Joseph A. Schumpeter’s Theory of Social and Economic Evolution: a Reconstruction and Critique
Contents

Abstract 3
Preface 6
Acknowledgements 10

1 Introduction: Background, Key Concepts and Aims 11
  1.1 Background 11
  1.2 Key Concepts 11
  1.3 The Aims of the Present Study 13
  1.4 Contents: An Overview 14

2 Research Material and Methods 20
  2.1 The Unity and Diversity of the Schumpeterian Oeuvre 20
  2.2 The Material of Research 23
  2.3 The Methods of Analysis 25
  2.4 The Process of Inquiry 27
  2.5 Methodological Controversies and Schumpeter’s Theory 28
  2.6 Summary and Conclusions 29

3 Schumpeter’s Theses on Economic and Social Evolution 31
  3.1 Social and Economic Change under Capitalist Conditions
      Necessarily Have an Evolutionary Character 32
  3.2 Social and Economic Evolution is by Nature a
      Discontinuous, Punctuated Process 34
  3.3 The Prime-Mover of Evolution is Innovation 36
  3.4 The Innovation Process is Discontinuous 37
  3.5 Innovations Pervasively Transform Existing Social
      and Economic Structures 40
  3.6 Schumpeter’s Evolutionism: Summary and Conclusions 46

4 The Schumpeterian Theory of Technological Transformations:
   An Interpretation 51
  4.1 The Schumpeterian Conception of the Innovation Process 51
  4.2 The Conditions for Successful Innovations 57
  4.3 The Process of Economic Transformation Driven by
      Innovations 59
  4.4 Conclusions 63

5 Innovation, Technological Transformations and Society:
   New Theoretical Perspectives 64
  5.1 Recent Approaches to the Innovation Process 64
  5.2 The Innovation Process after Schumpeter 76
  5.3 The Paths of Innovations: Possibilities for
      Further Development 77
  5.4 Conclusions 82
