List of Tables ...................................................................................................................... xvii
List of Abbreviations ......................................................................................................... xix

1  Introduction .................................................................................................................. 1
  1.1 Relevance of the Topic .............................................................................................. 1
    1.1.1 Growing need for efficient international disaster relief ...................................... 1
    1.1.2 Disaster relief logistics as a main performance driver ....................................... 2
    1.1.3 The issue of inter-organizational coordination and cooperation ......................... 4
  1.2 Shortcomings of Existing Research .......................................................................... 5
  1.3 Research Focus and Central Questions .................................................................... 8
    1.3.1 Research focus .................................................................................................... 8
    1.3.2 Research questions ........................................................................................... 10
  1.4 Research Approach and Methodology .................................................................... 10
    1.4.1 Combined deductive and abductive research approach ....................................... 11
    1.4.2 Case study research method ............................................................................. 12
  1.5 Thesis Outline .......................................................................................................... 16

2  Definition and Literature Review of Key Terms ......................................................... 19
  2.1 Disasters .................................................................................................................. 19
    2.1.1 Definitions ....................................................................................................... 19
    2.1.2 Occurrence and impact of natural disasters ..................................................... 21
  2.2 Disaster Relief Operations ....................................................................................... 25
    2.2.1 Definitions ....................................................................................................... 25
    2.2.2 Phases and cycle of disaster relief .................................................................... 26
    2.2.3 Actors and stakeholders in disaster relief operations ....................................... 29
    2.2.4 International disaster relief system (IDRS) ..................................................... 38
    2.2.5 The Humanitarian Reform .............................................................................. 40
  2.3 Disaster Relief Logistics .......................................................................................... 43
    2.3.1 Characteristics of commercial logistics and supply chain management .......... 43
7.1.1 The question of core competencies .................................................. 201
7.1.2 Trust building measures ................................................................. 204
7.1.3 Measurement and monitoring of benefits ....................................... 209
7.1.4 Capacity Building .......................................................................... 220
7.2 Potential Model Adjustments ............................................................... 222
7.2.1 Commercial companies taking the service provider role............... 222
7.2.2 Reduction of the target group to smaller organizations or to related ones................................................................. 226
7.2.3 Participation as an obligation instead of an option......................... 227

8 Summary and Conclusion ..................................................................... 229
8.1 Results................................................................................................. 229
8.1.1 Which types of benefits (and costs) are linked to horizontal cooperation between humanitarian organizations? ................................. 229
8.1.2 Which impediments exist? ................................................................. 230
8.1.3 How can these impediments be overcome? ..................................... 230
8.1.4 How could the design of the selected cooperation model be improved? ......................................................................................... 231
8.1.5 Resulting answer to central research question ................................. 232
8.1.6 Research limitations ......................................................................... 232
8.2 Implications for Management Practice and Theory ............................ 233
8.2.1 Central insights and implementation guidelines for humanitarian actors ......................................................................................... 233
8.2.2 Implications for theory and existing research ................................ 235
8.3 Suggestions for Future Research ......................................................... 236
