About the Author xxiii

Foreword xxv

1 Choices: Money, Medicine, and Health 1

Questions 1

1.1 WHAT IS ECONOMICS? 2
Terms of Trade 2
Can We Pay Somebody to Care? 3
Financing Health Care 4
Value 5

1.2 THE FLOW OF FUNDS 5
Health Care Spending in the United States 6
Sources of Financing 8
Health Care Providers: The Uses of Funds 10

1.3 ECONOMIC PRINCIPLES AS CONCEPTUAL TOOLS 11
Scarcity (Budget Constraints) 11
Opportunity Cost 11
Willingness to Pay 12
Trade 12
Money Flows in a Circle 12
Maximization: Marginal Costs and Marginal Benefits 12
Choice: Are Benefits Greater than Costs? 12
Investment 13
Contracts: Complex Exchanges to Deal with Timing and Risk 13
Organizations Adapt and Evolve 14

1.4 HEALTH ECONOMICS: WHAT MAKES MEDICINE DIFFERENT? 14
Illness Is Contingent, Urgent, Uncertain 14
Health Is Priceless 15
Health Affects the Value of All Other Goods 15
Having More Does Not Reduce the Value of Health 15
Dynamic Change, Driven by Research and Technology 15
Differences over Time and Place Are Larger than the Choices Patients Face 16
Quality, Not Quantity 16
Quality Is Hard to Measure, and Not Additive 16
Individual Choices: Lifestyle Matters More than Medicine 17
Health Risks Are More Public than Private 17
Personal Tastes and Preferences Are Secondary 17

1.5 RESEARCH, TEACHING, AND CHARITY: SHIFTING OVERHEAD 17

1.6 EQUITY AND DISTRIBUTION 18

1.7 WHOSE CHOICES: PERSONAL, GROUP, OR PUBLIC? 19

1.8 SOCIAL SCIENCE AND RATIONAL CHOICE THEORY 21

Suggestions for Further Reading 22
Summary 22
Problems 23
Endnotes 24

2 Demand and Supply 26

Questions 26

2.1 THE DEMAND CURVE 26
The Diamonds–Water Paradox: An Example of Marginal Analysis 27
Consumer Surplus: Marginal versus Average Value of Medicine 28
Ceteris Paribus 30
Individual, Firm, and Market Demand Curves 30

2.2 THE SUPPLY CURVE 30
Marginal Revenue 31

2.3 PRICE SENSITIVITY 32
Price Elasticity and Marginal Revenue 33
Price Discrimination 34

2.4 IS MONEY THE ONLY PRICE? 35
The Labor–Leisure Choice 36

2.5 INPUTS AND PRODUCTION FUNCTIONS 37
Marginal Productivity 37
Production Functions 37
3 Cost-Benefit and Cost-Effectiveness Analysis 48

Questions 48

3.1 COST-BENEFIT ANALYSIS IS ABOUT MAKING CHOICES 49
An Everyday Example: Knee Injury 49
Stepwise Choices: Yes or No? How Much? 52
Calculating Marginal and Average Costs 53
Defining Marginal: What Is the Decision? 54
Opportunity Cost: Looking at Alternatives 57
Expected Value 58

3.2 MAXIMIZATION: FINDING THE OPTIMUM 59
Declining Marginal Benefits 60
Optimization: Maximum Net Benefits 60
Why Marginals Are "the Max," and Averages Are Misleading 61

3.3 MEASURING BENEFITS 62
Health 62
Productivity 63
Reductions in Future Medical Costs 63

3.4 MEASURING COSTS 64
Medical Care and Administration: Charges versus Costs 64
Follow-up and Treatment 64
Time and Pain of Patient and Family 65
Provider Time and Inconvenience 65

3.5 EVIDENCE-BASED MEDICINE 65

3.6 THE VALUE OF LIFE 66

3.7 QUALITY-ADJUSTED LIFE YEARS (QALYs) 68
Discounting Over Time 69
QALY League Tables 69
5 Insurance Contracts and Managed Care 108

Questions 108

5.1 TYPES OF INSURANCE PLANS 108

Medicare 109
Employer-Based Group Health Insurance 109
Self-Paid Private Insurance 112
Medicaid 112
Other Government Programs and Charity 112
The Uninsured 112
State Children’s Health Insurance Program 113

5.2 HSAs, MEDICAL SAVINGS ACCOUNTS, AND HIGH-DEDUCTIBLE “CONSUMER-DRIVEN HEALTH PLANS” 113

Defined Contribution Health Plans 114
High-Deductible Insurance 115

5.3 A RANGE OF RISK BEARING: FIXED PREMIUMS, ADMINISTERED SERVICES ONLY, AND SELF-INSURANCE 116

The Underwriting Cycle 117
ERISA, Taxes, and Mandated Benefits 118

5.4 MANAGED CARE PLANS 119

Why Managed Care? 119
Management: The Distinctive Feature of Managed Care 120
Contractual Reforms to Reduce Costs 121
A Fourth Way: Reforming the Organization to Reduce Cost 122
Medical Loss Ratios 123

5.5 THE RANGE OF MANAGED CARE PLANS 124

Provider Networks 124
Gatekeeping 125
Capitation 125
Withholds 127
Utilization Review 127

5.6 MANAGED COMPETITION AND THE FEHBP 128

5.7 INCENTIVES—TO PATIENTS, TO PAYERS, AND TO PROVIDERS 128

Suggestions for Further Reading 129

Summary 130

Problems 131

Endnotes 133
6 Physicians 135

Questions 135

6.1 FINANCING PHYSICIAN SERVICES: REVENUES 135
- Copays, Assignment, and Balance Billing 139
- Physician Payment in Managed Care Plans 140
- Incentives: Why Differences in the Type of Payment Matter 141
- A Progression: From Prices to Reimbursement Mechanisms 141

6.2 PHYSICIAN INCOMES 142

6.3 PHYSICIAN FINANCING: EXPENSES 143
- Physician Practice Expenses 143
- The Labor–Leisure Choice 144
- The Doctor’s Workshop and Unpaid Hospital Inputs 145
- Malpractice 146

6.4 THE TRANSACTION BETWEEN DOCTOR AND PATIENT 146
- Asymmetric Information 147
- Agency: Whose Choices? 147

6.5 UNCERTAINTY 148

6.6 LICENSURE: QUALITY OR PROFITS? 148
- How Does Licensure Increase Physician Profits? 149
- Supply and Demand Response in Licensed versus Unlicensed Professions 150
- How Does Licensure Improve Quality? 151
- A Test of the Quality Hypothesis: Strong versus Weak Licensure 152

Suggestions for Further Reading 153
Summary 153
Problems 154
Endnotes 155

7 Medical Education, Organization, and Business Practices 157

Questions 157

7.1 MEDICAL EDUCATION 157

7.2 THE ORIGINS OF LICENSURE AND LINKAGE TO MEDICAL EDUCATION 158
- AMA Controls over Physician Supply, 1930–1965 159

7.3 ADJUSTING PHYSICIAN SUPPLY 162
   The Flow of New Entrants and the Stock of Physicians 162
   Immigration of International Medical Graduates 163
   Growth in Non-M.D. Physicians 163
   Balancing Supply and Incomes: Tracing the Past and Projecting the Future 164

7.4 GROUP PRACTICE: HOW ORGANIZATION AND TECHNOLOGY AFFECT TRANSACTIONS 165

7.5 KICKBACKS, SELF-DEALING, AND SIDE PAYMENTS 167

7.6 PRICE DISCRIMINATION 169

7.7 PRACTICE VARIATIONS 171

7.8 INSURANCE, PRICE COMPETITION, AND THE STRUCTURE OF MEDICAL MARKETS 174

7.9 CHOICES BY AND FOR PHYSICIANS 176

Suggestions for Further Reading 176
Summary 177
Problems 178
Endnotes 182

8 Hospitals 184

Questions 184

8.1 FROM CHARITABLE INSTITUTIONS TO CORPORATE CHAINS: DEVELOPMENT OF THE MODERN HOSPITAL 184

8.2 HOSPITAL FINANCING: REVENUES 186
   Sources of Revenues 186

8.3 HOSPITAL FINANCING: EXPENSES 192

8.4 FINANCIAL MANAGEMENT AND COST SHIFTING 192

8.5 HOW DO HOSPITALS COMPETE? 196
   Competing for Patients 196
   Competing for Physicians 197
   Competing for Contracts 197
   Measuring Competitive Success 198
   Measuring the Competitiveness of Markets 199

8.6 ORGANIZATION: WHO CONTROLS THE HOSPITAL AND FOR WHAT ENDS? 199

Suggestions for Further Reading 201
Summary 201
Problems 202
Endnotes 204
9  Management and Regulation of Hospital Costs  206

Questions  206

9.1  WHY DO SOME HOSPITALS COST MORE THAN OTHERS?  206
9.2  HOW MANAGEMENT CONTROLS COSTS  207
     Short-Run versus Long-Run Cost Functions  207
     Uncertainty and Budgeting  209
9.3  CONFLICT BETWEEN ECONOMIC THEORY AND ACCOUNTING
     MEASURES OF PER UNIT COST  211
     Timing  211
     Whose Costs?  213
9.4  ECONOMIES OF SCALE  214
     The Hospital Is a Multiproduct Firm  215
     Contracting Out  215
9.5  QUALITY AND COST  215
     Technology: Cutting Costs or Enhancing
     Quality?  215
     Improved Efficiency May Raise Total
     Spending  216
9.6  CONTROLLING HOSPITAL COSTS THROUGH REGULATION  217

Suggestions for Further Reading  220
Summary  220
Problems  221
Endnotes  223

10  Long-Term Care  224

Questions  224

10.1  DEVELOPMENT OF THE LONG-TERM CARE MARKET  225
10.2  DEFINING LTC: TYPES OF CARE  227
10.3  MEDICAID: NURSING HOMES AS A TWO-PART MARKET  229
10.4  CERTIFICATE OF NEED: WHOSE NEEDS?  232
     Money and Quality  232
     Competing for Certificates of Need, Not for Patients  232
     Evidence on the Effects of CON  233
10.5  CASE-MIX REIMBURSEMENT  234
10.6  SUBSTITUTION  235
10.7  FINANCIAL REIMBURSEMENT CYCLES  237
10.8  THE EFFECTS OF AGING ON COST AND UTILIZATION  239
     Age and Health Care Spending  239
     Defining Boundaries: Is Long-Term Care “Medical”?  240
11 Pharmaceuticals 248

Questions 248

11.1 PHARMACEUTICAL REVENUES: SOURCES OF FINANCING 249

Inpatient Pharmaceuticals 251

11.2 USES OF FUNDS 251

Retail Pharmacies 252

Wholesalers 253

Insurance Companies and PBMs 253

Pharmaceutical Firms 253

Cost Structure 255

11.3 HISTORY AND REGULATION OF PHARMACEUTICALS 255

11.4 RESEARCH AND DEVELOPMENT 259

11.5 PHARMACOECONOMICS AND TECHNOLOGY ASSESSMENT 261

11.6 INDUSTRY STRUCTURE AND COMPETITION 262

Medicare D: An Experiment in Rational Choice 263

Market Segmentation: Types of Buyers 264

Contractual Responses to Pharmacy Benefits Management 264

Value and Cost 265

The Role of Middlemen: Distribution versus Marketing 266

Research Productivity 268

11.7 TRENDS: FORM FOLLOWS FUNCTION (AND MONEY) 270

Suggestions for Further Reading 270

Summary 271

Problems 272

Endnotes 273

12 Capital Financing and Ownership of Health Care Providers 275

Questions 275

12.1 WHAT IS CAPITAL FINANCING? 275

12.2 VALUE AND RATE OF RETURN 276
The Time Value of Money 276
Interest Rates and Present Value 277
IRR: The Internal Rate of Return 278
Human Capital: Medical Education as an Investment 280
Risk 281
Valuing Assets 283

12.3 UNCORRELATED (INDEPENDENT) AND CORRELATED (SYSTEM) RISKS 284
Which Is Riskier: Nursing Homes or Drug Companies? 285
Assessing Business Risk 285

12.4 OWNERSHIP AND AGENCY 287
Equity and Debt 287
Who Owns the Business? Who Owns the Patient?
Agency Issues 288
The Role of Financial Intermediaries 289
Health Insurers as Financial Intermediaries 290

12.5 CAPITAL FINANCING: HOSPITALS 290

12.6 HMO OWNERSHIP AND CAPITAL MARKETS: SUCCESS AND FAILURE 293
Business Risks for an HMO 293
Kaiser Health Plan: The Evolution of an HMO 294
GHA: A Consumer Co-op Gets Bought Out by a Franchise Chain 296

12.7 CORPORATE ADVANTAGE 297
U.S. Healthcare: A Profitable Growth Company 298

Suggestions for Further Reading 300
Summary 300
Problems 302
Endnotes 303

13 Macroeconomics of Medical Care 305

Questions 305

13.1 WHAT IS MACRO? 305
Micro and Macro Perspectives on Spending 306

13.2 THE CONSUMPTION FUNCTION 307
The Permanent Income Hypothesis 309
Shared Income 310
Public and Private Decisions 311
Budget Constraints: Borders that Matter 312
13.3 ADJUSTING TO CHANGE: DYNAMICS 312
Permanent Income and Adjustment of Health Spending to GDP 314
Adjustment to Inflation 315
Adjustment to GDP: Rates of Change and Time Series Analysis 318
13.4 FORECASTING FUTURE HEALTH EXPENDITURES 319
13.5 COST CONTROLS: SPENDING GAPS AND THE PUSH TO REGULATE 320
Capacity Constraints and Budget Constraints 322
13.6 WORKFORCE DYNAMICS: "SPENDING" IS MOSTLY LABOR 323
Employment 323
Wages 327
Suggestions for Further Reading 328
Summary 328
Problems 329
Endnotes 331

14 The Role of Government 333

Questions 333

14.1 GOVERNMENT HEALTH FINANCING 333

14.2 THE ROLES OF GOVERNMENT 335
Government Is Necessary, Even for Private Exchange 335
Efficiency of Markets under Conditions of Perfect Competition 336
Government in a Mixed Economy 337

14.3 LAW AND ORDER 337

14.4 PUBLIC GOODS AND EXTERNALITIES 338
Externalities 339
The Coase Theorem: Transaction Costs and Property Rights 339
Politicians: Entrepreneurs Who Try to Get Votes 340

14.5 MARKET FAILURE 341
Monopoly 341
Paternalism 342

14.6 REDISTRIBUTION AND CARE OF THE POOR 343
Medicaid and Medicare: Dependency or Rights? 343

14.7 HOW GOVERNMENT WORKS 344
The Voluntary Sector 345
Government as the Citizen's Agent 346
Winners and Losers 348
14.8 PROS AND CONS OF REGULATION AND COMPETITION 348

Suggestions for Further Reading 350

Summary 350

Problems 351

Endnotes 352

15 Public Goods and Public Health 354

Questions 354

15.1 CHARACTERISTICS OF PUBLIC GOODS 354

Privatizing Public Goods 355

Social Costs Depend on the Number of People 356

Insurance Makes Any Good More Public 356

15.2 INFORMATION 357

Rational Consumer Ignorance 358

Milk or Bread: Which Is More Public? 358

15.3 THE THEORY OF PURE PUBLIC GOODS 359

Public Goods Make Most People Better Off, but Few Happy 361

15.4 INFECTIOUS DISEASE EXTERNALITIES 363

Epidemics 363

HIV/AIDS 364

The Sanitary Revolution: A Moral Campaign for Public Health 365

Formation of the U.S. Public Health Service 366

15.5 SEX, DRUGS, AND WAR: PUBLIC HEALTH IN ACTION 366

Who Counts as a Citizen? Abortion and Other Dilemmas 367

Addiction 368

War and Public Health 369

Suggestions for Further Reading 370

Summary 370

Problems 371

Endnotes 371

16 History, Demography, and the Growth of Modern Medicine 373

Questions 373

16.1 ECONOMIC GROWTH HAS DETERMINED THE SHAPE OF HEALTH CARE 373

16.2 BIRTH RATES, DEATH RATES, AND POPULATION GROWTH 374

16.3 THE STONE AGE 374
16.4 THE AGRICULTURAL AGE 375
Investment and Trade 376
Civilization, War, and Government 376
The Decline of Civilizations Leads to Population Declines 377
The Plague 378
Food Supply Determines Population 378
The Rise of Economics 378
The Malthusian Hypothesis 379

16.5 THE INDUSTRIAL AGE 380
Why Malthus Was Wrong 381
Demographic Transition 382
Demographic Change, Income Distribution, and the Rise of the Middle Classes 383

16.6 THE INFORMATION AGE 384
16.7 INCOME AND HEALTH 385
16.8 REDUCING UNCERTAINTY: THE VALUE OF LIFE AND ECONOMIC SECURITY 387
The Value of Risk Reduction 388
Social Security and Health Insurance 389

16.9 THE RISE OF MODERN MEDICINE 389
Preconditions for Change 390
The Growth of Medical Science and Technology 390
Did Better Medical Care Increase Life Expectancy? 392

Suggestions for Further Reading 393
Summary 393
Problems 395
Endnotes 396

17 International Comparisons of Health and Health Expenditures 399

Questions 339
17.1 WIDE DIFFERENCES AMONG NATIONS 399
Size of the Market 401
17.2 MICRO VERSUS MACRO ALLOCATION: HEALTH AS A NATIONAL LUXURY GOOD 402
17.3 CAUSALITY: DOES MORE SPENDING IMPROVE HEALTH? 404
17.4 LOW-INCOME COUNTRIES 405
Sudan 406
Health Care in Kenya 408
