Advances in Decision Making Under Risk and Uncertainty

 Springer

Contents

Contributors	xi
Part I Uncertainty and Information Modeling	
Revealed Ambiguity and Its Consequences: Updating	3
P. Ghirardato, F. Maccheroni, and M. Marinacci	
Dynamic Decision Making When Risk Perception Depends on Past Experience	19
M. Cohen, J. Etner, and M. Jeleva	
Representation of Conditional Preferences Under Uncertainty	33
G.B. Asheim	
Subjective Information in Decision Making and Communication	49
J.D. Stecher	
Part II Risk Modeling	
Sensitivity Analysis in Decision Making: A Consistent Approach	65
E. Borgonovo and L. Peccati	
Alternation Bias and the Parameterization of Cumulative Prospect Theory	91
K. Kaivanto	
Proposing a Normative Basis for the S-Shaped Value Function	109
M.E. Fabiyi	
Part III Experimental Individual Decision Making	
Individual Choice from a Convex Lottery Set: Experimental Evidence ...	121
T. Neugebauer	

Temptations and Dynamic Consistency	137
E. Carbone	
Monty Hall's Three Doors for Dummies	151
A. Morone and A. Fiore	
Overconfidence in Predictions as an Effect of Desirability Bias	163
F. Giardini, G. Coricelli, M. Joffily, and A. Sirigu	
Part IV Experimental Interactive Decision Making	
Granny Versus Game Theorist: Ambiguity in Experimental Games	183
J. Eichberger, D. Kelsey, and B.C. Schipper	
Guessing Games and People Behaviours: What Can We Learn?	205
A. Morone and P. Morone	
The Determinants of Individual Behaviour in Network Formation: Some Experimental Evidence	219
D. Di Cagno and E. Sciubba
