I. ENVIRONMENTAL TAXATION AND THE URBAN ENVIRONMENT

1. Environmental Taxation and its Role in Singapore's Approach Towards Environmental Sustainable Development	3
<i>Hern Kuan Liu and Sumathi Saad Janjua</i>	
I. Introduction	1.01
II. Singapore and the Environment	1.06
III. Conclusion	1.63
2. Mega-Cities, Urbanization, and Public Transport: A Perspective on Developing Countries	21
<i>Alberto Majocchi</i>	
I. Introduction	2.01
II. Poverty in a Globalized World	2.03
III. Is the African Economy Growing at Last?	2.13
IV. The Benefits (and Costs) of Urbanization	2.18
V. Mega-Cities and the Current Urban Transition	2.35
VI. The Impact of Urbanization on CO ₂ Emissions	2.43
VII. Congestion and Urban Transport	2.47

VIII. New Perspectives for Urban Transport in Abidjan	2.51
IX. Conclusions	2.59
3. Using Environmental Taxation for Transport Demand Management	39
<i>Stephen Potter</i>	
I. Transport, Environmental Policy, and Taxation	3.01
II. Purchase and Circulation Taxation Measures	3.07
III. Tax on Car Use	3.18
IV. Targeting TDM Tax Measures	3.30
V. Towards a New Transport Taxation Regime?	3.37
VI. Towards a New Transport Taxation Vision	3.42
4. Environmental Taxes, Cumulative Pollution Loads, and Fiscal Balance	55
<i>Dodo J Thampapillai and Xun Wu</i>	
I. Introduction	4.01
II. Fiscal Balance and Environmental Taxes	4.03
III. Review of Activities that could be included in ΔG_E	4.05
IV. Concluding Notes	4.10
5. Environmentally Related Taxes in the Context of High Energy Prices: Challenges and Prospects for the Developing and Emerging Economies of Asia	61
<i>Hope Ashiabor</i>	
I. Introduction	5.01
II. The State of Play of Countries in the Region	5.23
III. The Impact of Subsidy Policies and the Responses of Governments in the Region	5.54
IV. Strategies: The Mitigation of the Regressive Impacts of Subsidy Reform	5.80
V. Conclusions	5.95

II. TAXATION IN TRANSPORTATION MANAGEMENT

6. Managing the Shift Towards Sustainable Transportation in the Southeast Asian Countries: Do Taxes and other Market-Based Instruments Play a Role?	93
<i>Hope Ashiabor and Raynli Rosiati</i>	
I. Introduction	6.01
II. Direct Regulations and Market-Based Instruments for the Southeast Asia Region	6.03
III. The Need for Sustainable Transportation in the Southeast Asia Region	6.06
IV. Concluding Observations	6.42
7. Traffic and Congestion Management in Italian Urban Areas: Is Pricing Manoeuvring?	113
<i>Giorgio Panella and Andrea Zatti</i>	
I. Introduction	7.01
II. Getting the Prices Right: The New Paradigm of Traffic Management Policies in Europe	7.07
III. Traffic and Congestion Management in Italian Urban Areas	7.16
IV. The Milan Ecopass Charge	7.27
V. Conclusions	7.45
8. Using Taxes and Charges to Reduce Transport GHG Emissions in the Urban Environment: Proposals for Mega-Cities based on the Spanish Experience	129
<i>Ana Yábar, Pedro M Herrera, Pablo Chico, and Carlos Rosselló</i>	
I. Introduction	8.01
II. Environmental Framework	8.07
III. Constitutional and Legal Framework of Spanish Local Taxation	8.18
IV. Greening Circulation Taxes	8.21

V. A Touch of Green in Other Local Levies	8.59
VI. A Local Green-Tax Reform?	8.66
VII. Conclusions and Proposals	8.71
9. Rising to the Occasion: How Transportation Green Taxes Could Yield Double Dividends for Montreal and the Province of Quebec	147
<i>Jean-François Lefebvre, Georges A Tanguay, and Florence Junca-Adenot</i>	
I. Introduction	9.01
II. Related Research Question	9.07
III. Why Economists Recommend Transport Pricing Strategies	9.10
IV. Double Dividends	9.15
V. Why Transport Pricing is Seldom Used, or the Question of Social Acceptability	9.19
VI. Surmounting Obstacles	9.21
VII. Comparing Measures for the Montreal Case Study	9.25
VIII. Some Keys to Successful Implementation of an Urban Toll Road	9.47
IX. Measuring the Costs and Benefits	9.61
X. Conclusion	9.66
10. Transport Choice, Elasticity, and Distributional Effects of Fuel Taxes in Kenya	167
<i>John M Mutua, Martin Börjesson, and Thomas Sterner</i>	
I. Introduction	10.01
II. Methodology	10.09
III. Empirical Analysis	10.22
IV. Conclusion and Policy Recommendations	10.41

11. Rebuilding Existing Environmentally Related Taxes and Transport Budget Structure in Japan	187
<i>Fumiaki Toudou</i>	
I. The Focus of this Chapter	11.01
II. The Problem of Automobiles in Japan: A Perspective from Local Cities	11.03
III. Necessities to Change Existing Automobile-Related Tax System from a Distorted Feedback System	11.20
IV. Improvements Necessary to Make Automobile-Related Taxes 'Environmental'	11.28
V. Prospects of Environmental Fiscal Reform for Transport-Sector Problems	11.31
12. Environmental Taxation in the Management of Traffic in Singapore	205
<i>Lin-Heng Lye</i>	
I. Introduction	12.01
II. Facts about Singapore	12.08
III. Measures to Control the Number of Motor Vehicles	12.13
IV. Measures to Discourage the Use of Motor Vehicles and Ensure a Cleaner Environment	12.39
V. Conclusion	12.58
III. ENVIRONMENTAL TAXATION AND THE CONSTRUCTION INDUSTRY	
13. Sustainable Housing in Australia: Fiscal Incentives and Regulatory Regimes—Current Developments and Policies for the Future	229
<i>Patricia Blazey and Peter Gillies</i>	
I. Introduction	13.01
II. Housing in Australia: Some Background Facts	13.03
III. Sustainable Housing: Two Examples	13.11

IV. Sustainable Housing: The Regulatory Response	13.15
V. Rebates Providing Incentives for Sustainable Housing	13.27
VI. Other Sustainable Housing Initiatives	13.41
VII. Feed-In Tariffs	13.43
VIII. Conclusion	13.48
14. The UK Construction Industry and Climate Change Initiatives	247
<i>Ann Hansford, Sara Marsh, and Thérèse Woodward</i>	
I. Introduction	14.01
II. Climate Change Issues and Initiatives Affecting the UK Construction Industry	14.03
III. Environmental Taxes Affecting the UK Construction Industry and the Context	14.07
IV. The Research Study	14.18
V. Findings	14.21
VI. Conclusions and International Implications	14.36
IV. ENVIRONMENTAL TAXATION AND FUELS	
15. Petroleum Royalties and Municipal Development: The Case of Campos Basin in Brazil	263
<i>Bruno Cesar Campos</i>	
I. Introduction	15.01
II. Royalties in Brazil: Legal Aspects	15.05
III. The Impact of Royalties on the Finances of the Campos Basin Municipalities	15.14
IV. Urban and Social Indicators of the Municipalities Benefited by Royalties	15.20
V. Final Conclusions	15.42
16. Biofuels, Megacities, and Green Taxes: The Whys and Wherefores of Non-fiscal Fuel Taxation. Brazil in World Context	283
<i>José Marcos Domingues</i>	
I. Introduction	16.01

II. Economic Instruments for Environmental Protection	16.15
III. Recent Controversial Discourses on the Respective Merits	16.28
IV. Environmentally Friendly Biofuel Subsidy Policy	16.37
V. Closing Remarks: The Whys and Wherefores of Non-fiscal Fuel Taxation	16.41
17. An Examination of the Environmental Impact of Key US Transportation-Related Tax Provisions	295
<i>Bruce W McClain, Paul J Lee, and Rahmat Tavallali</i>	
I. Introduction	17.01
II. Background	17.05
III. Fuel Provisions	17.07
IV. Vehicle-Related Tax Provisions	17.18
V. Fringe Benefits	17.32
VI. Environmental Friendliness/Unfriendliness of Current Law	17.46
VII. Suggestions for Change	17.53
V. CARBON PRICING AND EMISSIONS TRADING	
18. Australia's Proposed Emissions Trading Scheme: Aligning Tax Policy with the Goals of the CPRS	313
<i>Celeste M Black</i>	
I. Introduction	18.01
II. Australia's Carbon Pollution Reduction Scheme	18.04
III. Income Tax Treatment of Permits	18.09
IV. Assistance to Industry: Free Permits	18.24
V. Other Income Tax Issues	18.32
VI. Goods and Services Tax	18.40
VII. Conclusions	18.52
19. Emissions Trading System from the Perspective of Enterprises	335
<i>Zhiping Li</i>	
I. Background	19.01

II. The Enterprises' Willingness to Participate in Emissions Trading System	19.10
III. Choice of Emissions Trading Mode by the Enterprises	19.12
IV. Misgivings about the Emissions Trading System	19.14
V. Establish an Enterprise-Friendly Emissions Trading System	19.21
VI. Conclusion	19.27
20. The Impacts of Carbon Pricing on Indigenous Communities: A Comparison of New Zealand and Australia	349
<i>Karen Bubna-Litic</i>	
I. Introduction	20.01
II. Why the Need?	20.06
III. The Issue of Disadvantage	20.10
IV. Impacts of Pricing Carbon	20.40
V. Does this Result in a Distributional Burden on Indigenous Communities?	20.48
VI. Opportunities	20.65
VII. Conclusion	20.68
21. Understanding the Evolution of Sulphur Dioxide Pollution Control Policy in China: The Role and Efficacy of Market-based Instruments in Chinese Environmental Protection	375
<i>Chunyan Chai</i>	
I. Introduction	21.01
II. The Development of SO ₂ Pollution Control Policies in China	21.03
III. National Policy Programmes for SO ₂ Pollution Control in China	21.17
IV. Coordination Between National Energy and Environmental Programmes for the Purpose of SO ₂ Emissions Reduction	21.31
V. Conclusions and Policy Recommendations	21.39

VI. WATER, LAND, AND POLLUTION MANAGEMENT

22. Consumer Perceptions, Practices, Willingness to Pay, and Analysis of Existing Laws for Safe Drinking Water in Pakistan	395
<i>Usman Mustafa, Mirajul Haq, and Ahmad Iftikhar</i>	
I. Introduction	22.01
II. Analysis of the Laws in the Drinking-Water Sector	22.06
III. Data and Methodology	22.11
IV. Theoretical Framework	22.15
V. Model for CVM	22.22
VI. Situation Analysis in Abbottabad	22.29
VII. Quantification of HHS' WTP	22.42
VIII. Empirical Results of CV Model	22.45
IX. Conclusion and Recommendation	22.48
23. Does a Rebound Effect Exist in Solid-Waste Management?	413
<i>Takehiro Usui</i>	
I. Introduction	23.01
II. The Relevant Literature	23.05
III. Econometric Method	23.09
IV. Estimation Result	23.13
V. Conclusion	23.16
24. The Efficacy of Environmental Taxation as a Mechanism for Pollution Control in Kampala City	423
<i>Thadeus Mabasi</i>	
I. Introduction	24.01
II. Nature of Pollution in Kampala City	24.06
III. The Policy, Legal, and Institutional Framework for Pollution Control in Uganda	24.18
IV. The Efficacy of Environmental Taxation as a Mechanism for Pollution Control in Kampala City	24.32

V. Challenges of Environmental Taxation as a Mechanism for Pollution Control in Kampala City	24.46
VI. Recommendations	24.49
VII. Conclusion	24.53
VII. TRADE, CARBON TAXES, AND NEW MARKETS	
25. Carbon Taxes Versus Cap-and-Trade: The Relative Burdens and Risks of Market-Based Administration	445
<i>Janet E Milne</i>	
I. Introduction	25.01
II. Creation of the Instruments	25.04
III. Operation of the Instruments	25.11
IV. Relative Operational Burdens and Risks	25.27
V. Conclusion	25.36
26. Chinese Trade and Border Tax Adjustments based on Environmental Protection: The Impact of WTO Rules	463
<i>Bill Butcher, Larry Kreiser, Hans Sprohge, and Julsuchada Sirisom</i>	
I. Introduction	26.01
II. China's PPMs and Environmental Taxes	26.06
III. WTO Trade Review	26.08
IV. Border Tax Adjustments	26.10
V. The Potential for the Imposition of BTA on Chinese Exports	26.14
VI. Practical Problems with the Imposition of BTA	26.21
VII. Article XX	26.22
VIII. China's Responses	26.32
IX. Conclusion	26.35
27. Exports and Imports under a Carbon Tax	477
<i>Keith Kendall</i>	
I. Introduction	27.01

Contents

II. Imposing a Carbon Tax on Imports	27.07
III. Rebating a Carbon Tax on Exports	27.24
IV. Exceptions for Violations of the WTO	27.32
V. Concluding Remarks	27.40
28. To Cap or To Tax? An Economic and Legal Argument in Favour of Carbon Taxes over a Cap on Trade to Combat Climate Change	493
<i>Abhinav Maker</i>	
I. Introduction	28.01
II. The Need for a Carbon Tax	28.06
III. Carbon Tax: A Possible Solution	28.14
IV. Border Tax Adjustment and WTO	28.17
V. Justification of a Carbon Tax under Art XX(g)	28.31
VI. Conclusion	28.57
29. The Use of Taxation Incentives to Create New Eco-Service Markets	511
<i>Paul Martin and Kip Werren</i>	
I. Introduction	29.01
II. Maximum Market Vibrancy, Minimum Complexity	29.08
III. Taxation: The Impetus for Reform	29.30
IV. Justification for Reform	29.52
VIII. CASE STUDIES	
30. Exploring the ‘Real’ Obstacle to Implementing the ‘Polluter-Pays Principle’: Taking the Hong Kong Case as a Touchstone	531
<i>Li Gao</i>	
I. Introduction	30.01
II. Setting the Context	30.05
III. Implementing the PPP in Hong Kong: Problems and Obstacles	30.10

IV. Exploring the ‘Real’ Obstacle	30.20
V. Clarification of the PPP: Focusing on Key Considerations	30.36
VI. Conclusion	30.42
31. Environmental Impact of Local Taxes and Fees in Germany	547
<i>Monika Böhm</i>	
I. Introduction	31.01
II. Case Studies	31.03
III. Local Authority to Regulate	31.08
IV. Local Taxes and Fees in Practice	31.10
V. Restrictions	31.26
VI. Conclusions	31.27
32. The Environmental Fee-for-Tax Reform in China: A One-Size-Fits-All Solution for Environmental Problems?	557
<i>Tianbao Qin and Ping Chen</i>	
I. Background	32.04
II. PDF and the Environment Tax: A Theoretical Analysis	32.11
III. The Empirical Analysis on the Fee-for-Tax Reform	32.23
IV. Existing Practices in the Reformation of the PDF	32.32
V. Concluding Remarks	32.34
33. Greening Taxation System in China	569
<i>Xi Wang and Yanfang Zhou</i>	
I. Introduction	33.01
II. Environment-Related Taxes in China	33.02
III. Evaluation of Environment-Related Taxes in China	33.18
IV. Reform of Environment-Related Tax in China	33.24
34. How the German Patient Followed the Doctor’s Orders: Political Economy Lessons from Implementing Market-Based Instruments in Germany	587
<i>Sven Rudolph</i>	
I. Introduction	34.01

Contents

II. Climate Policy Instrument Choice in Germany: The Case of EU ETS	34.05
III. Conclusions	34.39
35. The Impact of Fiscal Policies and Market-Based Instruments for Environmental Management: Experiences from Uganda	607
<i>Ronald Kaggwa</i>	
I. Introduction	35.01
II. Key Findings: Winners and Losers	35.13
III. Key Issues and Challenges in Using Environmental Taxes and Other MBIs	35.27
IV. Recommendations	35.28
IX. THE ECONOMIC MELTDOWN AND CHALLENGES FOR THE FUTURE	
36. Hedging against Wider Collapse: Lessons from the ‘Meltdowns’	625
<i>Nicholas A Robinson</i>	
I. Reassessing Economic Market Components: Precursor to Cap-and-Trade	36.14
II. Dysfunctional Elements in the Economic Recession	36.16
III. Identifying Foundations for Global Climate Emissions Trading	36.61
IV. The Eco-Era: A New Paradigm?	36.81
<i>Index</i>	665
