

Farrokh K. Langdana

Macroeconomic Policy

Demystifying Monetary and Fiscal Policy

Second edition

Foreword by W. Michael Cox

Springer

Contents

1 Introduction and Overview of the Second Edition	1
1.1 Chapter Overview	4
1.2 What's New in This Second Edition	5
2 National Income Accounts	7
2.1 Paradigm Shifts: An Introduction	8
2.2 Some Fundamental Definitions	11
2.2.1 Inflation	13
2.2.2 GDP Deflator	13
2.2.3 Consumer Price Index (CPI)	14
2.2.4 Which Measure Does the Fed Use?	17
2.3 Discussion Questions	18
3 Budget Deficits, Trade Deficits, and Global Capital Flows: The National Savings Identity	23
3.1 The National Savings Identity	23
3.1.1 Two Crucial Assumptions Underlying the NSI	26
3.1.2 Linking the Twin Deficits	28
3.2 Possible Negative Aspects of Bond Financed Deficits	32
3.2.1 Crowding Out	32
3.2.2 Trade Deficits	33
3.3 Two Cases of the NSI: The United States and China	34
3.3.1 US-Type NSI	34
3.3.2 China-Type NSI	35
3.4 Factors Influencing Global Capital Flows	35
3.4.1 Hot Capital: Southeast Asia, Mexico, Iceland	36
3.5 Discussion Questions	38
4 Aggregate Demand: Setting the Stage for Demand-Side Stabilization	47
4.1 Demand-Side Stabilization	47
4.2 Business Cycles	49

4.3	Variables Underlying the Aggregate Demand: Introducing the Goods Market	50
4.3.1	Analyzing the Components of Aggregate Demand.	53
4.3.2	Deriving the Aggregate Demand.	61
4.4	Discussion Questions	63
5	Demand-Side Stabilization: Overheating, Hard Landing, and Everything in Between	69
5.1	Shifting the AD: Changing Government Spending	69
5.1.1	The Mechanism of the Multiplier Effect	70
5.2	Shifting the AD: Changing Monetary Policy	75
5.3	Shifting the AD: Tax Policy	76
5.4	Summarizing the Three Methods of Shifting AD	77
5.5	Unemployment	78
5.6	Inflation	82
5.6.1	Designing Macroeconomic Policy: An Exercise	82
5.6.2	Demand-Pull Inflation	84
5.6.3	Cost-Push Inflation	91
5.6.4	The Index of Leading Economic Activity, NAPM, and Some “Non-traditional” Indicators	93
5.7	Discussion Questions	96
6	Long-Term Interest Rates, the Yield Curve, and Hyperinflation	107
6.1	Expected Inflation and Long-Term Interest Rates: The Fisher Effect	107
6.2	The Yield Curve: A Macroeconomic Perspective	110
6.2.1	Negative Real Rates and SAP Bubbles	114
6.3	Hyperinflations.	115
6.3.1	The Anatomy of a Meltdown	115
6.3.2	Hyperinflations: Remedies	119
6.4	Monetary Discipline: The Hazards of Pegging	121
6.5	Discussion Questions	124
7	ISLM: The Engine Room	131
7.1	The IS Curve	132
7.1.1	Some IS Exercises	133
7.1.2	Introducing Taxes into the IS Curve.	134
7.2	The LM Curve	136
7.2.1	Factors that Shift the LM	138
7.3	ISLM – ADAS Policy Exercises.	141
7.3.1	Survival Guide to ISLM–ADAS Policy Analysis	141
7.3.2	ISLM – ADAS Policy Experiment I	141
7.3.3	ISLM – ADAS Policy Experiment II	144

7.3.4	ISLM – ADAS Policy Exercise III An Increase in Tax Rates.	147
7.3.5	ISLM–ADAS Policy Exercise IV: Simultaneous Increases in Government Spending and Monetary Growth (“Fine Tuning ”).	149
7.4	Summarizing IS and LM Shifts	151
7.5	The Global IS.	151
7.5.1	Global IS: A Brief Overview	151
7.6	Discussion Questions	155
8	The Classical Model.	159
8.1	Classical Aggregate Supply: Derivation.	159
8.1.1	Derivation Sequence	163
8.2	Policy Exercise I: Increase in G	164
8.3	ISLM – ADAS Policy Exercise II: Increase in M	167
8.4	The “ Natural” Rates of GDP and Employment Growth	168
8.5	Discussion Questions	170
9	The Keynesian Model.	175
9.1	Keynesian Aggregate Supply: Diagrammatic Derivation	176
9.1.1	Derivation Sequence	177
9.2	Survival Guide for ISLM with Keynesian AS (K-AS).	178
9.2.1	Policy Exercise I: Increase in G	179
9.2.2	Policy Exercise II: Increase in Monetary Growth	182
9.2.3	Policy Exercise III: Engineering a Soft-Landing.	185
9.2.4	Policy Exercise IV When Low Interest Rates Don’t Work—Increasing M Against A Backdrop of Collapsed Confidence	187
9.3	The Phillips Curve	189
9.4	The Yield Curve and the Keynesian Paradigm	190
9.5	The Agony of a Paradigm Shift: The Great Depression	193
9.5.1	Mistake 1: Wage Floors	193
9.5.2	Mistake 2: Tax Increases and Decreases in G.	194
9.5.3	Mistake 3: Liquidity Crisis	195
9.5.4	Mistake 4: Smoot-Hawley	196
9.6	Discussion Questions	198
10	The Supply-Side Model and the New Economy	207
10.1	The Expectations-Augmented AS Curve: An Explanation of the Paradigm Shift	208
10.1.1	Diagrammatic Derivation: Expectations- Augmented Aggregate Supply Curve	210
10.1.2	Paradigm Shift II: An Expectations-Augmented Explanation	211

10.2	Supply-Side Economics	214
10.2.1	Significant Income Tax Cuts	214
10.2.2	Sweeping Corporate/Business Tax Cuts	216
10.2.3	Deregulation	217
10.2.4	Supply-Side Stabilization.	218
10.3	Stagflation	220
10.4	From the Supply-Side to the New Economy	221
10.5	The Identification Problem	224
10.6	A Keynesian Explanation of the “New” Economy	226
10.7	Contrasting the “New” Economy with the “Old” One.	228
10.8	Can the Two Models Be Reconciled?	230
10.9	The Outlook for the New Economy.	233
10.10	Which Model for Developed Economies?	234
10.11	Discussion Questions	235
11	Central Banks and Monetary Policy	245
11.1	Institutional Framework: The Federal Reserve	245
11.2	The Money Creation Process: How the Federal Reserve Changes the Money Supply	247
11.2.1	Reserve Requirements and the Money Multiplier: The Theory	248
11.2.2	Open Market Operations (OMOs)	249
11.2.3	Changing the Discount Rate	254
11.2.4	Changing the Required Reserve Ratio	255
11.3	The Role of the Central Bank: How Should Monetary Policy be Conducted?	255
11.3.1	Milton Friedman and the Role of Monetary Policy	256
11.3.2	IS Monetary Discipline Worth the Pain?	261
11.3.3	The “Curse” of Humphrey-Hawkins.	262
11.3.4	The Taylor Rule.	264
11.3.5	Exchange Rate Pegging, Currency Crises, and Sterilization	265
11.4	Discussion Questions	271
	Bibliography	281
	Index	285
