Preface 7
The content of the book 8
Unique features 8
How to use this book 9
Acknowledgements 10

1. Introduction and overview 17
1.1 Background 17
1.2 Overview of the chapters 20
1.3 Blind men and the elephant 37

2. Background, origin and positioning 41
2.1 Introduction 41
2.2 New institutional economics and Economic Organisation Theory 43
2.3 Industrial organisation theory 47
2.4 The fixed asset and exit barriers theory 52
2.5 Evolutionary theory 56
2.6 Important areas of application for evolutionary economics 61
2.7 Common elements of new theories 65
2.8 New institutional economics as a complement to standard neoclassical economics 67
Appendix 2.1 Return, rent and quasi-rent 71
Appendix 2.2 Question for review: sunk investments, fixed assets and quasi-rent 73

3. Embeddedness, institutional environment and governance structures 75
3.1 Introduction 75
3.2 The role of institutions in economic development 76
3.3 Institutional framework: levels of institutions 83
3.4 Embeddedness and social capital 85
3.5 Institutional environment 98
3.6 Governance structures 99
3.7 Applications of the theory: the 'club' as governance structure and environmental cooperatives 110
Appendix 3.1 Framework for analysing institutions and designing better institutions 117

4. Information and behavioural economics, and the role of incentives 121
4.1 Introduction 121
4.2 Asymmetric information, private information, hidden information and hidden actions 123
4.3 Bounded rationality, opportunistic behaviour, self-interest, altruism and the use of incentives 146
4.4 Commitment and reputation 153
4.5 Risk, uncertainty and risk-aversity 158

Institutional economics and economic organisation theory 13
### Table of contents

4.6 Prospect theory 165  
4.7 Application: bargaining over a sale 169  

5. Attributes of transactions and transaction cost economics 173  
5.1 Introduction 173  
5.2 Transaction cost theory 174  
5.3 Transaction cost economics: applying the basic elements 178  
5.4 Framework for determining attributes of transactions which are decisive for the choice of governance structures 188  
5.5 Determining private and public transaction costs in practice 200  
Appendix 5.1. Differences between transaction costs and transition costs. 207  

6. Principal-agent theory 209  
6.1 Introduction 209  
6.2 Principal-agent theory 210  
6.3 Hidden information and adverse selection 217  
6.4 Hidden actions and moral hazard 220  
6.5 The optimal contract 227  
6.6 Principal-agent approach and functioning of the government 232  
6.7 Question for review: principal-agent approach and risk-attitude 237  

7. Contract theory 239  
7.1 Introduction 239  
7.2 Complete and incomplete contracts 240  
7.3 Types of contracts 244  
7.4 Properties of contracts 250  
7.5 Commitment, contracts compliance and re-opening of the contract 253  
7.6 Guidelines for contract design 258  
7.7 Design principles for contractual failures 263  
7.8 Applications of the theory; public provision versus contracting out 267  

8. Coordination mechanisms and organisational modes 271  
8.1 Introduction 271  
8.2 Coordination, motivation and the way of organising 273  
8.3 Four groups of coordination mechanisms 275  
8.4 A continuum of governance structures 280  
8.5 Five organisational modes 289  
8.6 An application; the dominance of the family farm 294  

9. Ownership 297  
9.1 Introduction 297  
9.2 The concepts of ownership 298  
9.3 The structure of ownership 304  
9.4 Who 'owns' a project or a firm? 309  
9.5 Whose interests should count? 311
Table of contents

10. The economics of property rights 317
   10.1 Introduction 317
   10.2 Property rights theory 318
   10.3 Property rights and the Coase theorem 334
   10.4 The characteristics of goods: excludability, rivalry and property rights 343
   10.5 Application in practice 348

11. The economic theory of takings 357
   11.1 Introduction 357
   11.2 Two forms of takings: titular and regulatory takings 357
   11.3 Five economic arguments for restricting takings and compensation 359
   11.4 Incentive effects of takings 364
   11.5 Land reforms, Coase theorem and takings 365
   11.6 Application of the theory 369
