

SECOND EDITION

Public Finance and Public Policy

Jonathan Gruber
Massachusetts Institute of Technology

Worth Publishers

Brief Contents

Preface	xxvii
-------------------	-------

PART I Introduction and Background

1 Why Study Public Finance?	1
2 Theoretical Tools of Public Finance	25
Appendix: The Mathematics of Utility Maximization	60
3 Empirical Tools of Public Finance	62
Appendix: Cross-Sectional Regression Analysis	87
4 Tools of Budget Analysis	90

PART II Externalities and Public Goods

5 Externalities: Problems and Solutions	120
6 Externalities in Action: Environmental and Health Externalities	150
7 Public Goods	177
Appendix: The Mathematics of Public Goods Provision	198
8 Cost-Benefit Analysis	201
9 Political Economy	223
10 State and Local Government Expenditures	256
11 Education	285

PART III Social Insurance and Redistribution

12 Social Insurance: The New Function of Government	314
Appendix: Mathematical Models of Expected Utility	345
13 Social Security	348
14 Unemployment Insurance, Disability Insurance, and Workers' Compensation	384
Appendix: Advanced Quasi-Experimental Analysis	411
15 Health Insurance I: Health Economics and Private Health Insurance	413
16 Health Insurance II: Medicare, Medicaid, and Health Care Reform	443
17 Income Distribution and Welfare Programs	478

PART IV Taxation in Theory and Practice

18 Taxation in the United States and Around the World	512
19 The Equity Implications of Taxation: Tax Incidence	545
Appendix: The Mathematics of Tax Incidence	575
20 Tax Inefficiencies and Their Implications for Optimal Taxation	577
Appendix: The Mathematics of Optimal Taxation	608
21 Taxes on Labor Supply	611
22 Taxes on Savings	635
23 Taxes on Risk Taking and Wealth	663
24 Corporate Taxation	689
25 Fundamental Tax Reform	724

Glossary	G-1	Name Index	NI-1

Contents

Preface xxvii

CHAPTER 1 Why Study Public Finance? 1

1.1 The Four Questions of Public Finance 3

When Should the Government Intervene in the Economy? 4

Application: The Measles Epidemic of 1989–1991 5

How Might the Government Intervene? 7

What Are the Effects of Alternative Interventions? 8

Application: The Congressional Budget Office: Government Scorekeepers 9

Why Do Governments Do What They Do? 10

1.2 Why Study Public Finance? Facts on Government in the United States and Around the World 11

The Size and Growth of Government 11

Decentralization 12

Spending, Taxes, Deficits, and Debts 13

Distribution of Spending 15

Distribution of Revenue Sources 18

Regulatory Role of the Government 18

1.3 Why Study Public Finance Now? Policy Debates over Social Security, Health Care, and Education 20

Social Security 20

Health Care 21

Education 22

1.4 Conclusion 23

Highlights 23

Questions and Problems 23

Advanced Questions 24

CHAPTER 2 Theoretical Tools of Public Finance 25

2.1 Constrained Utility Maximization 26

Preferences and Indifference Curves 27

Utility Mapping of Preferences 29

Budget Constraints 31

Putting It All Together: Constrained Choice 33

The Effects of Price Changes: Substitution and Income Effects 35

PART I

Introduction and Background

2.2 Putting the Tools to Work: TANF and Labor Supply Among Single Mothers	37
Identifying the Budget Constraint	38
The Effect of TANF on the Budget Constraint	39
2.3 Equilibrium and Social Welfare	43
Demand Curves	44
Supply Curves	46
Equilibrium	48
Social Efficiency	49
Competitive Equilibrium Maximizes Social Efficiency	50
From Social Efficiency to Social Welfare: The Role of Equity	52
Choosing an Equity Criterion	54
2.4 Welfare Implications of Benefit Reductions: The TANF Example Continued	55
2.5 Conclusion	57
Highlights	57
Questions and Problems	58
Advanced Questions	59
APPENDIX The Mathematics of Utility Maximization	60
CHAPTER 3 Empirical Tools of Public Finance	62
3.1 The Important Distinction Between Correlation and Causality	63
The Problem	64
3.2 Measuring Causation with Data We'd Like to Have: Randomized Trials	65
Randomized Trials as a Solution	66
The Problem of Bias	66
Randomized Trials of ERT	68
Randomized Trials in the TANF Context	68
Why We Need to Go Beyond Randomized Trials	69
3.3 Estimating Causation with Data We Actually Get: Observational Data	70
Time Series Analysis	71
Cross-Sectional Regression Analysis	74
Quasi-Experiments	79
Structural Modeling	82

3.4 Conclusion	84
Highlights	84
Questions and Problems	84
Advanced Questions	85
APPENDIX Cross-Sectional Regression Analysis	87
CHAPTER 4 Tools of Budget Analysis	90
4.1 Government Budgeting	92
The Budget Deficit in Recent Years	92
The Budget Process	93
Application: Efforts to Control the Deficit	94
Budget Policies and Deficits at the State Level	96
4.2 Measuring the Budgetary Position of the Government: Alternative Approaches	96
Real vs. Nominal	97
The Standardized Deficit	98
Cash vs. Capital Accounting	100
Static vs. Dynamic Scoring	101
4.3 Do Current Debts and Deficits Mean Anything? A Long-Run Perspective	102
Background: Present Discounted Value	102
Why Current Labels May Be Meaningless	103
Alternative Measures of Long-Run Government Budgets	104
What Does the U.S. Government Do?	108
Application: The Financial Shenanigans of 2001	111
4.4 Why Do We Care About the Government's Fiscal Position?	112
Short-Run vs. Long-Run Effects of the Government on the Macroeconomy	112
Background: Savings and Economic Growth	113
The Federal Budget, Interest Rates, and Economic Growth	114
Intergenerational Equity	116
4.5 Conclusion	117
Highlights	118
Questions and Problems	118
Advanced Questions	119

PART II

**Externalities
and Public
Goods**

CHAPTER 5 Externalities: Problems and Solutions 120

5.1 Externality Theory 122
Economics of Negative Production Externalities **122**
Negative Consumption Externalities **125**
Application: The Externality of SUVs **126**
Positive Externalities **127**

5.2 Private-Sector Solutions to Negative Externalities 129
The Solution **129**
The Problems with Coasian Solutions **131**

5.3 Public-Sector Remedies for Externalities 133
Corrective Taxation **134**
Subsidies **135**
Regulation **136**
Application: Taxes and Regulation in Practice: The Case of the Baltic Sea **136**

**5.4 Distinctions Between Price and Quantity Approaches to
Addressing Externalities 138**
Basic Model **138**
Price Regulation (Taxes) vs. Quantity Regulation in This Model **140**
Multiple Plants with Different Reduction Costs **140**
Uncertainty About Costs of Reduction **143**

5.5 Conclusion 147

Highlights 147

Questions and Problems 148

Advanced Questions 149

**CHAPTER 6 Externalities in Action: Environmental and
Health Externalities 150**

6.1 Acid Rain 151
The Damage of Acid Rain **151**
History of Acid Rain Regulation **152**
Empirical Evidence: Estimating the Adverse Health Effects of Particulates **154**
Has the Clean Air Act Been a Success? **155**

6.2 Global Warming 156
The Kyoto Treaty **158**
Can Trading Make Kyoto More Cost-Effective? **159**
What Does the Future Hold? **162**
Application: The Montreal Protocol **162**

6.3 The Economics of Smoking	163
The Externalities of Smoking	165
Should We Care Only About Externalities, or Do “Internalities” Matter Also?	168
6.4 The Economics of Other Addictive Behaviors	171
Drinking	171
Illicit Drugs	172
Obesity	173
Summary	174
6.5 Conclusion	174
Highlights	174
Questions and Problems	175
Advanced Questions	175
CHAPTER 7 Public Goods	177
7.1 Optimal Provision of Public Goods	178
Optimal Provision of Private Goods	179
Optimal Provision of Public Goods	181
7.2 Private Provision of Public Goods	183
Private-Sector Underprovision	184
Application: The Free Rider Problem in Practice	185
Can Private Providers Overcome the Free Rider Problem?	186
Application: Business Improvement Districts	186
When Is Private Provision Likely to Overcome the Free Rider Problem?	188
7.3 Public Provision of Public Goods	190
Private Responses to Public Provision: The Problem of Crowd-Out	191
Measuring the Costs and Benefits of Public Goods	193
How Can We Measure Preferences for the Public Good?	193
Empirical Evidence: Measuring Crowd-Out	194
7.4 Conclusion	195
Highlights	195
Questions and Problems	196
Advanced Questions	196
APPENDIX The Mathematics of Public Goods Provision	198

CHAPTER 8 Cost-Benefit Analysis	201
8.1 Measuring the Costs of Public Projects	202
The Example	203
Measuring Current Costs	204
Measuring Future Costs	205
8.2 Measuring the Benefits of Public Projects	206
Valuing Driving Time Saved	206
Application: The Problems of Contingent Valuation	209
Empirical Evidence: Valuing Time Savings	210
Valuing Saved Lives	211
Application: Valuing Life	211
Discounting Future Benefits	216
Cost-Effectiveness Analysis	216
8.3 Putting It All Together	217
Other Issues in Cost-Benefit Analysis	217
8.4 Conclusion	219
Highlights	219
Questions and Problems	220
Advanced Questions	221
CHAPTER 9 Political Economy	223
9.1 Unanimous Consent on Public Goods Levels	225
Lindahl Pricing	225
Problems with Lindahl Pricing	227
9.2 Mechanisms for Aggregating Individual Preferences	228
Application: Direct Democracy in the United States	228
Majority Voting: When It Works	230
Majority Voting: When It Doesn't Work	232
Arrow's Impossibility Theorem	233
Restricting Preferences to Solve the Impossibility Problem	233
Median Voter Theory	235
The Potential Inefficiency of the Median Voter Outcome	235
Summary	236
9.3 Representative Democracy	237
Vote-Maximizing Politicians Represent the Median Voter	237
Assumptions of the Median Voter Model	238

Lobbying	240
Application: Farm Policy in the United States	241
Evidence on the Median Voter Model for Representative Democracy	242
Empirical Evidence: Testing the Median Voter Model	243
9.4 Public Choice Theory: The Foundations of Government Failure	244
Size-Maximizing Bureaucracy	244
Problems with Privatization	245
Application: Contracting Out with Non-Competitive Bidding	247
Leviathan Theory	248
Corruption	249
Application: Government Corruption	249
The Implications of Government Failure	251
Empirical Evidence: Government Failures and Economic Growth	252
9.5 Conclusion	253
Highlights	253
Questions and Problems	254
Advanced Questions	255
CHAPTER 10 State and Local Government Expenditures	256
10.1 Fiscal Federalism in the United States and Abroad	258
Spending and Revenue of State and Local Governments	259
Fiscal Federalism Abroad	260
10.2 Optimal Fiscal Federalism	262
The Tiebout Model	262
Problems with the Tiebout Model	264
Evidence on the Tiebout Model	266
Empirical Evidence: Evidence for Capitalization from California's Proposition 13	268
Optimal Fiscal Federalism	268
10.3 Redistribution Across Communities	270
Should We Care?	271
Tools of Redistribution: Grants	272
Redistribution in Action: School Finance Equalization	277
Empirical Evidence: The Flypaper Effect	278
Application: School Finance Equalization and Property Tax Limitations in California	280

10.4 Conclusion	280
Highlights	281
Questions and Problems	282
Advanced Questions	283
CHAPTER 11 Education	285
11.1 Why Should the Government Be Involved in Education?	287
Productivity 287	
Citizenship 288	
Credit Market Failures 288	
Failure to Maximize Family Utility 288	
Redistribution 289	
11.2 How Is the Government Involved in Education?	289
Free Public Education and Crowding Out 290	
Solving the Crowd-Out Problem: Vouchers 292	
Problems with Education Vouchers 295	
11.3 Evidence on Competition in Education Markets	299
Direct Experience with Vouchers 299	
Experience with Public School Choice 299	
Empirical Evidence: Estimating the Effects of Voucher Programs 300	
Experience with Public School Incentives 301	
Bottom Line on Vouchers and School Choice 302	
11.4 Measuring the Returns to Education	302
Effects of Education Levels on Productivity 303	
Education as Human Capital Accumulation 303	
Empirical Evidence: Estimating the Return to Education and Evidence for Screening 304	
Effect of Education Levels on Other Outcomes 306	
The Impact of School Quality 306	
11.5 The Role of the Government in Higher Education	306
Empirical Evidence: Estimating the Effects of School Quality 307	
Current Government Role 308	
What Is the Market Failure and How Should It Be Addressed? 309	
11.6 Conclusion	310
Highlights	311
Questions and Problems	311
Advanced Questions	312

CHAPTER 12 Social Insurance: The New Function of Government	314
12.1 What Is Insurance and Why Do Individuals Value It?	316
What Is Insurance? 316	
Why Do Individuals Value Insurance? 317	
Formalizing This Intuition: Expected Utility Model 318	
12.2 Why Have Social Insurance? Asymmetric Information and Adverse Selection	321
Asymmetric Information 321	
Example with Full Information 322	
Example with Asymmetric Information 322	
The Problem of Adverse Selection 324	
Does Asymmetric Information Necessarily Lead to Market Failure? 325	
Application: Adverse Selection and Health Insurance “Death Spirals” 326	
How Does the Government Address Adverse Selection? 327	
12.3 Other Reasons for Government Intervention in Insurance Markets	328
Externalities 328	
Administrative Costs 328	
Redistribution 329	
Paternalism 329	
Application: Flood Insurance and the Samaritan’s Dilemma 329	
12.4 Social Insurance vs. Self-Insurance: How Much Consumption Smoothing?	332
Example: Unemployment Insurance 332	
Lessons for Consumption-Smoothing Role of Social Insurance 336	
12.5 The Problem with Insurance: Moral Hazard	337
Application: The Problems with Assessing Workers’ Compensation Injuries 338	
What Determines Moral Hazard? 339	
Moral Hazard Is Multidimensional 339	
The Consequences of Moral Hazard 339	
12.6 Putting It All Together: Optimal Social Insurance	340
12.7 Conclusion	341
Highlights	342
Questions and Problems	342
Advanced Questions	343
APPENDIX Mathematical Models of Expected Utility	345

CHAPTER 13 Social Security	348
13.1 What Is Social Security and How Does It Work?	349
Program Details 350	
Application: Why Choose 35 Years? 350	
How Does Social Security Work Over Time? 354	
Application: Ida May Fuller 355	
How Does Social Security Redistribute in Practice? 357	
13.2 Consumption-Smoothing Benefits of Social Security	359
Rationales for Social Security 359	
Does Social Security Smooth Consumption? 360	
Social Security and Private Savings 361	
Living Standards of the Elderly 361	
13.3 Social Security and Retirement	362
Theory 362	
Empirical Evidence: Measuring the Crowd-Out Effect of Social Security on Savings 363	
Evidence 364	
Application: Implicit Social Security Taxes and Retirement Behavior 367	
Implications 369	
13.4 Social Security Reform	369
Reform Round I: The Greenspan Commission 370	
Application: The Social Security Trust Fund and National Savings 371	
Incremental Reforms 372	
Fundamental Reforms 374	
Application: Company Stock in 401(k) Plans 378	
Application: Mixed Proposals for Social Security Reform 379	
13.5 Conclusion	380
Highlights	380
Questions and Problems	381
Advanced Questions	382
CHAPTER 14 Unemployment Insurance, Disability Insurance, and Workers' Compensation	384
14.1 Institutional Features of Unemployment Insurance, Disability Insurance, and Workers' Compensation	385
Institutional Features of Unemployment Insurance 385	
Institutional Features of Disability Insurance 387	
Institutional Features of Workers' Compensation 388	

Comparison of the Features of UI, DI, and WC	390
Application: The Duration of Social Insurance Benefits Around the World	391
14.2 Consumption-Smoothing Benefits of Social Insurance Programs	392
14.3 Moral Hazard Effects of Social Insurance Programs	393
Moral Hazard Effects of Unemployment Insurance	393
Evidence for Moral Hazard in DI	395
Empirical Evidence: Moral Hazard Effects of Unemployment Insurance	396
Evidence for Moral Hazard in WC	398
Empirical Evidence: Moral Hazard Effects of DI	399
Empirical Evidence: Krueger's Study of Workers' Compensation	400
14.4 The Costs and Benefits of Social Insurance to Firms	400
The Effects of Partial Experience Rating in UI on Layoffs	401
The "Benefits" of Partial Experience Rating	403
Application: The "Cash Cow" of Partial Experience Rating	403
Workers' Compensation and Firms	404
14.5 Implications for Program Reform	405
Benefits Generosity	405
Targeting	405
Experience Rating	406
Worker Self-Insurance?	406
Application: Reforming UI	407
14.6 Conclusion	408
Highlights	408
Questions and Problems	409
Advanced Questions	409
APPENDIX Advanced Quasi-Experimental Analysis	411
CHAPTER 15 Health Insurance I: Health Economics and Private Health Insurance	413
15.1 An Overview of Health Care in the United States	415
How Health Insurance Works: The Basics	415
Private Insurance	416
Medicare	420
Medicaid	421
TRICARE/CHAMPVA	421
The Uninsured	421
Empirical Evidence: Health Insurance and Mobility	423

15.2 How Generous Should Insurance Be to Patients?	424
Consumption-Smoothing Benefits of Health Insurance for Patients	425
Moral Hazard Costs of Health Insurance for Patients	426
How Elastic Is the Demand for Medical Care? The RAND Health Insurance Experiment	429
Empirical Evidence: Estimating the Elasticity of Demand for Medical Care	430
Optimal Health Insurance	431
Why Is Insurance So Generous in the United States?	432
Application: Health Savings Accounts	433
15.3 How Generous Should Insurance Be to Medical Providers?	436
Managed Care and Prospective Reimbursement	436
The Impacts of Managed Care	438
How Should Providers Be Reimbursed?	439
15.4 Conclusion	439
Highlights	440
Questions and Problems	440
Advanced Questions	442
CHAPTER 16 Health Insurance II: Medicare, Medicaid, and Health Care Reform	443
16.1 The Medicaid Program for Low-Income Mothers and Children	445
How Medicaid Works	445
Who Is Eligible for Medicaid?	446
What Health Services Does Medicaid Cover?	446
How Do Providers Get Paid?	447
16.2 What Are the Effects of the Medicaid Program?	447
How Does Medicaid Affect Health? A Framework	447
How Does Medicaid Affect Health? Evidence	448
Empirical Evidence: Using State Medicaid Expansions to Estimate Program Effects	451
16.3 The Medicare Program	452
How Medicare Works	452
Application: The Medicare Prescription Drug Debate	453
16.4 What Are the Effects of the Medicare Program?	456
The Prospective Payment System	457
Empirical Evidence on the Move to the PPS	457

Problems with PPS	458
Lesson: The Difficulty of Partial Reform	459
Medicare Managed Care	460
Should Medicare Move to a Full-Choice Plan? Premium Support	462
Application: A Premium Support System for Medicare	462
Gaps in Medicare Coverage	464
16.5 Long-Term Care	465
Financing Long-Term Care	465
16.6 Lessons for Health Care Reform in the United States	466
Rising Health Care Costs	466
The Uninsured	468
Incremental Reforms	469
Fundamental Reform: Public National Health Insurance	471
Fundamental Reform: Private-Sector Solutions	472
16.7 Conclusion	474
Highlights	474
Questions and Problems	475
Advanced Questions	476
CHAPTER 17 Income Distribution and Welfare Programs	478
17.1 Facts on Income Distribution in the United States	480
Relative Income Inequality	480
Absolute Deprivation and Poverty Rates	481
Application: Problems in Poverty Line Measurement	483
What Matters—Relative or Absolute Deprivation?	484
17.2 Welfare Policy in the United States	485
Cash Welfare Programs	486
In-Kind Programs	487
17.3 The Moral Hazard Costs of Welfare Policy	488
Moral Hazard Effects of a Means-Tested Transfer System	489
Solving Moral Hazard by Lowering the Benefit Reduction Rate	492
The “Iron Triangle” of Redistributive Programs	494
17.4 Reducing the Moral Hazard of Welfare	494
Moving to Categorical Welfare Payments	494
Using “Ordeal Mechanisms”	497
Application: An Example of Ordeal Mechanisms	499
Increasing Outside Options	500
Empirical Evidence: The Canadian Self-Sufficiency Project	502

17.5 Welfare Reform	506
Changes Due to Welfare Reform	506
Effects of the 1996 Welfare Reform	506
Empirical Evidence: Estimating the Impact of Welfare Reform	507
17.6 Conclusion	508
Highlights	509
Questions and Problems	509
Advanced Questions	510
CHAPTER 18 Taxation in the United States and Around the World	512
18.1 Types of Taxation	513
Taxes on Earnings	513
Taxes on Individual Income	514
Taxes on Corporate Income	514
Taxes on Wealth	514
Taxes on Consumption	514
Taxation Around the World	514
18.2 Structure of the Individual Income Tax in the United States	516
Computing the Tax Base	517
Tax Rates and Taxes Paid	518
Application: The Coming AMT Time Bomb	520
18.3 Measuring the Fairness of Tax Systems	521
Average and Marginal Tax Rates	521
Vertical and Horizontal Equity	522
Measuring Vertical Equity	523
Application: The Political Process of Measuring Tax Fairness	523
18.4 Defining the Income Tax Base	525
The Haig-Simons Comprehensive Income Definition	525
Deviations Due to Ability-to-Pay Considerations	526
Deviations Due to Costs of Earning Income	527
Application: What Are Appropriate Business Deductions?	527
18.5 Externality/Public Goods Rationales for Deviating from Haig-Simons	528
Charitable Giving	529
Spending Crowd-Out vs. Tax Subsidy Crowd-In	529
Consumer Sovereignty vs. Imperfect Information	531

PART IV
Taxation in Theory and Practice

Housing	532
Tax Deductions vs. Tax Credits	534
Application: The Refundability Debate	535
Bottom Line: Tax Expenditures	537
18.6 The Appropriate Unit of Taxation	538
The Problem of the “Marriage Tax”	538
Marriage Taxes in Practice	540
18.7 Conclusion	542
Highlights	542
Questions and Problems	543
Advanced Questions	544
CHAPTER 19 The Equity Implications of Taxation:	
Tax Incidence	545
19.1 The Three Rules of Tax Incidence	547
The Statutory Burden of a Tax Does Not Describe Who Really Bears the Tax	547
The Side of the Market on Which the Tax Is Imposed Is Irrelevant to the Distribution of the Tax Burdens	549
Parties with Inelastic Supply or Demand Bear Taxes; Parties with Elastic Supply or Demand Avoid Them	552
Reminder: Tax Incidence Is About Prices, Not Quantities	555
19.2 Tax Incidence Extensions	556
Tax Incidence in Factor Markets	556
Tax Incidence in Imperfectly Competitive Markets	560
Balanced Budget Tax Incidence	562
19.3 General Equilibrium Tax Incidence	563
Effects of a Restaurant Tax: A General Equilibrium Example	563
Issues to Consider in General Equilibrium Incidence Analysis	565
19.4 The Incidence of Taxation in the United States	568
CBO Incidence Assumptions	568
Empirical Evidence: The Incidence of Excise Taxation	569
Results of CBO Incidence Analysis	569
Current vs. Lifetime Income Incidence	572
19.5 Conclusion	572
Highlights	573
Questions and Problems	573

Advanced Questions	574
APPENDIX The Mathematics of Tax Incidence	575
CHAPTER 20 Tax Inefficiencies and Their Implications for Optimal Taxation	577
20.1 Taxation and Economic Efficiency	578
Graphical Approach	578
Elasticities Determine Tax Inefficiency	580
Application: Tax Avoidance in Practice	581
Determinants of Deadweight Loss	582
Deadweight Loss and the Design of Efficient Tax Systems	584
Application: The Deadweight Loss of Taxing Wireless Communications	586
20.2 Optimal Commodity Taxation	586
Ramsey Taxation: The Theory of Optimal Commodity Taxation	586
Inverse Elasticity Rule	588
Equity Implications of the Ramsey Model	588
Application: Price Reform in Pakistan	589
20.3 Optimal Income Taxes	592
A Simple Example	593
General Model with Behavioral Effects	593
An Example	596
The Structure of Optimal Income Tax Rates: A Simulation Exercise	597
20.4 Tax-Benefit Linkages and the Financing of Social Insurance Programs	600
The Model	600
Issues Raised by Tax-Benefit Linkage Analysis	602
Empirical Evidence: A Group-Specific Employer Mandate	604
20.5 Conclusion	605
Highlights	605
Questions and Problems	606
Advanced Questions	606
APPENDIX The Mathematics of Optimal Taxation	608
CHAPTER 21 Taxes on Labor Supply	611
21.1 Taxation and Labor Supply—Theory	613

Basic Theory **613**
Limitations of the Theory: Constraints on Hours Worked and
Overtime Pay Rules **615**

21.2 Taxation and Labor Supply—Evidence 616

Empirical Evidence: Estimating the Elasticity of Labor Supply **617**
Limitations of Existing Studies **618**

**21.3 Tax Policy to Promote Labor Supply: The Earned Income
Tax Credit 619**

Background on the EITC **619**
Impact of EITC on Labor Supply: Theory **621**
Impact of EITC on Labor Supply: Evidence **622**
Empirical Evidence: The Effect of the EITC on Single Mother Labor Supply **624**
Summary of the Evidence **625**
Application: EITC Reform **625**

**21.4 The Tax Treatment of Child Care and Its Impact on
Labor Supply 627**

The Tax Treatment of Child Care **627**
Empirical Evidence: The Effect of Child Care Costs on Maternal Labor Supply **628**
Options for Resolving Tax Wedges **630**
Comparing the Options **631**

21.5 Conclusion 631

Highlights 632

Questions and Problems 632

Advanced Questions 633

CHAPTER 22 Taxes on Savings 635

22.1 Taxation and Savings—Theory and Evidence 636

Traditional Theory **636**
Evidence: How Does the After-Tax Interest Rate Affect Savings? **641**
Inflation and the Taxation of Savings **641**

22.2 Alternative Models of Savings 643

Precautionary Saving Models **643**
Self-Control Models **644**
Empirical Evidence: Social Insurance and Personal Savings **645**

22.3 Tax Incentives for Retirement Savings 646

Available Tax Subsidies for Retirement Savings **647**
Why Do Tax Subsidies Raise the Return to Savings? **648**

Theoretical Effects of Tax-Subsidized Retirement Savings	650
Application: The Roth IRA	654
Implications of Alternative Models	656
Private vs. National Savings	657
Empirical Evidence: Estimating the Impact of Tax Incentives for Savings on Savings Behavior	658
Evidence on Tax Incentives and Savings	660
22.4 Conclusion	660
Highlights	660
Questions and Problems	661
Advanced Questions	662
CHAPTER 23 Taxes on Risk Taking and Wealth	663
23.1 Taxation and Risk Taking	665
Basic Financial Investment Model	665
Real-World Complications	666
Evidence on Taxation and Risk Taking	668
Labor Investment Applications	668
23.2 Capital Gains Taxation	669
Current Tax Treatment of Capital Gains	669
What Are the Arguments for Tax Preferences for Capital Gains?	671
What Are the Arguments Against Tax Preferences for Capital Gains?	676
23.3 Transfer Taxation	676
Why Tax Wealth? Arguments for the Estate Tax	678
Arguments Against the Estate Tax	679
23.4 Property Taxation	682
Who Bears the Property Tax?	683
Types of Property Taxation	684
Application: Property Tax Breaks to Businesses	684
23.6 Conclusion	686
Highlights	687
Questions and Problems	687
Advanced Questions	688
