CHAPTER 1
Organizations, Business Processes, and Information Systems 1

1.1 The Modern Global Business Environment 2
1.1.1 Global Competition 2
1.1.2 The Information Revolution 4
1.1.3 The Knowledge Worker 5
1.1.4 Key Business Processes 6

1.2 The Functional Organizational Structure 8
1.2.1 The Silo Effect 10
1.2.2 Delays in Executing the Process 11
1.2.3 Excess Inventory 12
1.2.4 Lack of Visibility across Processes 13

1.3 The Importance of Information Systems 15
1.3.1 Data and Information 15
1.3.2 Functional Information Systems 15
1.3.3 Enterprise Systems 16
1.3.4 Why Is This Information Important to You? 18

1.4 Flows in Business Processes 18

1.5 The Roles of Enterprise Systems in Organizations 19
1.5.1 Execute the Process 20
1.5.2 Capture and Store Process Data 20
1.5.3 Monitor Process Performance 21

1.6 Financial Impact of Process Steps 23

CHAPTER 2
Enterprise Systems 28

2.1 Enterprise Systems 28
2.1.1 Stage 1: Stand-Alone Mainframe Systems 29
2.1.2 Stage 2: Client-Server Architecture 31
2.1.3 Stage 3: Service-Oriented Architecture 32
2.1.4 Types of Enterprise Systems 33

2.2 Types of Data in ES 38
2.2.1 Transaction Data 38
2.2.2 Master Data 38
2.2.3 Organizational Data 39

2.3 Super Skateboard Builders (SSB), Inc. 40
2.3.1 Product Line 40
2.3.2 Customers 41
2.3.3 Vendors (Suppliers) 41
2.3.4 Employees 42
2.3.5 Information Systems 43

2.4 SAP Overview 44

2.5 SAP Software (simulation) 46
CHAPTER 3
The Procurement Process 49
3.1 Key Concepts and Assumptions 50
3.2 A Basic Procurement Process 50
  3.2.1 Physical Flow 51
  3.2.2 Document and Data Flow 52
  3.2.3 Information Flow 60
  3.2.4 Financial Impact 61
3.3 Role of Enterprise Systems in the Procurement Process 61
  3.3.1 Execute the Process 62
  3.3.2 Capture and Store Process Data 69
  3.3.3 Monitor the Process 69
3.4 Exercise Using Simulated SAP ERP 73

CHAPTER 4
The Fulfillment Process 75
4.1 Key Concepts and Assumptions 75
4.2 A Basic Fulfillment Process 77
  4.2.1 Physical Flow 77
  4.2.2 Document and Data Flow 78
  4.2.3 Information Flow 86
  4.2.4 Financial Impact 88
4.3 Role of Enterprise Systems in the Fulfillment Process 90
  4.3.1 Execute the Process 90
  4.3.2 Capture and Store Process Data 94
  4.3.3 Monitor the Process 94
4.4 Exercise Using Simulated SAP ERP 96

CHAPTER 5
The Production Process 99
5.1 Key Concepts and Assumptions 99
  5.1.1 Production Processes and Strategies 100
  5.1.2 Master Data in the Production Process 101
  5.1.3 A Basic Production Process 106
  5.1.4 Physical Flow 106
  5.1.5 Document and Data Flow 107
  5.1.6 Information Flow 111
5.2 Role of Enterprise Systems in the Production Process 113
  5.2.1 Execute the Process 113
  5.2.2 Capture and Store Process Data 119
  5.2.3 Monitor the process 119
5.3 Exercise Using Simulated SAP® ERP 121

CHAPTER 6
Integrated Processes 124
6.1 Integrated Processes 125
6.2 Integrated Process Execution 126
  6.2.1 The Fulfillment Process: Initial Steps 127
  6.2.2 Review Inventory of Finished Goods 129
  6.2.3 The Production Process: Initial Steps 129
  6.2.4 Review Inventory of Raw Materials 131
  6.2.5 The Procurement Process 133
6.2.6 The Production Process Resumed 133
6.2.7 The Fulfillment Process Resumed 135
6.3 Additional IntraCompany Processes 136
  6.3.1 Human Capital Management 136
  6.3.2 Asset Management 137
6.4 Extended (InterCompany) Processes 137
  6.4.1 Supply Chain Management (SCM) 137
  6.4.2 Supplier Relationship Management (SRM) 138
  6.4.3 Product Life Cycle Management (PLM) 138
  6.4.4 Customer Relationship Management (CRM) 139
6.5 Exercise Using Simulated SAP ERP 139

Appendix 143
  Goods Receipt Document 144
  Material Withdrawal Slip 146
  Packing List 148
  Picking Document 150
  Planned Order 152
  Production Order 154
  Purchase Order 156
  Purchase Requisition 158
  Quotation 160
  Sales Order 162
  Vendor Invoice 164
