CHALMERS

Managing the Risk for Antagonistic Threats against the Transport Network

Daniel Ekwall

Thesis to be defended in public at 8 May 2009 at 13.00 in Vasa A,
Vera Sandbergs allé 8 at
Chalmers University of Technology, Gothenburg,
for the Degree of Doctor of Philosophy

The discussion leader is Professor Helen Peck at Dept of Applied Science, Security
and Resilience at Cranfield University, Shrivenham, United Kingdom

The thesis will be defended in English.

The thesis is available at:

Division of Logistics and Transportation
Department of Technology Management and Economics
Chalmers University of Technology
SE-412 96 Göteborg, Sweden
Telephone +46 31 772 1000
### Table of content

**List of figures**  
XI  

**List of tables**  
XII  

1. **Introduction**  
   1.1. **Background**  
      1.1.1. Definition of antagonistic threats  
      1.1.2. Antagonistic threats against the transport network  
      1.1.3. Theft of cargo, vehicles, and driver belonging  
      1.1.4. Smuggling of goods  
      1.1.5. Terrorism threats  
      1.1.6. Shrinkage or loss for different actors in a supply chain  
      1.1.7. Insurance claims (FFL) for one of the world's leading LSP  
      1.1.8. Cargo theft in Europe  
      1.1.9. Cargo theft in Sweden  
   1.2. **Purpose**  
   1.3. **Scope**  
   1.4. **Limitations**  
   1.5. **Antagonistic threats as a wicked problem**  
   1.6. **Research questions**  
   1.7. **Outline of the thesis**  

2. **Frame of reference**  
   2.1. **Components in the framework**  
   2.2. **The supply chain concepts**  
      2.2.1. Principles of microeconomics as a business description  
      2.2.2. The market and the end user  
   2.3. **System of supply chains**  
   2.4. **Supply chain, logistics and transport**  
   2.5. **Risk and uncertainty in the supply chain**  
   2.6. **Supply chain vulnerability**  
   2.7. **Supply chain risk management**  
   2.8. **Supply chain security**  
   2.9. **Risk management and security in a supply chain context**  
      2.9.1. Transport and freight security  
      2.9.2. Logistics security programmes  
      2.9.3. System of supply chain risks  
   2.10. **The insurance principle; conventions, claims, and premiums**  
      2.10.1. The CRM convention  
      2.10.2. Enhanced liability in insurance  
      2.10.3. Incoterms 2000  
   2.11. **Criminology and logistics**  
      2.11.1. The two different outlooks on mankind in criminology  
      2.11.2. Criminal prosecution and punishment  
      2.11.3. Opportunity to crime  
      2.11.4. Routine activity perspective
2.11.5. Perpetrator’s decision factors 52
2.11.6. Situation crime prevention 53
2.11.7. Crime displacement 54
2.11.8. Professional vs. opportunistic perpetrators 55
2.11.9. Internal or external perpetrator 55
2.11.10. Hot products 57

2.12. Logistics, risk management and criminology 57
2.12.1. The antagonistic threat triangle in logistics 58

2.13. Research questions – theoretical verification 59

3. Methodological framework 62
3.1. Research procedure 62
3.2. System approach 62
3.3. Complexity theory 64
3.4. Research process 65
3.4.1. Research chronology 66
3.5. Literature review to find the research gap 67
3.6. Data sources and their reliability 68
3.7. Interviews 69
3.8. Empirical data used in the different papers 70
3.9. Verification and validation of results 70

4. Summary of appended papers 71
4.1. Link between appended papers 72
4.2. Paper A: The displacement effect in cargo theft 74
4.3. Paper B: Using business complexity to handle supply chain risk: dealing with borders of cargo liability 75
4.4. Paper C: Differences in stakeholder opinion regarding antagonistic gateways within the transport network 77
4.5. Paper D: The role of temporary storage from a supply chain perspective 78
4.6. Paper E: The risk for detection affects the logistics system setup for cargo smugglers 79
4.8. Paper G: Security culture and transport network terminal activities 82
4.9. Paper H: Impacts of the ISPS code on port activities – A case study on Swedish ports 83
4.10. Result of appended papers 85

5. Analysis 86
5.1. Research questions - analysis 86
5.2. The antagonistic threat triangle 92

6. Discussion 97
6.1. Results and contribution 99
6.1.1. Theoretical contribution 100
6.1.2. Practical contribution 101
