*Introduction* by Neri Salvadori ix

1. Institutions and the beginnings of economic growth in eighteenth-century Britain
   *Joel Mokyr*  1

2. The coevolution of institutions and preferences: history and theory
   *Samuel Bowles*  35

3. Politics and income distribution
   *Martin Baur*  51

4. Income distribution and the interaction between cycles and growth
   *Piero Ferri and Anna Maria Variato*  75

5. Market failures within poor institutions: the effects of bureaucrats' rent-seeking activity
   *Davide Infante and Janna Smirnova*  93

6. Government spending, effective demand, distribution and growth: a dynamic analysis
   *Pasquale Commendatore, Carlo Panico and Antonio Pinto*  116

7. The role of human capital in economic growth: evidence from Greek regions
   *Nikos Benos and Stelios Karagiannis*  137

8. Adult longevity and economic take-off from Malthus to Ben-Porath
   *David de la Croix*  169

9. Endogenous age structure in descriptive macroeconomic growth models: a general framework and some steady state analysis
   *Luciano Fanti, Mimmo Iannelli and Piero Manfredi*  188

10. Bright and wealthy: exploring assortative mating
    *Valerio Filoso*  216
11. Information networks and knowledge spillovers: simulations in an agent-based model framework  
   Christian Henning and Volker Saggau  
   251

12. Interaction between economic and social variables: the transformational growth matrix  
   Edward Nell  
   287

13. Financial fragility, mean-field interaction and macroeconomic dynamics: a stochastic model  
   Corrado Di Guilmi, Mauro Gallegati and Simone Landini  
   322
