# Part 1: Overview of Managerial Economics

## Chapter 1: Introduction to Managerial Economics

### How is Managerial Economics Useful?
- *Evaluating Choice Alternatives, 3* • *Making the Best Decision, 5*

### Managerial Application 1.1: Business Ethics

### Theory of the Firm
- *Expected Value Maximization, 6* • *Constraints and the Theory of the Firm, 7* • *Limitations of the Theory of the Firm, 8*

### Profit Measurement
- *Business Versus Economic Profit, 9*

### Managerial Application: 1.2 The World Is Turning to Capitalism and Democracy

### Variability of Business Profits

### Why do Profits Vary Among Firms?
- *Disequilibrium Profit Theories, 12* • *Compensatory Profit Theories, 12* • *Role of Profits in the Economy, 13*

### Managerial Application: 1.3 Google on Social Responsibility

### Role of Business in Society
- *Why Firms Exist, 14* • *Social Responsibility of Business, 15*

### Managerial Application 1.4: The Internet Revolution

### Structure of this Text
- *Objectives, 16* • *Development of Topics, 17*

### Summary

### Questions

### Case Study: Is Coca-Cola the “Perfect” Business?

### Selected References

## Chapter 2: Basic Economic Relations

### Economic Optimization Process
- *Optimal Decisions, 23* • *Maximizing the Value of the Firm, 24*

### Revenue Relations
- *Price and Total Revenue, 25*

### Managerial Application 2.1: The Ethics of Greed Versus Self-Interest
- *Marginal Revenue, 28* • *Revenue Maximization Example, 29*

### Managerial Application 2.2: Do Firms Really Optimize?

### Cost Relations
- *Total Cost, 30* • *Marginal and Average Cost, 32* • *Average Cost Minimization Example, 33*

### Profit Relations
- *Total and Marginal Profit, 34*

### Managerial Application 2.3: Market-Based Management
- *Profit Maximization Example, 35*

### Managerial Application 2.4: Behavioral Economics
- *Marginal Versus Incremental Concept, 39* • *Incremental Profits, 39* • *Incremental Concept Example, 40*

### Summary

### Questions

### Self-Test Problems and Solutions

### Problems

### Case Study: Spreadsheet Analysis of the EOQ at the Neighborhood Pharmacy, Inc.
Appendix 2A: Math Analysis for Managers

Contents

Appendix 2A: Math Analysis for Managers

55

Properties of Real Numbers

Transitive Property, 55 • Commutative Properties, 55 • Associative Properties, 56
• Distributive Properties, 56 • Inverse Properties, 56 • Exponents and Radicals, 56

Equations

Equivalent Operations, 57 • Linear Equations, 58 • Quadratic Equations, 58 • Multiplicative Equations, 58 • Exponential Functions, 58
• Logarithmic Functions, 59

Concept of a Marginal

60

Rules for Differentiating a Function

Constants, 62 • Powers, 63 • Sums and Differences, 63 • Products, 64 • Quotients, 65
• Logarithmic Functions, 65 • Function of a Function (Chain Rule), 66

Selected References

Chapter 3: Statistical Analysis of Economic Relations

69

Data Summary and Description

Population Parameters, 69 • Sample Statistics, 70

Measures of Central Tendency

Mean, 70 • Median, 72 • Mode, 74 • Comparing Measures of Central Tendency, 74

Managerial Application 3.1: Sampling Technology for TV Advertising

76

Measures of Dispersion

Range, 76 • Variance and Standard Deviation, 77 • Coefficient of Variation, 78

Chapter 4: Demand and Supply

115

Basis for Demand

Direct Demand, 115 • Derived Demand, 116

Managerial Application 4.1: How the Internet Affects Demand and Supply

117

Market Demand Function

Determinants of Demand, 117 • Industry Demand Versus Firm Demand, 118

Demand Curve

Demand Curve Determination, 119 • Relation Between the Demand Curve and Demand Function, 120

Managerial Application 4.2: ISP Customers Learn About Demand and Supply

122

Basis for Supply

How Output Prices Affect Supply, 123 • Other Factors That Influence Supply, 124

Market Supply Function

Determinants of Supply, 124 • Industry Supply Versus Firm Supply, 125

Managerial Application 4.3: The Import Supply Battle in the U.S. Auto Industry

126
Business Cycle

What is the Business Cycle?, 212 • Economic Indicators, 214 • Economic recessions, 215 • Sources of Forecast Information, 217

Managerial Application 6.3: The Stock Market and the Business Cycle 218

Exponential Smoothing

Exponential Smoothing Concept, 219 • One-Parameter (Simple) Exponential Smoothing, 219 • Two-Parameter (Holt) Exponential Smoothing, 220 • Three-Parameter (Winters) Exponential Smoothing, 221 • Practical Use of Exponential Smoothing, 221

Econometric Forecasting

Advantages of Econometric Methods, 222 • Single-Equation Models, 224 • Multiple-Equation Systems, 225

Managerial Application 6.4: How Good Is Your Forecasting Ability? 223

Judging Forecast Reliability

Tests of Predictive Capability, 227 • Correlation Analysis, 227 • Sample Mean Forecast Error Analysis, 227

Choosing the Best Forecast Technique 228

Data Requirements, 228 • Time Horizon Considerations, 228 • Role of Judgment, 230

Summary 230

Questions 231

Self-Test Problems and Solutions 232

Problems 234

Case Study: Forecasting Global Performance for a Mickey Mouse Organization 240

Selected References 243

Part 3: Production and Competitive Markets 245

Chapter 7: Production Analysis and Compensation Policy 247

Production Functions 247

Properties of Production Functions, 247 • Returns to Scale and Returns to a Factor, 248

Total, Marginal, and Average Product 250

Total Product, 250 • Marginal and Average Product, 250

Law of Diminishing Returns to a Factor 253

Diminishing Returns to a Factor Concept, 253 • Illustration of Diminishing Returns to a Factor, 254

Managerial Application 7.1: Efficiency Wages 254

Input Combination Choice 255

Production Isoquants, 256 • Input Factor Substitution, 257 • Marginal Rate of Technical Substitution, 258 • Rational Limits of Input Substitution, 259

Managerial Application 7.2: An Inconvenient Truth About Minimum Wages 260

Marginal Revenue Product and Optimal Employment 260

Marginal Revenue Product, 260 • Optimal Level of a Single Input, 261 • Illustration of Optimal Employment, 262

Optimal Combination of Multiple Inputs 263

Budget Lines, 263 • Expansion Path, 264 • Illustration of Optimal Input Proportions, 265

Optimal Levels of Multiple Inputs 266

Optimal Employment and Profit Maximization, 266 • Illustration of Optimal Levels of Multiple Inputs, 267

Managerial Application 7.3: What’s Wrong with Manufacturing? 267

Returns to Scale 268

Output Elasticity and Returns to Scale, 268 • Returns to Scale Estimation, 269

Productivity Measurement 270

Economic Productivity, 271 • Causes of Productivity Growth, 272

Managerial Application 7.4: CEO Compensation 271

Summary 273

Questions 274
Chapter 8: Cost Analysis and Estimation

Economic and Accounting Costs

- Historical Versus Current Costs, 287
  - Opportunity Costs, 288

Role of Time in Cost Analysis

- Incremental Versus Sunk Cost, 289
  - How Is the Operating Period Defined?, 290

Managerial Application 8.1: GE’s “20-70-10” Plan

Short-Run Cost Curves

- Short-Run Cost Categories, 291
  - Short-Run Cost Relations, 292

Managerial Application 8.2: Gaps in GAAP?

Long-Run Cost Curves

- Long-Run Total Costs, 295
  - Economies of Scale, 295
  - Cost Elasticities and Economies of Scale, 297
  - Long-Run Average Costs, 297

Managerial Application 8.3: What’n Heck Is a FASB?

Minimum Efficient Scale

- Competitive Implications of Minimum Efficient Scale, 300
  - Transportation Costs and MES, 300

Firm Size and Plant Size

- Multiplant Economies and Diseconomies of Scale, 301
  - Economics of Multiplant Operation An Example, 302
  - Plant Size and Flexibility, 306

Learning Curves

- Learning Curve Concept, 307
  - Learning Curve Example, 308
  - Strategic Implications of the Learning Curve Concept, 310

Managerial Application 8.4: Bigger Isn’t Always Better

Economies of Scope

- Economies of Scope Concept, 311
  - Exploiting Scope Economies, 311

Cost-Volume-Profit Analysis

- Cost-Volume-Profit Charts, 312
  - Degree of Operating Leverage, 313

Summary

Chapter 9: Linear Programming

Basic Assumptions

- Inequality Constraints, 329
  - Linearity Assumption, 330

Managerial Application 9.1: Karmarkar’s LP Breakthrough

Production Planning for a Single Product

- Production Processes, 331
  - Production Isoquants, 332
  - Least-Cost Input Combinations, 334
  - Optimal Input Combinations with Limited Resources, 335

Managerial Application 9.2: LP: More Than a Visual Approach

Production Planning for Multiple Products

- Objective Function Specification, 338
  - Constraint Equation Specification, 339
  - Nonnegativity Requirement, 339

Graphic Specification and Solution

- Analytic Expression, 340
  - Graphing the Feasible Space, 340
  - Graphing the Objective Function, 342
  - Graphic Solution, 343

Algebraic Specification and Solution

- Algebraic Specification, 344
  - Algebraic Solution, 346

Managerial Application 9.3: LP on the PC!

Dual in Linear Programming

- Duality Concept, 350
  - Shadow Prices, 350

Dual Specification

- Dual Objective Function, 351
  - Dual Constraints, 351
  - Dual Slack Variables, 352

Solving the Dual Problem

- Dual Solution, 353
  - Using the Dual Solution to Solve the Primal, 354

Managerial Application 9.4: It’s a RIOT on the Internet!

Summary
Chapter 10: Competitive Markets

377

Contents

Questions 357
Self-Test Problems and Solutions 358
Problems 365
Case Study: A LP Pension Funding Model 370
Appendix 9A: Rules for Forming the Dual Linear
Programming Problem 373
Primal Problem 373
Dual Problem 374
Selected References 375

Chapter 10: Competitive Markets 377

Competitive Environment

What Is Market Structure?, 377 • Vital
Role of Potential Entrants, 378

Factors that Shape the Competitive
Environment

Product Differentiation, 378 • Production
Methods, 380 • Entry and Exit Conditions, 380

Managerial Application 10.1: Benefits From
Free Trade 379

Competitive Market Characteristics

Basic Features, 381 • Examples of Competitive
Markets, 381

Managerial Application 10.2: Is the Stock
Market Perfectly Competitive? 382

Profit Maximization in Competitive Markets

Profit Maximization Imperative, 383 • Role of
Marginal Analysis, 383

Marginal Cost and Firm Supply

Short-Run Firm Supply Curve, 387 • Long-Run
Firm Supply Curve, 389

Managerial Application 10.3: Dot.com

390

Competitive Market Supply Curve

Market Supply with a Fixed Number
of Competitors, 391 • Market Supply
with Entry and Exit, 391

Competitive Market Equilibrium

Balance of Supply and Demand, 394 • Normal
Profit Equilibrium, 395

Managerial Application 10.4: The Enron
Debacle 396

Summary 396

Questions 397

Self-Test Problems and Solutions 398

Problems 403
Case Study: Profitability Effects of Firm
Size for DJIA Companies 407
Selected References 409

Chapter 10: Competitive Markets 411

Competitive Market Efficiency

Why Is it Called Perfect Competition?, 411
• Deadweight Loss Problem, 413
• Deadweight Loss Illustration, 414

Managerial Application 11.1: The Wal-Mart
Phenomenon 416

Market Failure 416

Structural Problems, 416 • Incentive Problems, 417

Role for Government

• How Government Influences Competitive
Markets, 417 • Broad Social
Considerations, 418

Managerial Application 11.2: Corn Growers
Discover Oil! 419

Subsidy and Tax Policy

Subsidy Policy, 420 • Deadweight Loss
from Taxes, 420

Tax Incidence and Burden

Role of Elasticity, 422 • Tax Cost-Sharing
Example, 424

Managerial Application 11.3: Measuring
Economic Profits 426

Price Controls

Price Floors, 427 • Price Ceilings, 429

Business Profit Rates

Return on Stockholders’ Equity, 430
• Typical Profit Rates, 431

Managerial Application 11.4: Wonderful
Businesses 432

Market Structure and Profit Rates

Profit Rates in Competitive Markets, 433
• Mean Reversion in Profit Rates, 433

Competitive Market Strategy

Short-Run Firm Performance, 435

Long-Run Firm Performance 436

Summary 436
Part 4: Imperfect Competition
