Table of Contents

Acknowledgements ........................................................................................................... ix

Preface

i. The purpose of this book .............................................................................................. xiii
   Abdolkarim Sadrieh and Joachim Weimann

ii. The beginnings of experimental economics as a field of research in
   Germany .......................................................................................................................... xv
   Reinhard Selten

iii. The Gesellschaft für experimentelle Wirtschaftsforschung in its
   30th year ......................................................................................................................... ixx
   Miriam Mezger, Abdolkarim Sadrieh, and Joachim Weimann

iv. Reinhard Tietz, a pioneer of experimental economics in Germany,
   celebrates his 80th birthday ......................................................................................... xxi
   Abdolkarim Sadrieh

Part I  Bounded Rationality and Depth of Reasoning

1. Semi-normative theories based on bounded rationality ........................................ 1
   Reinhard Tietz
   *Journal of Economic Psychology* 13, 297-314, 1992

2. Unraveling in guessing games: An experimental study ......................................... 17
   Rosemarie Nagel

3. Limited depth of reasoning and failure of cascade formation in the laboratory ......................................................................................................................... 35
   Dorothea Kübler and Georg Weizsäcker
   *Review of Economic Studies* 71 (2), 425-441, 2004

4. The decision maker matters: Individual versus group behaviour in
   experimental beauty-contest games ............................................................................ 55
   Martin G Kocher and Matthias Sutter
   *Economic Journal* 115 (500), 200-223, 2005

5. Does money illusion matter? ....................................................................................... 81
   Ernst Fehr and Jean-Robert Tyran
Part II Voluntary Provision of Public Goods

6. Individual behavior in a free riding experiment ........................................ 115
   Joachim Weimann
   *Journal of Public Economics* 54 (2), 185-200, 1994

7. Cooperation and punishment in public goods experiments ..................... 131
   Ernst Fehr and Simon Gächter

8. The competitive advantage of sanctioning institutions .......................... 151
   Özgür Gürerk, Bernd Irlenbusch, and Bettina Rockenbach
   *Science* 312 (5770), 108-111, 2006

Part III Bargaining, Communication, and Coordination

9. Selection between Pareto-Optimal outcomes in 2-Person bargaining with and without the right to make a proposal .................................. 161
   Bodo Vogt and Wulf Albers
   *Homo Oeconomicus* 18 (1), 77-92, 2001

10. Equitable choices in bargaining games with joint production ............... 177
    Anita Gantner, Werner Güth, and Manfred Königstein

11. The sound of silence in prisoner's dilemma and dictator games ........... 191
    Iris Bohnet and Bruno S Frey

12. Identifying cooperative behavior: Some experimental results in a prisoner's dilemma game ................................................................. 207
    Jeannette Brosig

13. Conventions and local interaction structures: Experimental evidence ................................................................. 223
    Siegfried K Berninghaus, Karl-Martin Ehrhart, and Claudia Keser
    *Games and Economic Behavior* 39 (2), 177-205, 2002
Part IV  Inequality Aversion and Reciprocal Behavior

14. On ultimatum bargaining experiments – A personal review .................. 249
   Werner Güth

15. The moonlighting game – An experimental study on reciprocity and retribution ................................................................. 265
   Klaus Abbink, Bernd Irlenbusch, and Elke Renner

16. The indirect evolutionary approach to explaining fair allocations .......... 277
   Steffen Huck and Jörg Oechssler
   Games and Economic Behavior 28 (1), 13-24, 1999

17. A theory of fairness, competition, and cooperation .......................... 289
   Ernst Fehr and Klaus M Schmidt
   Quarterly Journal of Economics 114 (3), 817-868, 1999

18. ERC: A theory of equity, reciprocity, and competition ...................... 327
   Gary E Bolton and Axel Ockenfels
   American Economic Review 90 (1), 166-193, 2000

19. Distributional concerns: equity- or efficiency-oriented? ................. 365
   Alexander Kritikos and Friedel Bolle

20. Inequality aversion, efficiency, and maximin preferences in simple distribution experiments .................................................... 371
   Dirk Engelmann and Martin Strobel
   American Economic Review 94 (4), 857-869, 2004

21. A theory of sequential reciprocity ............................................... 389
   Martin Dufwenberg and Georg Kirchsteiger
   Games and Economic Behavior 47 (2), 268-298, 2004

22. A theory of reciprocity .................................................................. 419
   Armin Falk and Urs Fischbacher
   Games and Economic Behavior 54 (2), 293-315, 2006

Part V  Risk-Taking and Behavioral Finance

23. Inferring risk attitudes from certainty equivalents: Some lessons from an experimental study ................................................. 441
   Jan Pieter Krahnen, Christian Rieck, and Erik Theissen
24. The disposition effect in securities trading: An experimental analysis
   Martin Weber and Colin F Camerer

25. Money does not induce risk neutral behavior, but binary lotteries
do even worse
   Reinhard Selten, Abdolkarim Sadrich, and Klaus Abbink
   *Theory and Decision* 46 (3), 211-249, 1999

**Part VI  Auctions, Markets and Industrial Organization**

26. An experimental analysis of auctions with interdependent valua-
tions
   Oliver Kirchkamp and Benny Moldovanu
   *Games and Economic Behavior* 48 (1), 54-85, 2004

27. Stackelberg beats Cournot: On collusion and efficiency in experi-
mental markets
   Steffen Huck, Wieland Müller, and Hans Theo Normann
   *Economic Journal* 111 (474), 749-765, 2001
