Preface xxiii

CHAPTER 1 Information Systems Management in the Global Economy 1

Introduction 2
Themes of This Book 2
Management of IS 3
A Little History 5

The Organizational Environment 6
  The External Business Environment 6
  The Internal Organizational Environment 9
  Business Strategies in the New Work Environment 12

The Technology Environment 14
  Hardware Trends 14
  Software Trends 15
  Data Trends 16
  Communications Trends 18

The Mission of IS Organizations 19
A Simple Model 19
A Better Model 20
  The Technologies 20
  The Users 21
  System Development and Delivery 22
  IS Management 22

Organization of This Book 23
  Case Example: MeadWestvaco Corporation 24

Questions and Exercises 40
References 41
PART I LEADERSHIP ISSUES IN THE DIGITAL ECONOMY 43

CHAPTER 2 The Top IS Job 45
Introduction 45
Where Is the IS Organization Headed? 46
The Escalating Benefits of IT 46
Case Example: American Airlines and the SABRE System 48
Traditional Functions Are Being Nibbled Away 51
New Roles Are Emerging 53
Toward IS Lite 55
Case Example: Lifescan 56
The CIO’s Responsibilities 59
CIO Roles in Three Computing Eras 59
Case Example: BP 66
Case Example: Aetna Life and Casualty 70
Governing: Establishing an IS Governance Structure 73
Case Example: Duke Energy International 75
Investing: Shaping the IT Portfolio 77
Case Example: Wal-Mart versus K-Mart 78
Timing Matters 80
Case Example: AXA Financial 81
Managing: Establishing Credibility and Fostering Change 88
Case Example: Rexam 90
The Office of the CIO? 94
Conclusion 94
Questions and Exercises 95
References 96

CHAPTER 3 Strategic Uses of Information Technology 98
Introduction 99
History of Strategic Uses of IT 99
Whither the Internet Revolution 101
The Cheap and Disruptive Revolution 101
Episode Two: Profitability Strikes Back 101
Episode Three: Internet-Enabled Mass Customization 102
  Case Example: Grainger 103
Does IT Still Matter? 104
  The Debate Is On 105
Working Inward: Business-to-Employee 107
  Building an Intranet 107
  Building Quality Web Portal 109
  Case Example: GE Energy Power Systems 110
  Fostering a Sense of Belonging 111
Working Outward: Business-to-Customer 112
  Jumping to a New Experience Curve 112
  Case Example: The Shipping Industry 113
  Case Example: Cisco Systems and UPS Supply Chain Solutions 115
  The Emergence of Electronic Tenders 116
  Getting Closer to Customers 116
  Being an Online Customer 118
  Case Example: A Day in the Life of an E-lancer 118
Working Across: Business-to-Business 120
  Coordinating with Co-suppliers 120
  Case Example: General Mills and Land O’ Lakes 121
  Establishing Close and Tight Relationships 121
  Case Example: Sara Lee Bakery Group 123
  Becoming a Customer-Centric Value Chain 125
  Case Example: Dell versus HP 125
  Getting Back-End Systems in Shape 128
  Mobile Computing as a Strategic Advantage 128
Conclusion 129
Questions and Exercises 129
References 130

CHAPTER 4  Strategic Information Systems Planning 132

Introduction 133
Why Planning Is So Difficult? 133
CHAPTER 6 Managing Telecommunications 213

Introduction 213

The Evolving Telecommunications Scene 214

125 Years of Technological Innovation and Industrial Revolution 214

The Future of Telecommunications 216

Telecommunications for Business 217

The Internet and Telecommunications Services 219

Case Example: XYZ Company 220

Case Example: National Semiconductor 222

Digital Convergence 223

Case Example: Toronto Pearson International Airport 225

The OSI Reference Model Underlies Today's Networks 226

The Rate of Change Is Accelerating 230

Bandwidth Abundance? 231

The Wireless Century Has Begun 231

Case Example: BMW 234

Case Example: American Greetings 238

Is Wireless Secure? 240

Is Wireless Safe? 241

Messaging Is a Killer App 241

Case Example: Keebler 243

An Internet of Appliances, Traffic Prioritization, and Network Neutrality 244

The Role of the IS Department 245

Planning and Creating the Telecommunications Architecture 245

Managing Telecommunications 246

Keeping Abreast of Telecommunications Technology Policy 247

Conclusion 247

Questions and Exercises 247

References 248
CHAPTER 7 Managing Corporate Information Resources 250

Introduction 250

Managing Data 252

The Three-Level Database Model 252
Four Data Models in Business 254
Getting Corporate Data into Shape 257
Enterprise Resource Planning (ERP) 259

Managing Information 260

Four Types of Information 261
Data Warehouses 262
Case Example: Owens & Minor 265
Document Management 268
Case Example: Tapiola Insurance Group 270
Case Example: Tennessee Valley Authority 274
Content Management 276
Case Example: Eastman Chemical Company 279

Managing Blogs 282
Case Example: Groove Networks 283

Conclusion 284

Questions and Exercises 285

References 286

CHAPTER 8 Managing Partnership-Based IT Operations 287

Introduction 288

Solving Operational Problems: A Portfolio Approach 289

Operational Measures 290
The Importance of Good Management 290
What’s New in Operations? 291
Case Example: Microsoft 293

Outsourcing IS Functions 294

The Driving Forces Behind Outsourcing 295
Changing Customer–Vendor Relationships 296
Outsourcing’s History 297
Case Example: ANZ Banking Group Ltd. 300
CHAPTER 10 Management Issues in System Development 354

Introduction 355

Infrastructure Management 355
Customer Relationship 355
Product Innovation 355

Project Management 356

What Is Project Management? 356
The Job of a Project Manager 357
Case Example: A Day in the Life of an IT Project Manager 360

Change Management 363
Case Example: The BOC Group 364
Change Management Process for IT Systems 366

Risk Management 367
Case Example: Dow Corning 370

Tips for Good IT Project Management 372

Modernizing Legacy Systems 374
To Replace or Not to Replace? 374
Options for Improving a Legacy System 375
Case Example: Verizon Directories 378
Case Example: Amazon.com 380
Case Example: Toyota Motor Sales 381
Case Example: Wachovia 385

Measuring Systems Benefits 386
Distinguish Between the Different Roles of Systems 387
Measure What Is Important to Management 388
Assess Investments Across Organizational Levels 389
Case Example: A Trucking Company 389
Do Investors Value IT Investments? 391
Conclusion 392
Questions and Exercises 393
References 394

CHAPTER 11 Managing Information Security 396
Introduction 396
Information Security 397
The Threats 397
Data Thefts: The Biggest Worry and Insider Threats 398
Scope of Security Management 400
Case Example: Credit Card Fraud 401
An Array of Perils 402
Security’s Five Pillars 403
Technical Countermeasures 404
Playing Cat and Mouse: Tools for Computer Security 407
Management Countermeasures 408
Case Example: An Internet Services Company 410
Planning for Business Continuity 412
Using Internal Resources 412
Using External Resources 414
Case Example: UT Austin Responds to Data Thefts 415
Security Is a Core Competency 417
Conclusion 418
Questions and Exercises 419
References 420

PART IV SYSTEMS FOR SUPPORTING KNOWLEDGE-BASED WORK 421

CHAPTER 12 Supporting Information-Centric Decision Making 423
Introduction 424
Case Example: A Problem-Solving Scenario 425
Technologies-Supported Decision Making 426
Building Timely Business Intelligence 426
Decision Support Systems 427
Case Example: Ore-Ida Foods 430
Case Example: A Major Services Company 431
Data Mining 432
Case Example: Harrah's Entertainment 433
Executive Information Systems 435
Case Example: Xerox Corporation 436
Case Example: General Electric 439
Expert Systems 440
Case Example: American Express 444
Agent-Based Modeling 446
Toward the Real-Time Enterprise 448
Enterprise Nervous Systems 448
Case Example: Delta Air Lines 449
Straight-Through Processing 450
Real-Time CRM 450
Case Example: A Real-Time Interaction on a Web Site 451
Communicating Objects 453
Vigilant Information Systems 454
Case Example: Western Digital Corp. 455
Requisites for Successful Real-Time Management 459
Conclusion 460
Questions and Exercises 460
References 461

CHAPTER 13 Supporting IT-Enabled Collaboration 463
Introduction 464
Teams: The Basis of Organizations 464
Understanding Groups 465
Groups in Organizations 465
Types of Groups 466
Communities of Practice 468
Case Example: DaimlerChrysler 469
Supporting Collaboration 470
Network Armies 471
Case Example: The Open Source Movement 472
PART V THINKING AHEAD 537

CHAPTER 15 The Opportunities and Challenges Ahead 539

Introduction 539
Hot Issues—Challenges or Opportunities? 540
Navigating Information Overload 540
Green Computing 541
Virtualization and Parallelization 541
IT Talents and Globalization 542
Organizing Principles 543
The Learning Organization 543
Contents

Mental Models 543
Processes Rather Than Functions 544
Communities Rather Than Groups 545
Case Example: National Semiconductor 546
Virtual Rather Than Physical 547
Case Example: Sun Microsystems 547
Self-Organizing Rather Than Designed 548
Case Example: Semco, S. A. 550
Adaptable Rather Than Stable 552
Case Example: Capital One 553
Distributed Rather Than Centralized 554
Capturing the World of Connections 556
The Internet Mind-set 556
Where's the Value in a Network? 558
The Rules of Networks 560
Moving Forward 564
Understanding Users 565
Increasing Executives' Understanding of IT 568
Conclusion 572
Questions and Exercises 572
References 573

Glossary 575
