
The Ecosystem Approach

Complexity, Uncertainty, and Managing for Sustainability

Edited by David Waltner-Toews, James J. Kay, and Nina-Marie E. Lister

COLUMBIA UNIVERSITY PRESS

NEW YORK

Contents

<i>A Preface</i>	ix
<i>David Waltner-Toews, Nina-Marie E. Lister, and Stephen Bocking</i>	
Part I Some Theoretical Bases for a New Ecosystem Approach	1
1 An Introduction to Systems Thinking <i>James J. Kay</i>	3
2 Framing the Situation: Developing a System Description <i>James J. Kay</i>	15
3 Scale and Type: A Requirement for Addressing Complexity with Dynamical Quality <i>T. F. H. Allen</i>	37
4 Self-Organizing, Holarchic, Open Systems (SOHOs) <i>James J. Kay and Michelle Boyle</i>	51
5 So, What Changes in a Complex World? <i>James J. Kay</i>	79
6 Bridging Science and Values: The Challenge of Biodiversity Conservation <i>Nina-Marie E. Lister</i>	83
7 The Cultural Basis for an Ecosystem Approach: Sharing Across Systems of Knowledge <i>Fikret Berkes and Iain Davidson-Hunt</i>	109

8	A Family of Origin for an Ecosystem Approach to Managing for Sustainability <i>Martin Bunch, Dan McCarthy, and David Waltner-Toews</i>	125
Part II Case Studies: Learning by Doing		139
9	Linking Hard and Soft Systems in Local Development <i>Reg Noble, Ricardo Ramirez, and Clive Lightfoot</i>	141
10	Human Activity and the Ecosystem Approach: The Contribution of Soft Systems Methodology to Management and Rehabilitation of the Cooum River in Chennai, India <i>Martin Bunch</i>	157
11	Landscape Perspectives on Agroecosystem Health in the Great Lakes Basin <i>Dominique Charron and David Waltner-Toews</i>	175
12	An Agroecosystem Health Case Study in the Central Highlands of Kenya <i>Thomas Gitau, David Waltner-Toews, and John McDermott</i>	191
13	Food, Floods, and Farming: An Ecosystem Approach to Human Health on the Peruvian Amazon Frontier <i>Tamsyn P. Murray, David Waltner-Toews, José Sanchez-Choy, and Felix Sanchez-Zavala</i>	213
Part III Managing for Sustainability: Meeting the Challenges		237
14	Implementing the Ecosystem Approach: The Diamond, AMESH, and Their Siblings <i>David Waltner-Toews and James J. Kay</i>	239
15	Return to Kathmandu: A Post Hoc Application of AMESH <i>R. Cynthia Neudoerffer, David Waltner-Toews, and James J. Kay</i>	257
16	Tools for Learning: Monitoring Design and Indicator Development <i>Michelle Boyle and James J. Kay</i>	289

Part IV	Where to from Here? Some Challenges for a New Science in an Uncertain World	307
17	Beyond Complex Systems: Emergent Complexity and Social Solidarity <i>Silvio Funtowicz and Jerry Ravetz</i>	309
18	Third World Inequity, Critical Political Economy, and the Ecosystem Approach <i>Ernesto F. Ráez-Luna</i>	323
19	An Ecosystem Approach for Sustaining Ecological Integrity—But Which Ecological Integrity? <i>David Manuel-Navarrete, Dan Dolderman, and James J. Kay</i>	335
20	The Water or the Wave? Toward an Ecosystem Approach for Cross-Cultural Dialogue on the Whanganui River, New Zealand <i>Charlotte Helen Šunde</i>	345
	<i>A Tribute to James J. Kay</i> <i>David Waltner-Toews et al.</i>	363
	<i>Appendix: Hierarchy and Holonocracy</i> <i>Henry Regier</i>	367
	<i>Contributors</i>	369
	<i>Index</i>	373
