (UCM) 10
       4.4.3 Hodrick Prescott Method 12
   4.3 Multivariate and Structural Models 15
       4.3.1 Multivariate Hodrick-Prescott Filter 15
       4.3.2 Structural Vector Auto-Regression (SVAR):
          Long Run Restriction Model 15
       4.3.3 Production Function Model 18

5. Requirements for Estimating Potential GDP 21

7. A Survey of Potential GDP Estimation on in the SEACEN Countries 35

7.1 Empirical Investigation into Estimation of Potential Output 39

8. Conclusion and Overview 46
