Agricultural economics and transition:
What was expected, what we observed, the lessons learned

Proceedings
(Volume II)

Edited by
Csaba Csáki and Csaba Forgács

IAMO
2008
CONTENTS

Volume I

Foreword ........................................................................................................... 1
Csaba Csáki, Csaba Forgács

1 Introduction: A conference summary
A Joint IAAE-EAAE Seminar summary comments ............................................. 3
Csaba Csáki

2 Overall transition development
The profession of (agricultural) economists and the experience of transition ... 23
Ulrich Koester
Measuring the success of agricultural transition: An application to Russia ...... 44
William M. Liefert
Competitiveness in the food industry: A CGE modeling approach to
assess foreign direct investment in transition countries ............................... 55
Martin Banse, S. H. Gay, S. Mcdonald, R. M’barek, Johan F. M. Swinnen
Policy reform and agricultural productivity in transition countries .......... 66
Hanho Kim, Donghwan An
Changes in the structure of agricultural production, farm structure and
income in Hungary in the period of 2004-2006 ............................................. 73
Gábor Szabó
Shaping agribusiness and its impact on the competitive environment of
agricultural enterprises .............................................................................. 82
Věra Bečvářová
Transition and foreign trade: The case of the Ukrainian agri-food sector ....... 93
Inna Levkovych, Heinrich Hockmann
The development of the hungarian agricultural trade after the EU accession ... 104
Gábor König
3 Country transition experience

Agricultural transition and integration to the world economy: NIS case ...... 117
*Eugenia Serova*

Diversification of rural incomes and non-farm rural employment: Evidence
from Russia ........................................................................................................... 133
*Dmitry Zvyagintsev, Olga Shick, Eugenia Serova, Zvi Lerman*

Accounting for heterogeneity bias in efficiency models: An application
to Polish agriculture ............................................................................................ 144
*Heinrich Hockmann, Agata Pieniadz*

Transformational crisis, transformational depression in the agriculture.
The Hungarian case .............................................................................................. 154
*Péter Halmai, Viktória Vásáry*

The main bottlenecks of the rural knowledge transfer in Romania ........... 165
*Mária Vincze, Andrea Kölcsey*

Studying investment patterns in Russian agriculture ...................................... 175
*Raushan Bokusheva, Irina Bezlepkina, Alexander Kupavyc*

Changes in the Romanian farm structures during transition – Evolution
and main determinants ......................................................................................... 184
*Crina Turtoi, Camelia Toma, Camelia Gavrilescu*

A time-series analysis of the beef livestock supply in Russia:
Implications for agricultural sector development policies ................................ 193
*Maria Antonova, Manfred Zeller*

4 Land reform

Agricultural recovery in CIS: Lessons of 15 years of land reform and
farm restructuring ............................................................................................... 205
*Zvi Lerman*

Land market development and agricultural production efficiency in
Albania ................................................................................................................... 223
*Klaus Deininger, Sara Savastano, Gero Carletto,*

The persistence of the corporate farms: They survived the transition but
do they have future under the CAP ................................................................. 233
*Laure Latruffe, Sophia Davidova, Gejza Blaas*
Land use and land reform in some former Central and East European countries ................................................................. 243
Katalin Takács-György, Anna Bandlerova, Adam Sadowski

Romania: Semi-subsistence farm sector, result of wrong strategic approach? ................................................................. 253
Lucian Luca

5 Farming efficiency and farming organizations

Farm-level determinants of conversion to sustainable farming practices in the New Members States ................................................................. 265
Adriana Cristoiu, Francisco Cáceres-Clavero, Blanca Lucena-Cobos

The economics of farm organization in CEEC and FSU ....................... 276
Pavel Ciaian, Jan Pokrivcak, Dusan Drabik

The structure of individual (family) farms in Hungary .......................... 286
Anna Burger, Katalin Szép

Facing the future: Strategies and investment behaviour of Polish farmers ...... 297
S. Gomez y Paloma, E. Majewski, M. Raggi, D. Viaggi

Volume II

6 Production and value chains

From public to private governance of agri-food supply chains in transition countries: Some theoretical and empirical lesson ....................... 309
Johan F. M. Swinnen, Anneleen Vandeplas

Assessing market functioning: The case of the Hungarian milk chain .......... 322
Heinrich Hockmann, Éva Vöneki

Modelling dairy farm size distribution in Poland using an instrumental variable generalized cross entropy markov approach ......................... 332
Axel Tonini, Roel Jongeneel

Spatial integration on the hungarian milk Market ................................ 342
Lajos Zoltán Bakucs, Imre Fertő

Some approaches to the analysis of market structure’s impact in milk commodity chain ......................................................... 353
Petr Novák
A comparative analysis of the meat sector in Hungary and Emilia-Romagna: Performance and efficiency .................................................. 361
Cristina Brasili, Roberto Fanfani, Elisa Ricci Maccarini, Irene Monasterolo

Bottlenecks and success factors for the introduction of quality assurance schemes in the agri-food sector .......................................................... 373
Xavier Gellynck, Bianka Kühne, Adrienn Molnár

The impact of trust on co-operative membership performance and satisfaction in the hungarian horticulture ......................................................... 382
Lajos Zoltán Bakucs, Imre Fertő, Gábor G. Szabó

Integration of small and medium size farmers by co-operatives in the Hungarian fruit and vegetable sector – A case study ........................................ 393
Gábor G. Szabó

Lessons on vertical collaboration in Ukraine ........................................... 403
Taras Gagalyuk, Jon Hanf

7 Institutions

Promoting sustainable market institutions in the transition economies: The role of international assistance .......................................................... 415
Nancy J. Cochrane

Role of research and researchers during transition: Case study of Lithuania ............................................................................................................. 425
Natalija Kazlauskiene, William H. Meyers

Role of state administration in updating land-estate and farm-size conditions ........................................................................................................ 435
Maria Fekete-Farkas, József Molnár, István Szűcs

The role of professional agricultural economics associations in shaping national agricultural policy: The case of ŠERiA ......................................... 445
Wojciech J. Florkowski

Some conceptional thoughts on the impact of social networks on non-farm rural employment .............................................................................. 453
Diana Traikova, Judith Möllers, Jana Fritzsch, Gertrud Buchenrieder

Milada Kasarjyan, Jana Fritzsch, Gertrud Buchenrieder, Rüdiger Korff
8 Impact of EU enlargement

Agriculture in New Member States – Expectations and lessons learned........ 475
Jerzy Wilkin

Hungarian agriculture and EU Accession............................................. 488
Jozsef Popp, Gábor Udovecz

Implications of EU enlargement for agricultural markets in the
New Member States................................................................. 509
Myrna van Leeuven, Lubica Bartova, Robert M'harek, Emil Erjavec

Structural change and distribution of support in Hungarian agriculture
following EU Accession: A preliminary FADN analysis......................... 519
Carmen Hubbard, Szilárd Podruzsik, Lionel Hubbard

Consequences of the two record years of cereal intervention in Hungary...... 528
László Rieger, Gyula Szőke

Sustainability dimensions and income prospects for farming systems
in the New Member States............................................................. 539
Adriana Cristoiu, Francisco Caceres-Clavero, Blanca Lucena-Cobos

Assessing the implications of EU enlargement for CEEC agri-food trade
specialization.................................................................................. 550
Dusan Drabik, Lubica Bartova

The agricultural export-growth Nexus in the EU-27 and the country risk ...... 560
Maria Sassi

The effect of CAP payments on territorial cohesion ......................... 571
Judit Katona-Kovács

Factors of efficiency change of assets on the EU-15 and Hungarian
farms from 1990s ............................................................................. 581
István Takács, Zsolt Baranyai, Emese Takács

The European regional policy in Hungary. An evaluation of the
objectives and instruments for the cohesion ...................................... 591
Irene Monasterolo

9 Posters

9.1. Land policy, land use – Structural changes

Land policy and farm efficiency: The lessons of Moldova...................... 603
Dragoş Cimpoies, Zvi Lerman
Transformation and its impact on structural changes in Polish agriculture ............... 604
Renata Przygodzka, Rytia Iwona Dziemianowicz

Change in agricultural holdings structure during the transition period in Slovenia ................................................................. 605
Andrij Udovč

Large farms in Poland founded on the basis of the property of former state-owned farms (PRGs) ........................................... 606
Adam Kagan

Changes in land utilisation in Hungary since the transition ........................................... 607
Robert Magda

Transformation of agricultural sector of Ukrainian economy:
Some social and economic results .......................................................... 607
Elena Borodina, Alexandra Borodina

9.2. Risk analysis and financing

Survival analysis of culling reasons and economic examination of production period in sow culling ........................................... 608
Péter Balogh, Imre Ertsey, Sándor Kovács

The effect of funding the investments in the Romanian agricultural holdings through the pre-accession programs ........................................... 609
Camelia Toma, Camelia Gavrilescu, Lucian Luca

The institutional support of agricultural loans and its role in Czech agriculture .......................................................... 610
Lukáš Čechura

Technological and economic risk analysis of laying hen breeding applying simulation .......................................................... 611
Sándor Kovács, Imre Ertsey, Péter Balogh

Impact assessment on milk incentive policies in Turkey:
Antalya province case ................................................................ 612
Cengiz Sayin, M. Nisa Mencet, Suleyman Karaman

9.3. Competitiveness – Technological development – Consumption

From subsistence to efficiency in the Romanian agriculture during transition ........................................................................ 613
Dinu Gavrilescu, Camelia Gavrilescu

Longitudinal study of fruit and vegetable consumption in Hungary ............ 614
Géza Székely, Dénes Pecze
Competitiveness of Polish food sector after the accession to the European Union
Iwona Szczepaniak, Monika Szczególkska

Agricultural technology adoption and land productivity: Evidence from the rice-prawn gher farming system in Bangladesh
Basanta Kumar Barmon, Takumi Kondo, Fumio Osanami
