List of Contributors xvi
Preface xix
Introduction to the Series xxiii

Part I Industry Studies 1

1 Pari-Mutuel Horse Race Wagering—Competition from Within and Outside the Industry 3
Richard Thalheimer and Mukhtar M. Ali

1. Introduction 4
2. Competition from Casino Gaming 5
3. Competition from State Lotteries 7
4. Competition from Professional Sports 8
5. Competition from Live Racing 8
6. Competition from Simulcast Wagering 11
7. Summary and Conclusions 13
References 14

2 Modeling Money Bet on Horse Races in Hong Kong 17
John Bacon-Shone and Alan Woods

1. Introduction 18
2. Variables examined 18
   2.1. Outcome Variables 18
   2.2. Independent Variables 19
3. Results and Discussion 19
4. Conclusion 21
References 22
Appendix: 31 Independent Variables Examined (Excluding Quadratic Terms) 23
PART II Utility, Probability, and Pace Estimation

3 Empirical Evidence on the Preferences of Racetrack Bettors
Bruno Jullien and Bernard Salanié

1. Introduction 28
2. Some Stylized Facts 30
3. Expected Utility 33
4. Distortions of Probabilities 36
5. Reference Points and Asymmetric Probability Weights 39
6. Heterogeneous Preferences 42
7. Exotic Bets 45
8. Concluding Remarks 46
References 47

4 Approximating the Ordering Probabilities of Multi-Entry Competitions by a Simple Method
Victor S. Y. Lo and John Bacon-Shone

1. Introduction 52
2. Theoretical Results of the Limiting Cases 53
3. A Simple Approximation 56
   3.1. Empirical Analysis for the Approximated Henery Model 56
   3.2. Empirical Analysis for the Stern Model 57
4. Conclusion 59
References 60
Appendix: Proof of Theorem 1 61

5 Modeling Distance Preference and Pace Character in Thoroughbred Turf Racing
David Edelman

1. Background 68
2. Case Study 1: Sha Tin (Hong Kong, SAR, PRC) 69
3. Case Study 2: Randwick (Sydney, Australia) 71
4. Qualitative Questions 77
   4.1. Do Distance Specialists Exist? 77
   4.2. Pace, Class, and Time: The Central Paradox of Racing 78
   4.3. Jockeys: Distance or Pace Preference? 79
5. Discussion 80
References 80

### 11 Point Spread and Odds Betting: Baseball, Basketball, and American Football

*Hal S. Stern*

1. Introduction
2. Efficiency of Odds Betting Markets
   2.1. Horse Race Betting
   2.2. Baseball
3. Efficiency of Point Spread Betting Markets
   3.1. American Football
   3.2. Basketball
4. Relationship of Point Spread and Odds Betting
   4.1. Normal Distribution Result
   4.2. Applications of the Normal Approximation
5. The Normal Model and Mid-Event Wagering
6. Summary

*References*

### 12 Comparing Efficiency of the Over/Under-Bets on NFL and NBA Games

*Joseph Golec and Maury Tamarkin*

1. Introduction
2. The Sports Betting Market: Setting Point Spreads and Over/Unders
3. NFL and NBA Betting Market Efficiency
4. Conclusion

*References*

### 13 Arbitrage and Risk Arbitrage in Team Jai Alai

*Daniel Lane and William T. Ziemba*

1. Introduction
2. The Arbitrage
3. Risk Arbitrages
4. Final Remarks

*References*

### Part V Semi-Strong Form Efficiency

### 14 Semi-Strong Form Information Efficiency in Horse Race Betting Markets

*M. Sung and J. E. V. Johnson*

1. Introduction
2. Semi-Strong Form Efficiency in Horse Race Betting Markets:
   2.1. Arbitrage Between Parallel Markets
   2.2. Professional Predictions
2.3. Betting Volume 289
2.4. Post Position 290
2.5. Pedigree 291
2.6. Distance Preference 292
2.7. Single Variable Models: Overview 292
3. Semi-Strong Form Efficiency in Horse Race Betting Markets: Multiple Variable Models 293
  3.1. Distribution-Based Methods 294
  3.2. Distribution-Free Methods 298
  3.3. Multiple Variable Models: Overview 300
4. Semi-Strong Form Efficiency in Horse Race Betting Markets: Conclusion 301
References 302

15 The Dosage Breeding Theory for Horse Racing Predictions 307
Marshall Gramm and William T. Ziemba

1. Introduction 308
2. The Racetrack as a Sequence of Markets 310
3. The Dosage Index and Performance Measures 311
4. Data Acquisition 314
5. Application of Breeding Information and Performance Measures to Refine Estimated Win Probabilities for the Kentucky Derby 314
6. The Kelly Betting Model 320
8. The Preakness Stakes, 1946–2006 327
10. Conclusions 330
References 331
Appendix A: Data Sources
  A.1 Public’s Wagering 333
  A.2. Pedigrees 333
  A.3. Chef-de-Race Listings 333
  A.4. Experimental Free Handicap Listings 334
  A.5. Results of the Kentucky Derby and Major Races Prior to the Kentucky Derby 334
Appendix B: Kentucky Derby, Preakness, and Belmont Winners, 1946–2006 334

16 Efficiency in Horse Race Betting Markets: The Role of Professional Tipsters 341
Bruno Deschamps and Olivier Gergaud

1. Introduction 342
2. The Model 343
3. Data 345
  3.1. Tips and Rewards Rules 345
Part VII Soccer

20 Soccer Betting in Britain

David Forrest

1. Introduction
2. Development of Soccer Betting
3. Transactions Costs in the Fixed Odds Market
4. Early Study of Market Efficiency
5. Tipsters
6. Fundamental Analysis as an Aid to Soccer Betting
7. Technical Analysis
8. Sentiment
9. The Future of Research on Soccer Betting

References

21 Efficiency of Soccer Betting Odds—Evidence from a Pan-European Electronic Market

Stephan Kossmeier and Simon Weinberger

1. Introduction
2. The Soccer Betting Market
3. Data Description
4. Efficiency Tests
   4.1. Statistical Tests
   4.2. Economic Tests
5. Conclusion

References

Part VIII Lotteries

22 How to Design a Lottery

Ian Walker

1. Introduction
2. The Odds of Winning a (Pari-Mutuel) Lottery
3. The Expected Value Calculation
### Contents

4. Higher Moments of the Prize Distribution 467
5. Econometric Methodology, Data, and Estimates 469
6. Game Design Simulations 474
7. Conclusion 476

References 477
Appendix: The Expected Value Formula 479

---

#### 23 The Statistics of Lotteries

*John Haigh*

1. Introduction 482
2. Prize Structure and Winning Chances 485
3. Tests of Randomness 491
4. Gambler Choices 496

References 496

---

#### 24 U.S. Lotto Markets

*Victor Matheson and Kent Grote*

1. Introduction 504
2. Differences Between American and European Lotteries 509
3. Fungibility of Lottery Revenues 512
4. Efficiency of Lottery Markets—Part 1 516
5. Efficiency of Lottery Markets—Part 2 519
6. Efficiency of Lottery Markets—Part 3 521
7. Conclusions 522

References 523
