Zhejiang Branch, Bank of China

Editor/Distributor:

ZHANG Henry, CHENG Huifang, ZHAO Ruimei

June 2008
Contents

Chapter 1 - Banking

Study on Impact of Foreign Banks Entry to China Banking
   HUANG Yamiao  XU Guang .................. 3
Copula-based Economic Capital Measurement in Commercial Bank
   SHEN Peilong .................................. 8
Small and Medium-sized Banks Promote Private Sectors Booming in Zhejiang Province
   LI Yazhen, FAN Shimiao ........................ 13
   LIU Jian, ZHANG Jing .......................... 20
Empirical Research on the Fragility of Chinese Banking System
   ZHANG Xiaofeng, LU Yu .......................... 27
On the Construction of an Early-Warning System for Systematic Risk in China's Banking
   TANG Lingxiao, FAN Xiaofeng .................. 33
The Testimony by F-O Model for Banks' Goodwill in China
   WANG Jiankang, XU Ruonan ...................... 40
A Study on the Process Optimizing of Bank's Lending Service
   HUANG Xiaokun .................................. 45
Feasibility and Restriction Factors Analysis of Personal Financial Services' Development Conducted by the City Commercial Bank
   LI Bing ............................................ 51
Property Right Structure and Bank Efficiency Comparison
   DONG Min, YUAN Yunfeng ..................... 57
The Research on Strategic Cost Management of State-owned Commercial Banks
   HAN Peng, YAO Guang ......................... 62
Conceptions and Suggestions on the Joint-stock System Transformation of State Policy-related Banks of China
   ZHANG Wei, BAO Fang .......................... 68
Banking Internationalization: the Choice between Greenfield Investment and Cross-border M&As
   YUAN Xuemei ..................................... 74

Chapter 2 - Monetary Policy

The Empirical Analysis of the Effectiveness of the Exchange Rate Channel of China's Monetary Policy Transmission
   CHU Er-ming .................................... 81
On Active Central Bank Tactics – Develop Capital Market and Strengthen Monetary Policy in Validity

YUE Zhongxian, XU Qiang

Analyses and Forecast of RMB Real Effective Exchange Rate based on a Basket of Currencies

ZHANG Hejie

The Impact of Foreign Exchange Reform on the Volatility of China’s Stock Market

ZHANG Yanliang, DING Lintao

A STR Model Analysis of the Influence of RMB Exchange Rate Fluctuation on Domestic Inflation

TANG Lichun, CHEN Ying

Study on Influence of Balance of Payment on Money Supply and Its Transmission Mechanism under Exchange Rate Stability Goal

TANG Anbao, FU Li

Application of Gompertz Model to Prediction of Money & Quasi-money

FANG Lan

Chapter 3 - Rural Banking and Private Finance Sector

Studies on the Risk Evaluation System of Zhejiang Private Enterprise Capital Operations

Ni Ying

On Strategy of Power Plant Investment incompliance with Nation’s Electricity Reform

MENG Li

Research about the Operation Model of Rural Microfinance

YUAN Huiqun, NIU Yijun

Studies on Bank Credit of Non-state-owned Enterprise

REN Chang Jiang

Serving Farmers: the Survival Way of Rural Financial Institutions in China

WEN Ruchun

Pension Funds and China's New Rural Development

ZHANG Ran-bin, LI Ming-sheng

Strategy on the Regional Distribution Reconstruction of the Rural Credit Cooperative — A Case Study of Henan Province

WANG Xuexin

New Ideas on Rural Financing Facilities in China

XU Guihong, XIAO Liang

Current Situation Study on Medical Insurance for Rural Farmers

WU Chuan-jian, WANG Yu-fang
Chapter 4 - SME Finance and Venture Capital

Analyze SME Financing Obstacles in Midwest China – Introducing American NMVCS Plan

CHU Baojin, WANG Hongbo ................................................................. 177

Study on Government Venture Capital to Promote High-Tech Industry

GUO Jing, ZHAO Zhi hui ................................................................. 184

On the Revelation of Japan’s Policies of Industrial Technology for China

LI Juan ................................................................. 190

Study on Countermeasures of Financial Service for Hunan Tourism Industry

WU Zhuo, WANG Liangjian .................................................. 196

On the Life Cycle of Tech-oriented SMEs and Financing Strategies

SONG Fen ................................................................. 202

Removing Financial Barriers to SME Access to Self-Development and Innovation

TAN Jingrong, WANG Yifen .................................................. 207

Technological Innovation and Finance Preference: A Firm Level Comparison

WANG Li, ZHANG Yi ................................................................. 211

Corporate Governance for One-man Company in View of the Theory of Stakeholders

BAI Xiaojun, SU Zhenhong ................................................................. 217

Research on Service Management of Commercial Enterprises Based on DCS

YU Dajin ................................................................. 223

Capital Pool Company Program – Alternative Funding Resources When SME Goes Abroad

WANG Liming, CHU Jufen .................................................. 229

On High-tech SME Technical Innovation Analysis and Its Related Funding Requirement

LU Xingqi ................................................................. 234

The Research on Venture Investment and Tech-innovation

TAO Jiange ................................................................. 238

Financial Deepening and Regional Economic Growth ---- Based on the Analysis of China's inter-provincial Panel Data

LUO Dancheng, ZHOU Juan .................................................. 243

Study on the Function of Supply Chain Finance for SMEs Financing

HU Guohui, LI Fei ................................................................. 247

Research on Financial Support for Independent Innovation of SMEs

YIN Yahong ................................................................. 253

Chapter 5 - Equity Assessment and Finance Service Industry

Governance Impact of Leadership Structures on the Control Rights Transferred
in the Capital Restructuring
ZHU Qi, WANG Mansi .................................................. 261
Industry-academia-research, Universities and Technological Innovation in China
HU Feng ................................................................. 270
Study on the Cooperation of Industry-academia-research in China’s
Construction of Urban Innovation System
ZHOU Haiyan .............................................................. 275
Study on the Stockholding System Reform for State-owned Enterprises
WANG Yuhong ........................................................... 279
A Research on the Alienation of the Reward Function of the Executive
Stock Option
LIU Jian-jiang, Chen Haiyan ........................................... 284
Mean-VaR Analysis and CAPM-A Theoretical Development
LIU Yang, HONG Jingyu ................................................. 291
Analysis on International Competitive Advantage of China’s Financial
Trade of Service
ZHANG Yi, HU Jiqing ....................................................... 298
Study on Informationization Issues of Mixed Financial Industry Supervision
JIANG Hua ................................................................. 304
The Risk of the Bankcard e-payment and How to Evade It
CHEN Xiaolu ............................................................. 308
The Establishment of Game Playing and Trust Relationship in Finance
Outsourcing Partners
LIU Xiaofeng, HUI Xiaofeng ............................................. 312
Research on Factors Influencing Capital Structure – Case Study from China
Market-Entry Real Estate
WANG Shengnian ........................................................ 316
Database Marketing and Method of Customer Behavior Analysis
WU Qinghui ................................................................. 321
On Interdisciplinary Approaches in Financial Engineering during Economic
Transition Period in China
HE Xue Feng, DENG Cheng qi ........................................ 328
Diversify Economy Growing Mode and Stimulate Domestic Demand
with Financial Support
ZHENG Haomin ........................................................ 333
Theoretical Basis and Change Trend of International Industry Transfer
HU Jun Wen ............................................................... 339
Research on the Knowledge Capital Flows of Chinese Enterprises
FU Haiyan, ZHANG Jingyu ............................................. 345
A Comparative Survey of Corporate Governance Between the UK & the US:
What Lessons Should China Learn?
RAO Yulei, SHENG Hu .................................................. 351
Process Innovation, Cost Leadership and Market Power- analysis based on
Chapter 6 - Financial Risk and Sub-prime Crises Study

Empirical Study on Building Financial Early-warning System for SMEs
LIN Juan, FANG Hui ................................................................. 373

The Sub-prime Lending Crisis and the Risk Characteristics on China’s Residential Mortgage Market
TAN Xueyan ........................................................................... 379

Accelerate Implementation on Export Credit Insurance in Zhejiang Province
SHE Derong ........................................................................... 385

Study on Prevention of the American Sub-prime Mortgage Loan Risk and Spread
QU Fenggeng ......................................................................... 389

Enlightenment of American Subordinated Debt Crisis on China’s Financial Market
NIE Jie ...................................................................................... 395

An Improved on BP Neural Network for Financial Crisis Prediction
HU Yanjie, HU Bilin ............................................................... 399

Study on Reform in the Accounting Systems of Government Debts of China
SUN Fangcheng ..................................................................... 404

The Relationship Between Risk Management and Firm Value
JIA Weiying, CHEN Baofeng .................................................. 409

Legal Issues of Risk Securitization in China
LIU Hanxia, CHEN Zhongqiu ............................................... 413

The Researches on Debt Financing of Chinese Tourism Industry
LI Peijie, WANG Xinseng ....................................................... 419

Critical Risk Factors of Product Innovation for Financial Services
YONG Hao, CHEN Jin ............................................................ 424

Thesis of US Subprime Mortgage Crises – Background, Impact and Caution
ZHAO Lingzhi ......................................................................... 433

Chapter 7 - Stock Management

BA Shu-song, ZHU Yuan-qian ............................................. 441

Factors Resulting in Illiquidity Premium of Illiquid Stock in China’s
ST & PT Corporations

YIN Hua-yang, CUI Bing, CHEN Rui .................................................. 452
The Impact on Stockholder Wealth of the Split Share Structure Reform

YANG Xiaolan, MAN Zhen .............................................................. 460
Empirical Study on Positive Feedback Trading in Stock Market

JIANG Bao-zhen, SHEN Yue, ZHAO Jian-jun ................................... 467
The New Method of Shares Selection base on Context-dependent DEA

YI Ronghua, HUANG Zuqing, ZHANG Hua ...................................... 475
Empirical Study on the Main Factors Affecting Price-Earning Ratio of Listed Companies in China

TIAN Yuehong, ZHENG Jianxin ...................................................... 483
Study on the Shares Financing Preference in Listed Companies based on the Non-tradable Shares Perspective

CHI Yu-lian .................................................................................. 487
Research of Supervision and Control of Listed Company

CHENG Ming-e ............................................................................. 492
Ensure Listed Company Grows in Sustain when its Asset Re-organization

WANG Li Ping .............................................................................. 497
Study on the Existing Problems and Countermeasures of Direct Financing of Shanghai Listed Companies

LI Chuang ..................................................................................... 502
Monetary and Fiscal Policy Impact Shanghai Stock Liquidity – The Residual Analysis based on Liner Regression

KE Jinchuan, CHEN Zhe ................................................................. 508
Empirical Study on Executive Compensation of Chinese Listed Companies

ZHAO Yan Sheng, HUANG Ying ....................................................... 514
Fragibility of Shanghai Security Exchange for A shares – Empirical Analysis based on Minsky's Financial Instability Hypothesis

DING Qilin .................................................................................... 519
Unavailable Information and Efficient Capital Market: A New Perspective

LIU Jielong, HUANG Zexian .............................................................. 525
Non-public Offering, Asset Injection and the Equilibrium on Stockholder's Benefit

YIN Zhujia, HUANG Jianhuan .......................................................... 532
Comparative Research on Stock Volatility between Shanghai Composite Index and Dow Jones

DU Jun ........................................................................................... 539
Futures of Agricultural Products and National Financial Engineering Construction in Rural Areas

CAO Bingyu .................................................................................. 544
An Empirical Analysis on Stock Ownership Structure of Chinese Listed Companies--------New Evidence from Tourism Industry

ZHU Zhe, HU Wei .......................................................................... 551
Chapter 8 - Merger and Acquisition

The Causes, Problems, and Suggestions on Chinese Enterprises’ M&A Preference of Overseas Bankrupt Companies
XU Bo, LI Nanyan ................................................................. 603

Analysis on the Talent Synergy in Cross-border M&A Using Self-organization Theory
YAN Haiyan, JIANG Hua ......................................................... 608

GUO Guanfu, ZHOU Hongyun .............................................. 613

Pondering Over Several Issues on Improving the Success Ratio of Enterprises M&A
YANG Jie ............................................................................... 620

Empirical Study on the Effects of Chinese Companies' Overseas M&A
LI Mei .................................................................................... 625

The Comparison Study on Chinese and Foreign Enterprises Cross-border Merger and Acquisition
WANG Jingzhou ..................................................................... 630

The International Comparison on the Regulations of Cross-border Merger and Acquisition
ZHAO Yingchuan .................................................................... 638

Chapter 9 - Fund and Options

Pricing of Option When Underlying Asset Price Submitting to Exponential of a Levy Process
KONG Liang, ZHANG Qiwen ........................................... 661

The International Trend of Compiling Flow of Fund Account, Its Development and Application in Our Country
Charles Benjamin ZHANG, LIU Xinjian ........................................... 665

Research on the Liquidity Risk Management of Open-end Fund
WANG Xiaoyun, ZHANG Ruiyang ........................................... 670

An Empirical Research in the Performance Evaluation of Mutual Fund in China based on VaR-Sharpe Ratio
HU Xuwei, CHEN Lingling ........................................... 676

Chapter 10 - WTO and Trade Conflict

On Asymmetric Anti-Dumping Controversy between China and Other Countries
FENG Zongxian, YU Luyao ........................................... 685

A Study on the Dynamic Price Adjustment of Chinese Color TV Enterprises after Encountering Antidumping
LI Xuemei, GAO Jingchen ........................................... 692

Analysis on Textile Trading Conflict between China and America - Challenge and Opportunity when Post-Quota Era Comes
LIU Yuejun, CAI Haixia ........................................... 698

Prevention, Evaluation and Domination of Financial Security Problem Facing to WTO
XU Jun ........................................... 702

Trade Creation and Diversion of China-ASEAN Free Trade Area ——based on Balassian Model
CHEN Wen ........................................... 708

The Progress of Doha Round and its Prospect
SHEN Rui ........................................... 713

International Trade, Product Market Competition and Wage Level: Evidence from Zhejiang Province
WENG Jie, ZHOU Li ........................................... 717

Strategic Adjustment of China’s Insurance Supervision Patterns after
WTO Entry

LI Xueshuang ......................................................... 724

Chapter 11 - Global Trading

Analysis of Sino-U.S. Trade Friction
YANG Xia, LI Jun, ZHU Xiaoyan .................................. 735

China’s Old and New Trade Patterns
ZHU Zhongdi, LI Na, ZHAO Jing .................................. 740

The Research of Exchange Rate Change, Export Structure and International Trade Welfare Effect
GU Guoda, ZHANG Zhengrong, LI Danyu ......................... 751

Study on 1980-2000 USA National Science and Technology Policy on the View of Promoting Industrial Technology Innovation
DING XiaoYi .......................................................... 759

The Influence of Labor Right Standards on Zhejiang’s Textile Industry
JIANG Ye ................................................................ 764

Changes and Determinants on Technology Transfer of MNE’s in China
PAN Shenbiao ............................................................ 769

Voluntary Export Restraints and Dumping——A Theoretical Analysis & its Revelation
SUN Lin, KE Hao ......................................................... 773

International Trade and Labor Standards: Effects on China’s Foreign Trade
TANG Feng, YAO Liming ............................................. 778

Study on the Impact of E-commerce on China’s Foreign Trade Environment
TANG Haiyan ............................................................ 784

Impact of the Real Right Law on the Banking Industry
ZHANG Ke .................................................................. 788

An Analysis of the Trade Terms of Intra-product Export of the Manufacturing Industry in China
YANG Haiyu, HUANG Ting ............................................. 794

Research on Global Competitiveness of Chinese Financial Service Industry
ZHAO Dan ............................................................... 800

Analysis on the Role of Manpower Capital Investment in Sustainable Development of Rural Economy
FAN Yunying ............................................................. 804

Chapter 12 - Foreign Direct Investment

Research on FDI Actions from China Enterprises
CHEN Houyi, LU Ping ................................................ 813

The Explanation to the Unequilibrium of FDI & Exploration of the Equilibrium Terms
