Portfolio Optimization under Partial Information

Computation of Optimal Portfolio Strategies
# Contents

1 Introduction 1

2 Optimal Consumption and Investment 7
   2.1 The Basic Model 7
   2.2 Consumption and Investment Processes 9
   2.3 Optimization 12
   2.4 Results and Discussion 18

3 Models for the Drift 19
   3.1 An Observable Constant Drift 19
      3.1.1 The Model 19
      3.1.2 Numerical Example 21
   3.2 An Unobservable Constant Drift 22
      3.2.1 The Model 22
      3.2.2 Filtering 22
      3.2.3 Numerical Example 22
   3.3 Gaussian Dynamics for the Drift 22
      3.3.1 The Model 22
      3.3.2 Filtering 26
      3.3.3 Verification 27
      3.3.4 Numerical Example 29
   3.4 A Hidden Markov Model for the Drift 29
      3.4.1 The Model 29
      3.4.2 Filtering 32
      3.4.3 Verification 33
      3.4.4 A Robust Version of the Unnormalized Filter 34
      3.4.5 A Robust Version of the Malliavin Derivative of the Unnormalized Filter 37
      3.4.6 Numerical Example 38
   3.5 Application to Market Data 41
      3.5.1 Historical Data 41
      3.5.2 Numerical Results 41
   3.6 Results and Discussion 42
