Contents

Summary 1
Sammendrag (in Norwegian) 5

Part 1. Overview 9

Chapter 1. Motivation, methods and results 11

1 Motivation and scope 13
  1.1 Why study oil and gas investment
  1.2 Overall scope and research ideas

2. Methodology 23
  2.1 Theory of investment behaviour
  2.2 Econometric method

3. Overview of the papers 29
  3.1 Exploration economics in a regulated petroleum province
  3.2 Efforts and efficiency in oil exploration: a VEC approach
  3.3 Investment and uncertainty in the international oil and gas industry
  3.4 Shifting sentiments in firm investment
  3.5 Financial market pressures, tacit collusion and oil price formation
  3.6 Valuation of international oil companies

4. Unresolved issues and suggestions for future research 37
  4.1 Econometrics of effort and efficiency in oil and gas exploration
  4.2 Micro-econometric studies of oil and gas investments
  4.3 Oil company investment and market interaction

5. References 41

Part 2. Efforts and efficiency in oil and gas exploration 47

Chapter 2. Exploration economics in a regulated petroleum province: the case of the NCS 49
Published in Energy Economics 30 (2), 303-320.

Chapter 3. Efforts and efficiency in oil and gas exploration: a vector error-correction approach 81
Published in The Energy Journal 29 (4), 53-78.
