Selected Readings on Information Technology Management: Contemporary Issues

George Kelley
*University of Massachusetts, Boston, USA*
Table of Contents

Section I
Fundamental Concepts and Theories

Chapter I
Reference Model Management ................................................................. 1
Oliver Thomas, Institute for Information Systems (IWi) at the German Research Center for Artificial Intelligence (DFKI), Saarbrücken, Germany

Chapter II
The Social Context of Knowledge ............................................................... 21
Daniel Memmi, Université du Québec à Montréal, Canada

Chapter III
E-Governance ......................................................................................... 40
Srinivas Bhogle, National Aerospace Laboratories, India

Chapter IV
On the Study of Complexity in Information Systems ................................ 63
James Courtney, University of Central Florida, USA
Yasmin Merali, Warwick Business School, UK
David Paradice, Florida State University, USA
Eleanor Wynn, Intel Corporation Information Technology, USA
Section II
Development and Design Methodologies

Chapter V
A Model of Knowledge Management Success .................................................................................. 76
  Murray E. Jennex, San Diego State University, USA
  Lorne Olfman, Claremont Graduate University, USA

Chapter VI
Building IT Risk Management Approaches: An Action Research Method ........................................ 94
  Jakob Holden Iversen, University of Wisconsin Oshkosh, USA
  Lars Mathiassen, Georgia State University, USA
  Peter Axel Nielsen, Aalborg University, Denmark

Chapter VII
Modeling and Analyzing Perspectives to Support Knowledge Management ....................................... 110
  Jian Cia, Peking University, China

Chapter VIII
Towards a Virtual Enterprise Architecture for the Environmental Sector ........................................... 125
  Ioannis N. Athanasiadis, Institute for Artificial Intelligence (IDSIA), Switzerland

Section III
Tools and Technologies

Chapter IX
Computer Tools for Public-Sector Management ................................................................................. 137
  Carl Grafton, Auburn University Montgomery, USA
  Anne Permaloff, Auburn University Montgomery, USA

Chapter X
A Design Tool for Business Process Design and Representation ....................................................... 160
  Roberto Paiano, Università di Lecce, Italy
  Anna Lisa Guido, Università di Lecce, Italy

Chapter XI
Introduction to Cryptography .............................................................................................................. 178
  Rajeeva Laxman Karandikar, Indian Statistical Institute, India
Chapter XII
A Comparison and Scenario Analysis of Leading Data Mining Software
John Wang, Montclair State University, USA
Xiaohua Hu, Drexel University, USA
Kimberly Hollister, Montclair State University, USA
Dan Zhu, Iowa State University, USA

Chapter XIII
End-User Perceptions of the Benefits and Risks of End-User Web Development
Tanya McGill, Murdoch University, Australia
Chris Klisc, Murdoch University, Australia

Chapter XIV
A Metadata-Based Approach for Unstructured Document Management in Organizations
Federica Paganelli, University of Florence, Italy
Maria Chiara Pettenati, University of Florence, Italy
Dino Giuliani, University of Florence, Italy

Chapter XV
ERP Usage in Practice: An Empirical Investigation
Mary C. Jones, University of North Texas, USA
Randall Young, University of North Texas, USA

Chapter XVI
Knowledge Management Systems for Emergency Preparedness: The Claremont University Consortium Experience
Murali Raman, Multimedia University, Malaysia
Terry Ryan, Claremont Graduate University, USA
Lorne Olfman, Claremont Graduate University, USA

Chapter XVII
Education for IT Service Management Standards
Aileen Cater-Steel, University of Southern Queensland, Australia
Mark Toleman, University of Southern Queensland, Australia
Chapter XVIII
Developing a Basis for Global Reciprocity: Negotiating Between the Many Standards for Project Management

Lynn Crawford, University of Technology – Sydney, Australia
Julien Pollack, University of Technology – Sydney, Australia

Chapter XIX
Politics, Accountability, and Information Management

Bruce Rocheleau, Northern Illinois University, USA

Chapter XX
Knowledge Fusion: A Framework for Extending the Rigor and Relevance of Knowledge Management

Peter Keen, Nanyang Technological University, Singapore
Margaret Tan, Nanyang Technological University, Singapore

Chapter XXI
Pattern Management: Practice and Challenges

Barbara Catania, University of Genoa, Italy
Anna Maddalena, University of Genoa, Italy

Section VI
Emerging Trends

Chapter XXII
Web Services Management: Toward Efficient Web Data Access

Farhana H. Zulkernine, Queen’s University, Canada
Pat Martin, Queen’s University, Canada

Chapter XXIII
Electronic Risk Management

Tapen Sinha, Instituto Tecnológico Autónomo de México, Mexico & University of Nottingham, UK
Bradly Condon, Instituto Tecnológico Autónomo de México, Mexico & Bond University, Australia

Chapter XXIV
Organizational Culture for Knowledge Management Systems: A Study of Corporate Users

Andrew P. Ciganek, Jacksonville State University, USA
En Mao, Nicholls State University, USA
Mark Srite, University of Wisconsin – Milwaukee, USA
Chapter XXV
IT Infrastructure Capabilities and Business Process Improvements: Association with IT Governance Characteristics ................................................................. 457
Chuck C. H. Law, Chaoyang University of Technology, Taiwan
Eric W. T. Ngai, The Hong Kong Polytechnic University, China

Chapter XXVI
Technology Trends in Knowledge Management Tools .................................................. 480
Gilles Balmisse, KnowledgeConsult, France
Denis Meingan, KnowledgeConsult, France
Katia Passerini, New Jersey Institute of Technology, USA

Index ........................................................................................................................................... 494
