

International Economics

7th edition

**Theo S. Eicher, John H. Mutti, and
Michelle H. Turnovsky**

Contents

<i>List of Case Studies</i>	<i>xiii</i>
<i>List of Boxes</i>	<i>xv</i>
<i>List of Figures</i>	<i>xxi</i>
<i>List of Tables</i>	<i>xxv</i>
<i>Preface</i>	<i>xxix</i>
1 Introduction: Life in an International Economy	1
References and Suggestions for Further Reading	7
PART I INTERNATIONAL TRADE AND TRADE POLICY	9
2 Why Do Nations Trade? Some Early Answers	13
Learning Objectives	13
Absolute Advantage	14
Comparative Advantage	16
Reciprocal Demand and Prices Internationally	20
Comparative Advantage with Many Goods	23
Empirical Verification in a World with Many Goods	26
Summary of Key Concepts	28
Case Study: Rising Productivity: A Guarantee of Manufacturing Success?	29
Questions for Study and Review	30
References and Suggestions for Further Reading	32

3 Why Do Nations Trade? Some Later Answers	34
Learning Objectives	34
Consumer Preferences and the Gains from Trade	35
Production Capabilities and the Gains from Trade	41
International Trade with Constant Costs	43
International Trade with Increasing Costs	49
The Division of the Gains from Trade	52
Summary of Key Concepts	59
Case Study: Terms of Trade Changes and Australian Growth	59
Questions for Study and Review	61
References and Suggestions for Further Reading	63
Appendix: The Role of Money Prices	64
4 Trade and the Role of Factor Endowments	66
Learning Objectives	66
Factor Proportions as a Determinant of Trade	67
Trade and Changing Factor Endowments	78
Trade, the Distribution of Income and Factor Price Changes	82
Relaxing Some Assumptions of the H-O Model	89
Empirical Verification of the H-O Model	93
Summary of Key Concepts	97
Case Study: Trade Liberalization and the Distribution of Income in Brazil	97
Questions for Study and Review	99
References and Suggestions for Further Reading	101
Appendix: Mathematical Representations of Relationships in the H-O Model	103
5 Scale, Competition and Trade	106
Learning Objectives	106
External Economies of Scale	108
Internal Economies of Scale	113
Economies of Scale and Monopolistic Competition	118
Trade with Other Forms of Imperfect Competition	126
Summary of Key Concepts	132
Case Study: A Further Case of Intra-Industry Trade: Carrying Coals to Newcastle?	133
Questions for Study and Review	135
References and Suggestions for Further Reading	137
Appendix A: Monopolistic Competition and Trade	139
Appendix B: Oligopoly, the Cournot Model, and Trade	141

6 The Theory of Protection Tariffs and Other Barriers to Trade	143
Learning Objectives	143
Partial Equilibrium Analysis of Trade Barriers	145
General Equilibrium Analysis of Trade Barriers	162
The Effective Rate of Protection	165
Intervention in Export Markets	170
Summary of Key Concepts	174
Case Study: The Elimination of the MFA	175
Questions for Study and Review	177
References and Suggestions for Further Reading	179
7 Arguments for Protection and the Political Economy of Trade Policy	182
Learning Objectives	182
Arguments for Restricting Imports	184
Dumping	201
The Political Economy of Trade Policy	208
Summary of Key Concepts	211
Case Study: Are Chinese and Vietnamese Shoes Dumped in the E.U. Market?	212
Questions for Study and Review	213
References and Suggestions for Further Reading	216
Appendix: Optimum Tariffs: A Partial Equilibrium Perspective	218
8 International Mobility of Labor and Capital	220
Learning Objectives	220
A Basic Model of Capital Mobility	224
Additional Issues Raised by Labor Mobility	228
Multinational Corporations	234
Summary of Key Concepts	244
Case Study: The Daimler Chrysler Marriage and Divorce	245
Questions for Study and Review	246
References and Suggestions for Further Reading	247
9 Regional Blocs: Preferential Trade Liberalization	249
Learning Objectives	249
Alternative Forms of Preferential Trade Agreements	250
Efficiency Gains and Losses From Preferential Trade Agreements	251
Measuring the Economic Effects of a Preferential Trade Agreement	256
The European Union	258
NAFTA	264

Summary of Key Concepts	268
Case Study: A Russia–EU Free Trade Agreement?	269
Questions for Study and Review	270
References and Suggestions for Further Reading	272

10 Commercial Policy and the WTO 274

Learning Objectives	274
The Rationale for Multilateral Trade Liberalization	275
Precursors to Multilateral Trade Liberalization	276
Multilateral Trade Liberalization under the GATT	278
The Establishment of the WTO	284
Resolving Trade Disputes in the WTO	288
Developing Countries and the WTO	292
Summary of Key Concepts	295
Case Study: Discipline Over Agricultural Policies? The Case of U.S. Cotton Subsidies	296
Questions for Study and Review	297
References and Suggestions for Further Reading	299

11 Trade and Growth 300

Learning Objectives	300
Building Blocks to Determine the Effects of Economic Growth on Trade	302
Large Countries and Changes in the Terms Of Trade	308
Developing-Country Perspectives and the Effects of Trade on Growth	312
Alternative Trade Policies and the Transition to Greater Manufactured Output	319
Growth and Environmental Externalities	324
Summary of Key Concepts	329
Case Study: China's Trade: Lessons to be Learned?	329
Questions for Study and Review	331
References and Suggestions for Further Reading	332
Appendix: Demonstrating the Effects of Exogenous Technical Change	334

PART II INTERNATIONAL FINANCE AND OPEN ECONOMY MACROECONOMICS 337

12 The Balance of Payments and the Exchange Rate 341

Learning Objectives	341
The Balance of Payments: International Transactions Accounts	342
The International Investment Position	352
The Exchange Rate	353
Summary of Key Concepts	360
Case Study I CSI: Trade Deficit	361

Case Study II “Dark Matter” Makes the US Deficit Disappear	362
Questions for Study and Review	364
References and Suggestions for Further Reading	365
Appendix	366
13 Fundamentals of Exchange Rate Systems	374
Learning Objectives	374
Flexible Exchange Rates: Adjustment through Market Forces	379
Fixed Exchange Rates: Adjustment through Central Bank Intervention	383
The Exchange Rate and Open-Economy National Income Accounting	390
The Marshall-Lerner Condition	392
The J-Curve Effect	395
Summary of Key Concepts	397
Case Study I: On Europe: Europe Feels Weight of Strong Euro	398
Case Study II: China Slightly Loosens the Reins on its Currency’s Market Fluctuation	399
Questions for Study and Review	401
References and Suggestions for Further Reading	403
Appendix: The Marshall-Lerner Condition	404
14 An Introduction to Modeling the Open Economy	406
Learning Objectives	406
Key Features of a Basic Open-Economy Model	407
A Small Open Economy with Fixed Exchange Rates	409
A Small Open Economy with Flexible Exchange Rates	422
Summary of Key Concepts	426
Case Study I: America is Borrowing Trouble	426
Case Study II: Greenspan Warns Against Raising Tariffs on China	428
Questions for Study and Review	430
References and Suggestions for Further Reading	433
15 Extensions of the Basic Open-Economy Model: Policy Effectiveness and the Large Open Economy	435
Learning Objectives	435
Sterilization and Policies to Manage External Deficits	437
Internal and External Balance: The Policy Mix	445
The Large Open Economy	449
Summary of Key Concepts	460
Case Study I: Switching Engines: Global Economic Growth has become Less Dependent on American Spending	461
Case Study II: The Fiscal Fallacy of Decoupling from America	463
Questions for Study and Review	464
References and Suggestions for Further Reading	467

16 International Capital Markets	469
Learning Objectives	469
International Financial Flows	470
Financial Markets and Instruments	475
Various Agents and the Functions of the Markets	482
The Short-Term Exchange Rate Determination and Technical Analysis	486
Summary of Key Concepts	492
Case Study: Marking the Dealer's Cards: What Economists Can Learn from Currency Traders	492
Questions for Study and Review	494
References and Suggestions for Further Reading	495
17 Modeling International Capital Markets	497
Learning Objectives	497
International Capital Market Arbitrage	498
Integrating Interest Arbitrage into the Open-Economy Model	507
Summary of Key Concepts	515
Case Study I: Carry On Speculating	516
Case Study II: The Domino Effect	518
Questions for Study and Review	520
References and Suggestions for Further Reading	522
18 Policy Under Fixed Exchange Rates	524
Learning Objectives	524
A Review of the Building Blocks: the <i>IS</i> , <i>LM</i> , and <i>BP</i> curves	526
Monetary Policy under Fixed Exchange Rates	529
Fiscal Policy under Fixed Exchange Rates	534
Exchange Rate Policy	541
The Policy Mix: Internal and External Balance	546
Summary of Key Concepts	552
Case Study I: The Petrodollar Peg	553
Case Study II: Don't Revalue the Yuan	555
Questions for Study and Review	556
References and Suggestions for Further Reading	558
19 Policy under Flexible Exchange Rates and Extensions of the Mundell-Fleming Model	560
Learning Objectives	560
Monetary Policy under Flexible Exchange Rates	561
Fiscal Policy under Flexible Exchange Rates	566
The Large Open Economy under Flexible Exchange Rates	572

Price Adjustment in the Mundell-Fleming Model	578
Summary of Key Concepts	584
Case Study I: Insight: Currency Lessons Learned since the Upheaval	585
Case Study II: Preparing to Float	587
Questions for Study and Review	589
References and Suggestions for Further Reading	591
Appendix: The Policy Mix Revisited: Internal and External Balance	591
20 Perfectly Flexible Prices and Exchange Rate Dynamics	595
Learning Objectives	595
International Arbitrage and Purchasing Power Parity	596
Monetarist Approach to the Exchange Rate	610
Exchange Rate Dynamics – Overshooting	611
Summary of Key Concepts	616
Case Study I: Soft Currency	617
Case Study II: McCurrencies	619
Questions for Study and Review	622
References and Suggestions for Further Reading	623
Appendix: Further Implications of the Monetarist or Long-Run Model	623
21 The International Monetary System: A Brief History	626
Learning Objectives	626
The Gold Standard	628
Reconstruction and Exchange Rates after World War I	636
The Bretton Woods System	639
<i>A Brief History of the Float after Bretton Woods</i>	644
The New Financial Architecture: The Basel Accords	647
Summary of Key Concepts	650
Case Study I: Financial Reform – Reality Check at the IMF	651
Case Study II: IMF Quotas – Monetary Misquotations	653
Questions for Study and Review	655
References and Suggestions for Further Reading	656
Appendix: The IMF versus the World Bank – Differences and Recent Collaboration	656
22 European Monetary Integration	659
Learning Objectives	659
European Issues with Bretton Woods and the Snake	660
The European Monetary System and its Exchange Rate Mechanism	665
The 1992–3 European Currency Crises	672
The European Economic and Monetary Union	675
Summary of Key Concepts	684

Case Study: Beggar Thy Neighbour	685
Questions for Study and Review	687
References and Suggestions for Further Reading	689

23 International Financial Crises 691

Learning Objectives	691
The 1970s Oil Shocks: Financial Flow Imbalances and the Origins of the Debt Crises	692
A Model of Currency Crises: Krugman's Model of Speculative Attacks	694
The End of Capital Flows: Debt Crises in the 1980s	695
The Resurgence of Capital Flows to "Emerging Markets" in the 1990s	696
The Effect of Capital Inflows in the Mundell-Fleming Model	696
The End of Exuberant International Lending: The Asian Financial Crisis	699
Contagion	702
The Aftermath of the East Asian Crisis: The Economics of Reserve Accumulation	703
Reserve Accumulation and International Competitiveness Implications	705
Summary of Key Concepts	706
Case Study I: Guilt by Association	707
Case Study II: Who's in Charge of Determining U.S. Interest Rates? It May Be Beijing.	709
Questions for Study and Review	710
References and Suggestions for Further Reading	710

<i>Glossary</i>	712
<i>Index</i>	736
