Contents Volume I

Forty Years of Research on Rent Seeking: An Overview ........................... 1
Roger D. Congleton, Arye L. Hillman and Kai A. Konrad

Part 1  Rents

The welfare costs of tariffs, monopolies, and theft ................................. 45
Gordon Tullock

Rent seeking and profit seeking .................................................. 55
James M. Buchanan

Competitive process, competitive waste, and institutions ....................... 69
Roger D. Congleton

Risk-averse rent seekers and the social cost of monopoly power .............. 97
Arye L. Hillman and Eliakim Katz

Efficient rent seeking .............................................................. 105
Gordon Tullock

Free entry and efficient rent seeking ............................................. 121
Richard S. Higgins, William F. Shughart II, and Robert D. Tollison

A general analysis of rent-seeking games .................................. 133
J. David Pérez-Castrillo and Thierry Verdier

Rent-seeking with asymmetric valuations ..................................... 149
Kofi O. Nti

Dissipation of contestable rents by small numbers of contenders .......... 165
Arye L. Hillman and Dov Samet

Politically contestable rents and transfers .................................. 185
Arye L. Hillman and John G. Riley

The all-pay auction with complete information .................................. 209
Michael R. Baye, Dan Kovenock, and Casper G. de Vries
Contents

Rent seeking with bounded rationality: An analysis of the all-pay auction ............................ 225
*Simon P. Anderson, Jacob K. Goeree, and Charles A. Holt*

Conflict and rent-seeking success functions: Ratio vs. difference models of relative success 251
*Jack Hirshleifer*

Contest success functions ........................................ 263
*Stergios Skaperdas*

On the existence and uniqueness of pure Nash equilibrium in rent-seeking games 271
*Ferenc Szidarovszky and Koji Okuguchi*

**Part 2  Collective Dimensions**

Committees and rent-seeking effort .................................. 279
*Roger D. Congleton*

Risk-averse rent seeking with shared rents .................................. 293
*Ngo Van Long and Neil Vousden*

Collective rent dissipation ........................................ 309
*Shmuel Nitzan*

The equivalence of rent-seeking outcomes for competitive-share and strategic groups 323
*Kyung Hwan Baik, Bouwe R. Dijkstra, Sanghack Lee, and Shi Young Lee*

Public goods, rent dissipation, and candidate competition 329
*Heinrich W. Ursprung*

Effort levels in contests. The public-good prize case .................................. 347
*Kyung Hwan Baik*

Rent seeking and the provision of public goods .................................. 353
*Mark Gradstein*

A general model of rent seeking for public goods .................................. 361
*Khalid Riaz, Jason F. Shogren, and Stanley R. Johnson*

Collective action and the group size paradox .................................. 379
*Joan Esteban and Debraj Ray*

**Part 3  Extensions**

Transfer seeking and avoidance: On the full social costs of rent seeking 391
*Elie Appelbaum and Eliakim Katz*
## Contents

Strategic buyers and the social cost of monopoly ........................................... 399  
*Tore Ellingsen*

Sabotage in rent-seeking contests .............................................................. 409  
*Kai A. Konrad*

Strategic restraint in contests .................................................................... 421  
*Gil S. Epstein and Shmuel Nitzan*

Strategic behavior in contests .................................................................... 431  
*Avinash K. Dixit*

Strategic behavior in contests: Comment ...................................................... 439  
*Kyung Hwan Baik and Jason F. Shogren*

The social cost of rent seeking when victories are potentially   
transient and losses final ........................................................................... 443  
*Joerg Stephan and Heinrich W. Ursprung*

Uncertain preassigned non-contestable and contestable rents ....................... 455  
*Nava Kahana and Shmuel Nitzan*

Evolutionary equilibrium in Tullock contests:  
Spite and overdissipation ......................................................................... 473  
*Burkhard Hehenkamp, Wolfgang Leininger, and Alex Possajennikov*

Information in conflicts ............................................................................... 487  
*Karl Wärneryd*

Rent seeking with private values ................................................................... 503  
*David A. Malueg and Andrew J. Yates*

### Part 4  Structure of Contests

Hierarchical structure and the social costs of bribes and transfers ................. 523  
*Arye L. Hillman and Eliakim Katz*

Group competition for rents ........................................................................ 537  
*Eliakim Katz and Julia Tokatlidu*

Bidding in hierarchies ................................................................................ 547  
*Kai A. Konrad*

Seeking rents by setting rents: The political economy  
of rent seeking ........................................................................................................ 555  
*Elie Appelbaum and Eliakim Katz*

Orchestrating rent seeking contests .............................................................. 571  
*Mark Gradstein and Kai A. Konrad*
Maximum efforts in contests with asymmetric valuations .......................... 581
Kofi O. Nti

Optimal contests .................................................. 589
Amihai Glazer and Refael Hassin

Competition over more than one prize ................................................. 601
Derek J. Clark and Christian Riis

The optimal allocation of prizes in contests ........................................ 615
Benny Moldovanu and Aner Sela

Incentive effects of second prizes .................................................. 633
Stefan Szymanski and Tommaso M. Valletti

Part 5 Experiments

Reexamining efficient rent-seeking in laboratory markets .......................... 651
Jason F. Shogren and Kyung Hwan Baik

An experimental examination of rational rent-seeking ............................. 663
Jan Potters, Casper G. de Vries, and Frans van Winden

Efficient rent-seeking in experiment .................................................. 681
Carsten Vogt, Joachim Weimann, and Chun-Lei Yang

Acknowledgements .......................................................... 693
## Contents Volume II

*Forty Years of Research on Rent Seeking: An Overview* ........................................... 1  
Roger D. Congleton, Arye L. Hillman and Kai A. Konrad

### Part 1 Regulation and Protection

- The social costs of monopoly and regulation .................................................. 45  
  Richard A. Posner

- The social costs of monopoly power ......................................................... 67  
  Keith Cowling and Dennis C. Mueller

- Misleading calculations of the social costs of monopoly power .................... 89  
  Stephen C. Littlechild

- Declining industries and political-support protectionist motives ................... 105  
  Arye L. Hillman

- Domestic politics, foreign interests, and international trade policy .......... 113  
  Arye L. Hillman and Heinrich W. Ursprung

- Protection for sale ............................................................................. 131  
  Gene M. Grossman and Elhanan Helpman

### Part 2 Economic Development and Growth

- The political economy of the rent-seeking society ....................................... 151  
  Anne O. Krueger

- Foreign aid and rent seeking ................................................................... 165  
  Jakob Svensson

- The political economy of coffee, dictatorship, and genocide ....................... 191  
  Philip Verwimp

- Why is rent seeking so costly to growth? ................................................. 213  
  Kevin M. Murphy, Andrei Shleifer, and Robert W. Vishny

- Political culture and economic decline ..................................................... 219  
  Arye L. Hillman and Heinrich W. Ursprung
Institutions and the resource curse .......................... 245
Halvor Mehlum, Karl Moene, and Ragnar Torvik

The king never emigrates ..................................... 265
Gil S. Epstein, Arye L. Hillman, and Heinrich W. Ursprung

Immigration as a challenge to the Danish welfare state? ........ 281
Peter Nannestad

Part 3 Political and Legal Institutions

Rent-seeking aspects of political advertising .................. 297
Roger D. Congleton

Rent extraction and rent creation in the economic theory ....... 313
Fred S. McChesney

Rigging the lobbying process: An application of the all-pay auction .. 331
Michael R. Baye, Dan Kovenock, and Casper G. de Vries

Caps on political lobbying .................................... 337
Yeon-Koo Che and Ian L. Gale

Inverse campaigning .......................................... 347
Kai A. Konrad

On the efficient organization of trials ......................... 361
Gordon Tullock

Legal expenditure as a rent-seeking game ....................... 379
Amy Farmer and Paul Pecorino

Rent-seeking through litigation: Adversarial and inquisitorial systems compared .................. 397
Francesco Parisi

Comparative analysis of litigation systems: An auction-theoretic approach .................. 421
Michael R. Baye, Dan Kovenock, and Casper G. de Vries

Part 4 Institutions and History

Rent seeking, noncompensated transfers, and laws of succession .. 443
James M. Buchanan

A model of institutional formation within a rent seeking environment .. 459
Kevin Sylwester
