Preface vii

1 Introduction to business logistics (W.J. Pienaar) 1
   Introduction 1
   Business logistics in a macroeconomic perspective 2
   Evolution of the concept of logistics 5
   Emergence of logistics in a business context 5
   The concepts of logistics and supply chain management 8
   Business logistics activities 11
   Conclusion 15

2 Competitive advantage created by logistics (W.J. Pienaar) 19
   Introduction 19
   Logistics linkages with the value chain 19
   The value-added role of logistics 22
   Customer service 25
   Aspects of competitive advantage 29
   Wealth creation through logistics 30
   Conclusion 31

3 Logistics and supply chain strategy planning (J. Louw) 34
   Introduction 34
   What do strategy and strategic management mean? 35
   Organisational strategy 36
   The strategy formulation process 37
   Developing a logistics and supply chain strategy 39
   Implementing a logistics and supply chain strategy 48
   Conclusion 50

4 Tactical logistics management and supply chain integration (W.J. Pienaar) 56
   Introduction 56
   Tactical logistics activities 56
   Managing the goods flow 57
   Product supply chain processes 59
   Time management in supply chains 66
   Conclusion 73

5 Financial aspects of logistics and supply chain management (W.J. Pienaar) 76
   Introduction 76
   Shareholder value 76
   Cost of equity 77
   Free cash flow 78
   Economic value added 78
   Value drivers 79
   Return on investment 82
   Logistics costing and activity-based costing 84
   Marginal costing 86
   Cost-volume-profit analysis 90
   Worked examples 94

6 Forecasting supply chain requirements (W.J. Pienaar) 104
   Introduction 104
   Features of forecasting 105
   Types of forecasting 106
   Long-term and short-term forecasting 107
   The forecasting process 107
   Selecting appropriate forecasting techniques 108
   Validating forecasting models 111
   Techniques for stationary time series data 112
   Techniques for forecasting time series data with a trend 120
   Forecasting seasonality 125
   Example of the forecasting process 128
   Conclusion 134
   Appendix 138

7 Network integration (J. Louw) 144
   Introduction 144
   Network integration and supply chain design 145
   Supply chain configuration and functional requirements 147
