Money and Capital Markets

Financial Institutions and Instruments in a Global Marketplace
PART 1

The Global Financial System in Perspective 1

1 Functions and Roles of the Financial System in the Economy 2

1.1 Introduction to the Financial System 3

1.2 The Global Economy and the Financial System 3

- Flows within the Global Economic System 3
- The Role of Markets in the Global Economic System 4
- Types of Markets 5
- The Financial Markets and the Financial System: Channel for Savings and Investment 5

1.3 Economic Functions Performed by the Global Financial System and the Financial Markets 7

- Savings Function 7
- Wealth Function 8
- Liquidity Function 9
- Credit Function 9
- Payments Function 9
- Risk Protection Function 10
- Policy Function 11

1.4 Types of Financial Markets within the Global Financial System 11

- The Money Market versus the Capital Market 12
- Divisions of the Money and Capital Markets 12
- Open versus Negotiated Markets 14

Primary versus Secondary Markets 14
Spot versus Futures, Forward, and Option Markets 14

1.5 Factors Tying All Financial Markets Together 15

- Credit, the Common Commodity 16
- Speculation and Arbitrage 16

1.6 The Dynamic Financial System 16

1.7 The Plan of This Book 17

Summary of the Chapter's Main Points 19
Key Terms Appearing in This Chapter 20
Problems and Issues 20
Web-Based Problems 22
Selected References to Explore 23

Financial Assets, Money, Financial Transactions, and Financial Institutions 25

2.1 Introduction: The Role of Financial Assets 26

2.2 The Nature and Characteristics of Financial Assets 26

- Characteristics of Financial Assets 26
- Types of Financial Assets 27

2.3 How Financial Assets Are Created 27

2.4 Financial Assets and the Financial System 31

2.5 Lending and Borrowing in the Financial System 33

2.6 Money as a Financial Asset 36

- What Is Money? 36
- The Functions of Money 37
- The Value of Money and Other Financial Assets and Inflation 38

7.1 Introduction 176

7.2 Inflation and Interest Rates 176
The Correlation between Inflation and Interest Rates 176
Nominal and Real Interest Rates 177
The Fisher Effect 178
Alternative Views about Inflation and Interest Rates 178
The Harrod-Keynes Effect of Inflation 178
Anticipated versus Unanticipated Inflation 179
The Inflation-Risk Premium 180
The Inflation-Caused Income Tax Effect 180
Conclusions from Recent Research on Inflation and Interest Rates 181

7.3 Inflation and Stock Prices 182

7.4 The Development of Inflation-Adjusted Securities 184

7.5 The Maturity of a Loan 188
The Yield Curve and the Term Structure of Interest Rates 188
Types of Yield Curves 189
The Unbiased Expectations Hypothesis 189
Assumptions of the Expectations Hypothesis 191
Policy Implications of the Unbiased Expectations Hypothesis 191
The Liquidity Premium View of the Yield Curve 192

7.6 The Segmented-Markets and Preferred Habitat Arguments 193
The Possible Impact of Segmented Markets on the Yield Curve 193
Policy Implications of the Segmented-Markets Theory 194
The Preferred Habitat or Composite Theory of the Yield Curve 194
Research Evidence on the Yield Curve 194

7.7 Uses of the Yield Curve 197
Forecasting Interest Rates 197
Uses for Financial Intermediaries 197
Detecting Overpriced and Underpriced Financial Assets 198
Indicating Trade-Offs between Maturity and Yield 198
Riding the Yield Curve 198

7.8 Duration: A Different Approach to Maturity 199
The Price Elasticity of a Bond or Other Debt Security 199
The Impact of Varying Coupon Rates 200
An Alternative Maturity Index for a Financial Asset: Duration 201
The Convexity Factor 203
Uses of Duration 204
Estimating Asset Price Changes 204
Portfolio Immunization 205
Limitations of Duration 207
Summary of the Chapter’s Main Points 208
Key Terms Appearing in This Chapter 210
Problems and Issues 210
Web-Based Problems 213

Commercial Banks, Major Corporations, and Federal Credit Agencies in the Money Market 311

11.1 Introduction 312
11.2 The Roles Played by Banks in the Money Market 312
11.3 Federal Funds Provided by the Banking System 313
The Nature of Federal Funds and Their Uses 313
Use of the Federal Funds Market to Meet Reserve Requirements 314
Mechanics of Federal Funds Trading 314
Volume of Borrowings in the Funds Market 316
Interest Rates on Federal Funds 316
Federal Funds and Government Economic Policy 316

11.4 Negotiable Certificates of Deposit (CDs) Issued by Banks 318
Terms Attached to CDs and Who Buys Them 318
Buyers of CDs 320
New Types of CDs 321

11.5 Eurocurrency Deposits in International Banks 322
What Is a Eurodollar? 322
The Creation of Eurocurrency Deposits 323
Contents

11.6 Bankers' Acceptances 328
   How Bankers' Acceptances Are Used in International Trade 328
   Bankers' Acceptances as Investment Instruments 329
   The Decline in Bankers' Acceptances 330

11.7 Evaluating the Money Market Costs of Funds Needed by Bankers 331

11.8 Concluding Comment on Bank Activity in the Money Market 332

11.9 Major Corporations in the Money Market: Commercial Paper 333
   The Nature of Commercial Paper 333
   Types of Commercial Paper 333
   The Recent Track Record of Commercial Paper 335
   Commercial Paper as Investment Instruments 336
   Advantages of Issuing Commercial Paper 338
   Possible Disadvantages from Issuing Commercial Paper 339
   Who Buys Commercial Paper? 339
   Continuing Innovations in the Paper Market 340
   Commercial Paper Ratings and Dealer Operations 341
   Dealers in Paper 341

11.10 Credit Agencies in the Money Market 342
   Types of Federal Credit Agencies 342
   Growth of the Agency Security Market 343
   Characteristics and Marketing of Agency Securities 346

Summary of the Chapter’s Main Points 346
