## 3 Information Systems Development Approaches

3.1 Introduction 51
3.2 Why Information Systems Development is key to business strategy 52
3.3 A brief history of Information Systems Development 53
3.4 Contemporary Information Systems Development (ISD) 58
3.5 The Dynamic Systems Development Method (DSDM) 61
3.6 Case study: London Ambulance Service – from failure to success 67
   Conclusion 73
   Key learning points 74
   Review questions and tasks 75
   Key further reading 75
   References 76

## 4 Disruptive Technologies and Applications

4.1 Introduction 77
4.2 Context for disruptive technologies and applications 78
4.3 Strategy of disruption and innovation 81
4.4 Internet and related technologies 85
4.5 Focus of disruptive internet applications 86
4.6 Emerging disruptive technologies: features and applications 91
4.7 MMORPGS and virtual worlds 95
4.8 Future issues 97
   Conclusion 98
   Key learning points 98
   Review questions and tasks 99
   Key further reading 100
   References 101

## 5 Business IT/IS Alignment

5.1 Introduction 103
5.2 Business alignment 105
5.3 IT/IS alignment 107
5.4 Assumptions of and in IT/IS alignment 109
5.5 Evolution of IT/IS alignment and its suggested direction of travel 110
5.6 Business benefits of IT/IS alignment 111
5.7 IT/IS alignment and Enterprise Architecture 114
5.8 Academically-based tool kits for IT/IS alignment 119
5.9 Practitioners' challenges 124
   Conclusion 126
   Key learning points 127
   Review questions and tasks 127
   Key further reading 135
   References 136

## 6 Strategic IS/IM in Context

6.1 Introduction 139
6.2 The nature of public sector organizations 140
6.3 Electronic government (e-government) 144
9 Organizational Change, Culture and Strategic IS/IT Led Change

9.1 Introduction
9.2 Human behaviour and organizational culture
9.3 Characterizing organizational culture
9.4 Different types of change
9.5 Managing for change
9.6 Getting the organization ready to accept strategic IS/IT led change
9.7 Dealing with and managing resistance to change
9.8 Stakeholder engagement
9.9 Managing change across boundaries
9.10 Strategic leadership in large and complex organizations
9.11 Achievement of the organization's new goals and objectives
9.12 Pitfalls to avoid when leading strategic change

Conclusion
Key learning points
Review questions and tasks
Key further reading
References

10 IS/IT Benefits Management and Realization

10.1 Introduction
10.2 Evaluating information systems
10.3 The IT productivity paradox
10.4 Benefits management
10.5 Financial aspect of IT
10.6 Benefits management techniques
10.7 Benefits management approach
10.8 Benefit realization approach
10.9 Life cycle thinking and IT economics
10.10 Requirements for the business cases
10.11 Organizing the financial control function
10.12 Case study: IBG Banking

Conclusion
Key learning points
Review questions and tasks
Key further reading

11 Strategic IT/IS Leadership and IT Governance

11.1 Introduction
11.2 What is leadership?
11.3 What is strategic leadership? 301
11.4 The differences between managers and leaders 303
11.5 Transformational leadership 307
11.6 Leading technology enabled innovations 308
11.7 Leadership competencies for technology led innovation 309
11.8 Leading IT geeks 312
11.9 Corporate governance 313
11.10 IT governance definition 314
11.11 Corporate governance and IT governance 316
11.12 The growing maturity of IT governance 318
11.13 Corporate Governance of Information Communications Technology 318
11.14 Building effective IT governance structure, participation and process 321
11.15 IT governance structures 322
11.16 Participation in governance 324
11.17 IT governance structure 324
11.18 Project and programme boards 326
11.19 Project and programme management frameworks 332
   Conclusion 334
   Key learning points 334
   Review questions and tasks 335
   Key further reading 335
   References 340

12 IT/IS Professionalism, Ethics and Security 342
12.1 Introduction 342
12.2 IT/IS professionalism 343
12.3 What is professionalism? 344
12.4 Towards an understanding of IT professionalism 345
12.5 What next for IT professionalism? 349
12.6 Ethical behaviour in IT/IS 349
12.7 Professional organizations and codes of ethics 351
12.8 Legislation and its impact on the IT function 355
12.9 Intellectual property 356
12.10 Types of IT/IS security threats 359
12.11 Non-technical attacks 367
12.12 Countermeasures: technical controls 368
12.13 Countermeasures: non-technical controls 370
   Conclusion 374
   Key learning points 374
   Review questions and activities 376
   Key further reading 376
   References 377
