Introduction/Preface

1. Main Transport Networks 11
   1.1. A Theoretical Approach 11
   1.2. Main Transport Network in CEE Countries 15
      1.2.1. Baltic Region 15
      1.2.2. Central Europe 20
      1.2.3. Balkan Region 29
      1.2.4. South Eastern Europe 34

2. Infrastructure Investments 45
   2.1. TEM and TER Master plan 45
      2.1.1. Baltic Region 46
      2.1.2. Central Europe 47
      2.1.3. Balkan Region 56
      2.1.4. South East Europe 58
   2.2. Capital for Investments 59
      2.2.1. Investments Requirements 60
      2.2.2. Pre-Accession Founds 63
      2.2.3. Communit Programmes 65
      2.2.4. International Financial Institutions (IFI) 66
      2.2.5. Investments from National Budgets and PPP 69
      2.2.6. SEE Investments 69

3. Infrastructure Bottlenecks 71
   3.1. Main Infrastructure Related Bottlenecks 71
      3.1.1. Low Standards 71
      3.1.2. Border Crossing 72
      3.1.3. Increased Car Ownership 73
      3.1.4. High Costs 74
      3.1.5. Transport Policy 75
      3.1.6. Low Privatisation Level of Railway 76
      3.1.7. Inadequate Level of IT Infrastructure 77
   3.2. Regional perspectives 77
      3.2.1. Baltic Europe 77
      3.2.2. Central Region 79
      3.2.3. Balkan Region 81
   3.3. Balkan Countries Perspective in Border Crossing 81

4. Transport Standards 85
   4.1. Infrastructure Standards 85
      4.1.1. Rail Standards 85
      4.1.2. Road Standards 88
10.1. Market development for Logistics Service Providers 195
  10.1.1. Service requirements from LSP 195
  10.1.2. Consolidation and Network Development 196
10.2. International Logistics providers’ Expansion to CEE 197
10.3. A Future Outlook 206

11. Focused Regional Industries 209
  11.1. A General Picture of the Situation 209
    11.1.1. Main growing Industries 210
    11.1.2. Investment Competitiveness 210
    11.1.3. Economic Freedom 211
    11.1.4. Ease of Doing Business 211
  11.2. Regional Perspectives 212
    11.2.1. Central Europe 212
    11.2.2. Balkan region 216
    11.2.3. Baltic Region 219

12. Neighbouring Countries 221
  12.1. Network Interface 221
    12.1.1. General Situation 221
    12.1.2. Eastern Border of CEE 223
  12.2. CIS Countries 225
  12.3. Transnational Connections 230
    12.3.1. Major Transnational Axes going through CEEC 231
    12.3.2. International Networks Linking Europe and Asia through Eastern Europe 232
    12.3.3. North-South 236
    12.3.4. Southern 237

13. The CEE Logistics Market 239
  13.1. Transport Infrastructure and Logistics Market Index 239
  13.2. Automotive Industry Presence in the Region 240
  13.3. Country Cluster Method 243
  13.4. Clusters Analysis 244
    13.4.1. Cluster 1: Czech Republic, Poland, Turkey 244
    13.4.2. Cluster 2: Slovakia, Hungary, Slovenia, Romania 247
    13.4.3. Cluster 3: Estonia, Latvia, Lithuania, Croatia 249
    13.4.4. Cluster 4: Bulgaria, Serbia, Albania, Bosnia and Herzegovina, FYR Macedonia 251
  13.5. Future Scenarios 252
  13.6. Final Statements 253
