## Part 1 INTRODUCTION TO BUSINESS INFORMATION SYSTEMS

### 1 Basic concepts - understanding information 5

*Links to other chapters* 4  
*Learning outcomes / Management issues* 5  
*Introduction* 6  
Data and information 6  
Creating information 8  
Qualities of information 11  
Case study 1.1: Letters to the dead and other tales of  
data dereliction 14  
The business environment 15  
Managerial decision making 17  
Case study 1.2: Supply chain: demand for more data  
has wide impact 22  
*Focus on knowledge management* 26  
*Summary* 29  
*Exercises* 30  
*References / Further reading / Web links* 32

### 2 Basic concepts - an introduction to business information systems 35

*Links to other chapters* 34  
*Learning outcomes / Management issues* 35  
*Introduction* 36  
Introduction to systems 36  
Different types of systems 41  
Business information systems 42  
Resources that support BIS 43  
Categories of business information system 46  
E-business systems 46

Enterprise systems 49  
BIS and strategic advantage 50  
Case study 2.1: Volvo Trucks' valuable early warning  
system 51  
Mini case study: Capital One develops information  
leadership 57  
Case study 2.2: Airport check-in: board your flight  
by mobile phone 57  
*Summary* 58  
*Exercises* 59  
*References / Further reading / Web links* 62

### 3 Hardware 65

*Links to other chapters* 64  
*Learning outcomes / Management issues* 65  
*Introduction* 66  
Components of a computer system 66  
Major categories of computers 68  
Types of microcomputers 71  
Mini case study: Panalpina uses network computers  
to reduce costs 75  
Input devices 75  
Mini case study: Optical mark recognition 77  
Mini case study: Technology learns to lend an ear  
79  
Case study 3.1: When systems converge but people  
don't 81  
Mini case study: Video in the workplace: visual  
messages escape confines of the classroom 83  
Selecting input devices 84  
Output devices 86  
Selecting output devices 89  
*Focus on printers* 90  
Storage devices 94  
Selecting storage devices 102  
Processors 103  
Case study 3.2: Did IT work? How Wall Street is  
eradicating downtime 106  
Other components of a personal computer 108  
*Focus on managing technological change* 112  
*Summary* 114

*Exercises* 115  
*References / Further reading / Web links* 117

## **4 Software** 121

*Links to other chapters* 120  
*Learning outcomes / Management issues* 121  
*Introduction* 122  
**Categories of software** 122  
**Document production software** 126  
 Case study 4.1: Cutting out paper speeds up the process 128  
**Graphics packages** 132  
**Spreadsheets - office software for processing numerical information** 133  
**Databases - software for storage and retrieval of information** 138  
 Mini case study: How to get rid of 'devil customers' 147  
 Mini case study: Are modern analytics 'rewriting the rules of competition' 149  
**Management applications of productivity software** 149  
**Multimedia software** 152  
**Software for using the Internet** 152  
 Mini case study: Unilever rolls out a fresh identity 168  
**Focus on software distribution models** 169  
 Case study 4.2: Did IT work: putting Linux on desktops 172  
 Mini case study: Tailored software becomes key to SaaS model's success 175  
*Summary* 176  
*Exercises* 178  
*References / Further reading / Web links* 179

## **5 Networks, telecommunications and the Internet** 183

*Links to other chapters* 182  
*Learning outcomes / Management issues* 183  
*Introduction* 184  
**Introduction to computer networks** 184  
 Mini case study: Executives agree video conferencing gives an edge 187  
**Network components** 188  
 Mini case study: Bluetooth proves naysayers wrong 197  
**Focus on RFID TAGS** 198  
 Case study 5.1: Finders keepers 199  
**The Internet** 200

Mini case study: Wal-Mart expands '\$4 drugs' promotion 204

Mini case study: Record labels rush to get in da ringtone club 204

Mini case study: Feeding eBay 205

Mini case study: Get control of your web site 208

Mini case study: Amex puts venues under the hammer 209

**Focus on how the Internet works - Internet standards** 210

**Focus on mobile or wireless access devices** 214

Case study 5.2: The all-in-one thingumajig 215

**Other wide-area networks** 216

**Focus on EDI** 218

**Smaller-scale networks** 219

Mini case study: On the move with a Skype connection 222

**Specifying and building networks** 223

*Summary* 224

*Exercises* 225

*References / Further reading / Web links* 227

## **6 Enterprise and functional BIS** 231

*Links to other chapters* 230

*Learning outcomes / Management issues* 231

*Introduction* 232

**Enterprise systems** 232

Mini case study: Did it work? Huge benefits from tidying up 234

Mini case study: Workforces complain of too little training 235

Mini case study: SMEs: how Oracle and SAP are moving down 'the tail' 236

Mini case study: The supply chains that could bind unsuspecting managers 241

Case study 6.1: IT near its limits in satisfying customers 242

Mini case study: Lloyds TSB banks on SAP SRM 244

**Operations information systems** 245

Case study 6.2: Retail applications of TPS by Sainsbury's 248

**Focus on office automation systems (OAS)** 248

**Management information systems** 258

**Departmental applications** 264

*Summary* 270

*Exercises* 271

*References / Further reading / Web links* 272

## Part 2 BUSINESS INFORMATION SYSTEMS DEVELOPMENT

### 7 An introduction to acquiring and developing BIS 279

*Links to other chapters* 278

*Learning outcomes / Management issues* 279

*Introduction* 280

**How and why are information systems acquired?** 280

**Bespoke development and the traditional waterfall model** 286

*Focus on the waterfall model and SSADM* 293

**Purchase of an off-the-shelf package** 297

Case study 7.1: Licensing: how buyers can flex their muscles 299

Case study 7.2: Lascelles Fine Foods 303

**Rapid applications development (RAD)** 305

Case study 7.3: Lloyds Bank Insurance Services applies RAD 307

Case study 7.4: Use of waterfall v. agile methods at Mellon Financial 312

*Summary* 314

*Exercises* 315

*References / Further reading / Web links* 316

### 8 Initiating systems development 319

*Links to other chapters* 318

*Learning outcomes / Management issues* 319

*Introduction* 320

**Reasons for project initiation** 320

**The feasibility study** 323

**Risk management** 329

**Acquisition choices and methods** 331

**Focus on techniques for comparing systems** 332

Mini case study: Feature checklist for comparing three different groupware products 333

Case study 8.1: Sedgemoor District Council 338

*Summary* 338

*Exercises* 339

*References / Further reading / Web links* 340

### 9 BIS project management 343

*Links to other chapters* 342

*Learning outcomes / Management issues* 343

*Introduction* 344

Case study 9.1: Putting an all-inclusive price tag on successful IT 344

**The project management process** 345

Case study 9.2: Lessons for business from the public sector 347

**Steps in project management** 350

**Focus on a project management methodology: PRINCE2** 358

**A project management tool: network analysis** 362

*Summary* 368

*Exercises* 369

*References / Further reading / Web links* 370

### 10 Systems analysis 373

*Links to other chapters* 372

*Learning outcomes / Management issues* 373

*Introduction* 374

**Identifying the requirements** 374

**Focus on requirements determination in a lean or agile environment** 383

**Documenting the findings** 383

Case study 10.1: IFD drawing - a student records system 387

**Focus on soft systems methodology** 405

**Systems analysis - an evaluation** 409

**Software tools for systems analysis** 410

Case study 10.2: ABC case study 410

*Summary* 412

*Exercises* 413

*References / Further reading / Web links* 414

### 11 Systems design 417

*Links to other chapters* 416

*Learning outcomes / Management issues* 417

*Introduction* 418

**Aims of system design** 418

Case study 11.1: Beaverbrooks the Jewellers 419

**Constraints on system design** 420

**The relationship between analysis and design** 421

**Elements of design** 421

**System or outline design** 423

**Detailed design (module design)** 430

**Focus on relational database design and normalisation** 430

**Design of input and output** 446

**User interface design** 449

**Focus on web site design for B2C e-commerce** 450

**Input design** 452

**Output design** 454

Designing interfaces between systems	454
Defining the structure of program modules	454
Security design	455
Design tools: CASE (computer-aided software engineering) tools	456
Error handling and exceptions	456
Help and documentation	456
Focus on object-oriented design (OOD)	457
Summary	459
Exercises	460
References / Further reading / Web links	462

## **12 System build, implementation and maintenance: change management** 465

Links to other chapters	464
Learning outcomes / Management issues	465
Introduction	466
System build and implementation	466
Mini case study: Jim Goodnight: crunching the numbers	470
Maintenance	475
Change management	476
Case study 12.1: Applying performance goals to business-process management drives growth and innovation	485
Case study 12.2: Service-oriented architecture (SOA)	491
Summary	497
Exercises	499
References / Further reading / Web links	500

## **Part 3 BUSINESS INFORMATION SYSTEMS MANAGEMENT**

### **13 Information systems strategy** 507

Links to other chapters	506
Learning outcomes / Management issues	507
Introduction	508
The strategic context	508
Introduction to BIS strategy	509
Tools for strategic analysis and definition	514
IS and business strategy integration	524
Focus on IS/IT and SMEs	529
Case study 13.1: Agile development can make business quick and light	531
Summary	532
Exercises	533
References / Further reading / Web links	534

### **14 Information systems management** 537

Links to other chapters	536
Learning outcomes / Management issues	537
Introduction	538
The productivity paradox	538
Information systems investment appraisal	539
Determining investment levels for information systems in an organisation	540
Locating the information systems management function	543
Outsourcing	547
Mini case study: Customers admit blame for outsourcing failures	549
Beyond strategic information systems - the importance of IS capability	555
Focus on IT infrastructure flexibility	558
Pulling it all together: IT governance and COBIT	558
Case study 14.1: Why do public-sector projects fail?	564
Summary	566
Exercises	566
References / Further reading / Web links	567

### **15 Managing information security** 571

Links to other chapters	570
Learning outcomes / Management issues	571
Introduction	572
The need for controls	572
Mini case study: Oops! Wrong key ...	574
Case study 15.1: Russia - a happy haven for hackers	578
Control strategies	581
Types of controls	583
Some techniques for controlling information systems	584
Focus on malware	588
Case study 15.2: The computer virus comes of age	593
Threats related to Internet services	595
Summary	599
Exercises	601
References / Further reading / Web links	603

### **16 End-user computing - providing end-user services** 607

Links to other chapters	606
Learning outcomes / Management issues	607
Introduction	608
End-user IS services	608

- Managing network services** 609
- Mini case study: Cyberslacking: employees surf non-work-related web sites 611
- End-user computing** 613
- The IT help desk** 615
- Mini case study: A snapshot of the role of the IT help desk in the modern organisation 617
- Case study 16.1: The 21st-century help desk 618
- End-user development** 620
- Managing EUC as part of IS strategy** 625
- Case study 16.2: Time to call the help desk? 626
- Summary* 628
- Exercises* 628
- References / Further reading / Web links* 630

## **17 Ethical, legal and moral constraints on information systems** 633

- Links to other chapters* 632
- Learning outcomes / Management issues* 633
- Introduction* 634
- Professionalism, ethics and morality** 634
- Codes of conduct** 635
- Social issues** 639
- Case study 17.1: Online prank rouses fears over privacy 644
- Legal issues** 646
- Case study 17.2: Can spam really be wiped out in two years? 650
- Focus on software piracy** 657
- Summary* 662
- Exercises* 663
- References / Further reading / Web links* 665

**Glossary** 667

**Index** 696
