Team Effectiveness in Complex Organizations

Cross-Disciplinary Perspectives and Approaches

Edited by Eduardo Salas • Gerald F. Goodwin • C. Shawn Burke

Routledge
Taylor & Francis Group
New York London
## Contents

Series Foreword ................................................................. xiii
Preface ................................................................. xv
Acknowledgments ............................................................... xvii
Author Biographies ............................................................ xix

### Section I  Setting the Stage

1  **Team Effectiveness in Complex Organizations:**
   An Overview ................................................................. 3
   *Gerald F. Goodwin, C. Shawn Burke, Jessica L. Wildman, and Eduardo Salas*

2  **Building Bridges to Improve Theory and Research on Small Groups** ................................................................. 17
   *Richard L. Moreland and John M. Levine*

3  **The Wisdom of Collectives in Organizations:**
   An Update of the Teamwork Competencies ................................. 39
   *Eduardo Salas, Michael A. Rosen, C. Shawn Burke, and Gerald F. Goodwin*

### Section II  Cross-Disciplinary Theoretical Approaches

4  **Team Leadership and Team Effectiveness** ................................... 83
   *Stephen J. Zaccaro, Beth Heinen, and Marissa Shuffler*

5  **Developing Adaptive Teams: A Theory of Dynamic Team Leadership** ................................................................. 113
   *Steve W. J. Kozlowski, Daniel J. Watola, Jaclyn M. Jensen, Brian H. Kim, and Isabel C. Botero*

6  **An Ecological Perspective on Team Cognition** ..................................... 157
   *Nancy J. Cooke, Jamie C. Gorman, and Leah J. Rowe*
Team Effectiveness in Complex Organizations

7 Overcoming Barriers to Collaboration: Psychological Safety and Learning in Diverse Teams..........................183
Amy C. Edmondson and Kathryn S. Roloff

8 Understanding the Cognitive Processes in Adaptive Multicultural Teams: A Framework.................................209
C. Shawn Burke, Heather A. Priest, Samuel R. Wooten II, Deborah DiazGranados, and Eduardo Salas

9 Cognitive Similarity Configurations in Teams: In Search of the Team MindMeld ........................................241
Joan R. Rentsch, Lisa A. Delise, and Scott Hutchison

10 Thinking in Terms of Multiteam Systems........................................267
Leslie A. DeChurch and John E. Mathieu

11 Team Effectiveness in Complex Settings: A Framework ....293
Peter J. M. D. Essens, Ad L. W. Vogelaar, Jacques J. C. Mylle, Carol Blendell, Carol Paris, Stanley M. Halpin, and Joseph V. Baranski

12 The Incorporation of Time in Team Research: Past, Current, and Future ..............................................321
Susan Mohammed, Katherine Hamilton, and Audrey Lim

Section III Measurement Tools

13 Measuring Teams in Action: Automated Performance Measurement and Feedback in Simulation-Based Training..................................................351
David Dorsey, Steven Russell, Charles Keil, Gwendolyn Campbell, Wendi Van Buskirk, and Peter Schuck

14 Assessing Team Processes in Complex Environments: Challenges in Transitioning Research to Practice ..........383
Kelley J. Krokos, David P. Baker, Alexander Alonso, and Rachel Day

Section IV Methodological Tools and Developments

15 Automated Communication Analysis of Teams..................411
Peter W. Foltz and Melanie J. Martin
16 Social Network Analysis: Understanding the Role of Context in Small Groups and Organizations ................................................................. 433
Andrew J. Slaughter, Janie Yu, and Laura M. Koehly

17 Computational Representations and Methods for Modeling Teams ........................................................................................................... 461
Wayne Zachary, Benjamin Bell, and Joan Ryder

Section V Commentaries and Summary: A Look Ahead

18 Measuring Team-Related Cognition: The Devil Is in the Details ........................................................................................................ 491
Kimberly A. Smith-Jentsch

19 Teams Research in the 21st Century: A Case for Theory Consolidation .................................................................................................. 509
Laurie R. Weingart and Matthew A. Cronin

20 Ten Critical Research Questions: The Need for New and Deeper Explorations ..................................................................................... 525
Eduardo Salas and Jessica L. Wildman

Author Index ......................................................................................................................................................................................... 547

Subject Index ..................................................................................................................................................................................... 569
