## Part I EU Perspectives: Systemic Performance and Currency Issues

1 The Swedish Economic Model: Lessons to be Learned 3
   *Karl Aiginger*
   1.1 Introduction 3
   1.2 The European socio-economic model 4
   1.3 Reform strategies in Sweden, 1993–2002 8
   1.4 The recurrence of some problems 14
   1.5 Are there lessons to be learned for the new member countries? 17
   Appendix 1.1 Towards a new European model 19

2 The European Central Bank Inflation Target and Economic Growth in the Eurozone 23
   *Svatopluk Kapounek and Lubor Lacina*
   2.1 Introduction 23
   2.2 Theoretical background: monetary policy versus economic growth 24
   2.3 Methodology 27
   2.4 Empirical analysis: impact of monetary restriction and expansion on the aggregate economy growth in the Eurozone 28
   2.5 Conclusions 34
## 3 Real Effective Exchange Rate for the Euro: Equilibrium and Misalignment

*Antonin Rusek*

3.1 Introduction 42  
3.2 ‘Equilibrium’ real effective exchange rate: modelling concepts and literature 44  
3.3 The BEER type of the equilibrium real effective exchange rate model 47  
3.4 Estimation 50  
3.5 Results: what do they tell us? 54  
3.6 Conclusions 62  

Appendix 3.1 Variables: definition and sources 62  
Appendix 3.2 Unit root tests for variables in BEER models – ADF tests 63

## 4 Exchange Rate Policy Strategy in Large Currency Areas

*Svatopluk Kapounek and Jitka Poměnková*

4.1 Introduction 66  
4.2 Methodological approach 70  
4.3 Empirical analysis results 72  
4.4 Conclusions 80

## 5 Euro Area Enlargement and European Central Bank Reform

*David Howarth*

5.1 Introduction 82  
5.2 The difficulties posed by enlargement: size matters but so too does representation 84  
5.3 Alternative reform proposals 87  
5.4 Rotation system 88  
5.5 The official justification 90  
5.6 Debates on the number and composition of rotating groups, voting rights, composite indicator and representativeness 91  
5.7 Compromising representativeness and efficiency 92  
5.8 The economic danger of ‘equality’ 94  
5.9 Conclusions 97
## Part II EU Expansion: New Members in the EU Environment

### 6 Fiscal Convergence in Monetary Union: are the New Member Countries Better Disciplined than Eurozone Members?

*Evžen Kočenda, Ali M. Kutan and Taner M. Yigit*

- 6.1 Introduction 107
- 6.2 Related studies and our contribution 109
- 6.3 Methodology 111
- 6.4 Data and sample period 114
- 6.5 Empirical findings 115
- 6.6 Conclusions 125

### 7 Business Cycles Similarity and EMU Enlargement: the Concordance Index for Central and Eastern European Countries

*Petr Rozmahel*

- 7.1 Introduction 131
- 7.2 Data and methodology 132
- 7.3 The traditional approach: correlation of business cycles 134
- 7.4 The concordance index technique 138
- 7.5 Conclusions 142

Appendix 7.1 144

### 8 Monetary Policy before Euro Adoption: Challenges for New EU Members

*Jan Filáček, Roman Horváth and Michal Skořepa*

- 8.1 Introduction 149
- 8.2 The exchange rate criterion and the inflation criterion 151
- 8.3 Monetary policy regime options in ERM II 159
- 8.4 Conclusions 168

Appendix 8.1: The experience of selected countries 169

### 9 Fiscal Performance and Economic Growth in the Old and New Member States of the EU

*István Benczes*

- 9.1 Introduction 179
- 9.2 Fiscal performance and economic growth in old member states 180
9.3 Fiscal performance of CEE countries on the road towards the euro 192
9.4 Conclusions 196
Appendix 9.1 197

Part III Various Aspects of EU Economies: China and the World Economy, FDIs, Company Taxation, the ECB and the ‘New’ Member States

10 Company Taxation in the European Union: Current Developments and Implications for the Coordination Debate 203
Margit Schratzenstaller

10.1 Introduction 203
10.2 Challenges for European company tax policy 208
10.3 The debate about company tax coordination in the EU: status quo and perspectives 214

11 The Policy of the ECB and its Impact on the Economic Development of New EU Members 223
Milan Sojka

11.1 Introduction 223
11.2 Post-Keynesian monetary theory 224
11.3 The European Central Bank, its position and the role of its monetary policy from a post-Keynesian view 228
11.4 The effects of the role and monetary policy of the ECB for post-socialist and less developed EU member states from the post-Keynesian economics point of view 234
11.5 Conclusions 238

12 New Global Players and Disharmonies in the World Orchestra: Cohesion Analysis of Business Cycles of China 241
Jarko Fidrmuc, Iikka Korhonen and Ivana Bátorová

12.1 Introduction 241
12.2 Determinants of business cycle synchronization 243
12.3 Correlation and dynamic correlation analysis 245
