Consumer Demand in the United States

Prices, Income, and Consumption Behavior

Third Edition

Springer
Contents

1 Introduction and Overview .............................................. 1
  1.1 Themes and Format of the Book .................................. 3
  1.2 A Reader's Guide to the Study .................................. 5

Part I Preliminaries

2 Demand Theory Under Review ....................................... 9
  2.1 Conventional Theory of Consumer Choice .................... 9
  2.2 Neoclassical Demand Theory as a 19th-Century
      Conservative Energy System .................................. 11
  2.3 Dynamics: Some Preliminaries ................................ 13
  2.4 State- and Flow-Adjustment Models of Consumption ......... 15
  2.5 A Neuroscience Approach to Consumer Behavior ............ 23
  2.6 Brain Structure and Consumption Dynamics ................ 25
     2.6.1 Assumptions and Terminologies ......................... 26
     2.6.2 Consumption Dynamics Associated with the
           Alpha and Beta Brains .................................. 29
     2.6.3 Opponent Processes and Consumption Dynamics ........ 31
     2.6.4 Dynamics Associated with the Gamma Brain ............ 35
     2.6.5 From Consumption to Expenditure ...................... 37
     2.6.6 Consumption/Income Relationships ..................... 40
     2.6.7 Rationality ........................................... 41
  2.7 The Maslovian Needs Hierarchy ................................ 42
     2.7.1 Physiological Needs ................................... 43
     2.7.2 Security Needs ....................................... 43
     2.7.3 Community and Affection (Love) Needs ................. 44
     2.7.4 Esteem Needs ......................................... 44
     2.7.5 Self-Actualization Need ................................ 45
  2.8 Some Implications of a Hierarchy of Needs .................. 45
  2.9 Toward Empirical Application ................................. 49
  2.10 Emotions and Consumption Behavior ......................... 50
  2.11 Consumption Behavior and the Pursuit of Happiness ....... 52
  2.12 Summary and Final Comments ................................. 54

xvii
8 An Additive Double-Logarithmic Consumer Demand System
8.1 An Additive Double-Logarithmic Demand System
8.2 Application to the CES-ACCRA Data Set for the Four Quarters of 1996
8.3 Conclusions
9 Quantile Regression Analysis of Asymmetrically Distributed Residuals
9.1 Quantile Regression Estimation of the Additive Double-Logarithmic Model
9.2 Price and Total-Expenditure Elasticities
9.3 Conclusions
10 CES Panel Dynamics: A Discrete-Time Flow-Adjustment Model
10.1 Double-Logarithmic Flow-Adjustment Model
10.2 Comparison with Static-Model Elasticities
10.3 State- vs. Flow-Adjustment Behavior
10.4 Conclusions
11 Engel Curves for 29 Categories of CES Expenditure
11.1 An Overview of the Results
11.2 Size of Estimated Total-Expenditure Elasticities
11.3 Interpretation of Total-Expenditure Elasticities in Terms of Maslovian Hierarchy of Needs
11.4 Summary and Conclusions
12 Summary of Cross-Sectional Results
12.1 Stability of Expenditure Patterns
12.2 Joining of ACCRA Price Data with CES Expenditure Surveys
12.3 Summary of Price and Total-Expenditure Elasticities
12.4 Estimation of Dynamical Cross-Sectional Models
12.5 Effects of Other Variables
12.6 Asymmetrical Residuals and Quantile Regression
12.7 Cross-Price Elasticities
12.8 Evidence for Maslovian Hierarchical Preferences
12.9 A First Look at the Relationship between Total Consumption and After-Tax Income
12.10 Epilogue to the CES Analysis: Update to 2005
12.11 Looking Ahead

Part III Analysis of Time-Series Data from National Income and Product Accounts
13 Analysis of Time-Series Data on Personal Consumption Expenditures from the U.S. National Income and Product Accounts
13.1 NIPA PCE Categories
13.2 Generalization of the Flow- and State-Adjustment Models . . . 231
13.2.1 Remarks ............................................. 232
13.2.2 Remarks ............................................. 233
13.3 Alternative Estimation Forms for the State-Adjustment
and B-C Models ........................................ 238
13.4 Nonlinear Estimation .................................. 240
13.5 Models Estimated and Statistical Procedures ........................ 242
13.6 Data ..................................................... 243

14 Quarterly PCE Models .................................. 245
14.1 Quarterly Models ...................................... 246
14.1.1 Total Durable Goods ................................. 246
14.1.2 Motor Vehicles and Parts ............................. 247
14.1.3 Furniture and household equipment .................... 248
14.1.4 Other Durable Goods ................................. 248
14.1.5 Total Non-durable Goods ............................... 249
14.1.6 Food .................................................. 250
14.1.7 Clothing and Shoes .................................... 251
14.1.8 Gasoline, Fuel Oil, and Other Energy .................. 251
14.1.9 Other Non-durable Goods ............................... 252
14.1.10 Total Services ........................................ 253
14.1.11 Housing .............................................. 254
14.1.12 Housing Operation .................................... 255
14.1.13 Transportation ...................................... 257
14.1.14 Medical Care ........................................ 257
14.1.15 Recreation .......................................... 258
14.1.16 Other Services ....................................... 259
14.2 Summary of Steady-State Elasticities and Budget Shares .......... 260
14.3 A Dynamic Linear Expenditure System ..................... 261

15 Annual PCE Models .................................... 267
15.1 Food, Tobacco and Alcohol ................................ 267
15.1.1 Food Purchased for Off-Premise Consumption .............. 268
15.1.2 Purchased Food and Beverages ............................ 269
15.1.3 Tobacco .............................................. 270
15.1.4 Alcoholic Beverages ................................... 272
15.2 Clothing, Accessories and Jewelry ............................ 273
15.2.1 Shoes ............................................... 274
15.2.2 Clothing excluding Shoes ................................ 274
15.2.3 Cleaning, Storage and Repair of Clothing and Shoes ......... 276
15.2.4 Jewelry and Watches .................................. 276
15.2.5 Other clothing ......................................... 277
15.3 Personal Care ........................................... 277
15.3.1 Toilet Articles and Preparations ........................ 277
15.3.2 Barbershops, Beauty Salons and Health Clubs .............. 277
15.4 Housing ................................................. 279
15.4.1 Owner-Occupied Housing ............................... 279
15.4.2 Rental Housing ........................................ 280
15.4.3 Rental Value of Farm Housing ......................... 280
15.4.4 Other Housing ........................................ 281

15.5 Housing Operation .................................... 281
15.5.1 Furniture, including Mattresses and Bedsprings ........ 282
15.5.2 Household Appliances .................................. 282
15.5.3 China, Glassware, Tableware and Utensils .............. 283
15.5.4 Other Durable House Furnishings ....................... 284
15.5.5 Semi-Durable House Furnishings ....................... 284
15.5.6 Cleaning and Polishing Preparations and
Miscellaneous Household, Supplies and
Paper Products ............................................. 285
15.5.7 Stationary and Writing Supplies ...................... 285
15.5.8 Household Utilities ................................... 286
15.5.9 Domestic Services ................................... 290
15.5.10 Other Household Operation .......................... 290

15.6 Medical Care ........................................... 291
15.6.1 Drug Preparations and Sundries ....................... 291
15.6.2 Ophthalmic Products and Orthopedic Appliances ....... 292
15.6.3 Physicians ........................................... 292
15.6.4 Dentists ............................................ 293
15.6.5 Other Professional Services ......................... 294
15.6.6 Hospitals and Nursing Homes ......................... 295
15.6.7 Health Insurance ................................... 298

15.7 Personal Business ..................................... 300
15.7.1 Brokerage Services .................................. 300
15.7.2 Bank Service Charges, Trust Services and
Safe Deposit Box Rental .................................. 301
15.7.3 Services Furnished Without Payment by
Financial Intermediaries, Except Life
Insurance Carriers ......................................... 302
15.7.4 Expense of Handling Life Insurance and
Pension Plans .............................................. 302
15.7.5 Legal Services ....................................... 303
15.7.6 Funeral and Burial Expenses ......................... 304
15.7.7 Other Personal Business Services .................... 304

15.8 Transportation .......................................... 305
15.8.1 User-Operated Transportation ......................... 305
15.8.2 New Autos .......................................... 306
15.8.3 Net Purchases of Used Autos ......................... 307
15.8.4 Other Motor Vehicles ................................ 307
15.8.5 Tires, Tubes, Accessories and Other Parts .......... 308
15.8.6 Repair, Greasing, Washing, Parking, Storage,
Rental and Leasing ....................................... 308
15.8.7 Gasoline and Oil .................................... 309
15.8.8 Bridge, Tunnel, Ferry and Road Tolls .............. 310
15.8.9 Transportation Insurance ......................... 310
15.8.10 Purchased Local Transportation ................... 311
15.8.11 Intercity Transportation .......................... 312
15.9 Recreation ........................................... 315
15.9.1 Books and Maps .................................... 315
15.9.2 Magazines, Newspapers and Sheet Music .......... 316
15.9.3 Non-Durable Toys and Sport Supplies .............. 316
15.9.4 Wheel Goods, Sports and Photographic Equipment, Boats and Pleasure Aircraft .................. 317
15.9.5 Video and Audio Goods, including Musical Instruments and Computer Goods .................. 317
15.9.6 Radio and Television Repair ....................... 319
15.9.7 Flowers, Seeds and Potted Plants .................. 319
15.9.8 Admissions to Specified Spectator Amusements .... 320
15.9.9 Clubs and Fraternal Organizations ................ 322
15.9.10 Commercial Participant Amusements: .............. 322
15.9.11 Pari-Mutuel Net Receipts ........................ 323
15.9.12 Other Recreation ................................. 323
15.10 Education ............................................ 324
15.10.1 Higher Education .................................. 324
15.10.2 Nursery, Elementary and Secondary Education ... 324
15.10.3 Other Education .................................... 324
15.11 Religious and Welfare Activities ..................... 326
15.12 Foreign Travel and Other, Net ....................... 327
15.12.1 U. S. Foreign Travel .............................. 327
15.12.2 Expenditures Abroad by U.S. Residents .......... 327
15.1.1 The Access/Usage Framework for Analyzing Telecommunications Demand .................. 329
15.1.2 A Generic Model of Usage Demand ................ 335
15.1.3 A Framework for Estimating Market Demand Functions for New Products and Services .... 337
15.2.1 Demand Theory and Multi-Part Tariffs ............. 341
15.2.2 Empirical Representation of Rate Schedules ....... 347
15.2.3 Electricity Demand in the 1970s: An Illustration 350
15.2.4 Conclusion ......................................... 351
16 Discussion of the Time-Series Results .................. 359
16.1 Tabulation of Annual Models .......................... 359
16.3 Interpretation of Total-Expenditure Elasticities in Terms of Maslovian Hierarchy of Wants .......... 376
16.4 Statistical Quality of the Time-Series Models ....... 382
16.5 Asymmetry in Residuals? ............................. 382
17 Comparison of Time-Series and Cross-Sectional Elasticities ................................. 389
17.1 29-Category Level of Aggregation .................................................. 389
17.2 CES-ACCRA 6-Category Level of Aggregation ......................................... 392
17.3 Summary ........................................................................... 393
18 Overall Assessment of CES and PCE Elasticities ................................................. 395
18.1 Summary of Results .................................................................. 396
18.1.1 CES Data ........................................................................ 396
18.1.2 NIPA Time-Series Data ...................................................... 397
18.2 The Importance of Total-Expenditure Elasticities ......................................... 399
18.3 Assessment of Price Elasticities .............................................................. 403
18.4 Total-Expenditure and Price Elasticities and Hierarchical Wants ...................... 407
18.5 Comparison of Annual and Quarterly Models .............................................. 409
19 The Dynamics of Personal Saving .................................................................. 415
19.1 B-C Model of Saving .................................................................. 416
19.2 Results for Personal Saving from the Flow of Funds Accounts ......................... 417
19.3 Extending Model to Include Capital Gains .................................................. 420
19.4 Conclusions ........................................................................ 423
Part IV Miscellaneous Studies of Income Distribution and Weak Axiom of Revealed Preference
20 The Stationarity of Consumer Preferences: Evidence from Twenty Countries ................. 427
Hendrik S. Houthakker
20.1 Motivation ........................................................................ 427
20.2 Latent and Revealed Preference in Finite Data Sets ......................................... 428
20.2.1 What Does Revealed Preference Reveal? ............................................. 428
20.2.2 The Weak Axiom ................................................................ 429
20.2.3 Dominance ........................................................................ 430
20.2.4 Matching and Connectedness ....................................................... 430
20.2.5 The Strong Axiom of Revealed Preference ........................................ 431
20.2.6 A Test Procedure for the Connected Case .......................................... 432
20.2.7 Further Analysis of Matching ......................................................... 434
20.2.8 Test Procedure for the Matching Case ................................................ 435
20.3 Data .................................................................................. 436
20.4 Findings ........................................................................... 437
20.5 Discussion .......................................................................... 439
20.6 Concluding Remarks ................................................................ 441
21 Notes on Thick-Tailed Distributions of Wealth ...................................................... 445
Lester D. Taylor
21.1 Introduction .......................................................................... 445
21.2 Background ........................................................................ 445
21.2.1 Scenario 1 ......................................................................... 446
21.3 Some Initial Simulations ........................................ 447
  21.3.1 Scenario 2 ............................................... 448
  21.3.2 Comments ................................................ 449
  21.3.3 Scenario 3 ............................................... 449
  21.3.4 Comments ................................................ 450
21.4 Variations ...................................................... 450
21.5 Interpretation of Parameters and Scenarios .................... 453
21.6 Law of Pareto Tests .......................................... 453
21.7 Conclusions ................................................... 462

22 Conic Distributions of Earned Incomes ............................ 465
  22.1 The Search for Functional Form ............................. 465
  22.2 Specification of the Conic Family of Distributions ......... 467
    22.2.1 The General Conic Distribution ....................... 468
    22.2.2 The Conic-Quadratic Distribution ..................... 473
    22.2.3 The Conic-Linear Distribution ......................... 476
  22.3 Geometric Aspects .......................................... 478
    22.3.1 The Asymptotes ........................................ 478
    22.3.2 Modes and Inflections ................................ 480
  22.4 Descriptive Statistics ..................................... 481
    22.4.1 The Median ............................................ 481
    22.4.2 The Arithmetic Moments and Gini Coefficient ......... 482
    22.4.3 The Logarithmic Moments: Alternative Measures of Inequality ........................................ 482
    22.4.4 The Lorenz Curve ...................................... 484
  22.5 Estimation .................................................. 484
    22.5.1 Medianization .......................................... 486
    22.5.2 Comparison with Other Distributions .................. 487
    22.5.3 Bias in Maximum Likelihood Estimation ............... 489
  22.6 Data ........................................................ 489
  22.7 Empirical Results ......................................... 490
  22.8 Discussion .................................................. 497

23 Final Evaluation .................................................. 505
