TABLE OF CONTENTS

Chapter 1: Capital Accumulation in the Presence of Informal Credit Contracts: Does the Incentive Mechanism Work Better than Credit Rationing Under Asymmetric Information?

1.1 Introduction ............................................ 1

1.2 The Base Line Model ................................. 7
  1.2.1 Model Specification: Firms .................. 10
  1.2.2 Banks ........................................ 12
    1.2.2.1 Credit Rationing Regime ............ 13
    1.2.2.2 Self Revelation Regime .............. 16
  1.2.3 Households ................................... 21
  1.2.4 Informal Moneylenders ..................... 22

1.3 Equilibrium .......................................... 24
  1.3.1 Steady State Equilibrium under Credit Rationing Regime . 25
  1.3.2 Steady State Equilibrium under Self-Revelation Regime . 26

1.4 Results .............................................. 29
  1.4.1 Parameter values taken from the existing literature .... 29
  1.4.2 Parameter values estimated from micro data ............ 30
    1.4.2.1 Parameter values calculated using econometric model . 32
    1.4.2.2 Parameter values obtained from Discriminant Analysis . 33
1.4.3 Equilibrium values of parameters estimated from the model 36
1.4.4 Social Welfare under the two regimes 41
1.4.5 Calibration: Robustness of the Model 42
1.5 Conclusion 46

Chapter 2: Endogenous Growth in the Presence of Informal Credit Markets: A Comparative Analysis Between Credit Rationing and Self-Revelation Regimes 49

2.1 Introduction 49

2.2 Baseline Model: An Overview 58

2.2.1 Households 60
2.2.2 Firms 61
2.2.3 Informal money lenders 63
2.2.4 Banks 64

2.2.4.1 Credit Rationing Regime 65
2.2.4.2 Self-Revelation Regime 71

2.3 Estimation Procedure 78

2.4 Results 81

2.4.1 Robustness 85

2.5 Conclusion 88

3.1 Introduction .................................. 93
3.2 Baseline Model .................................. 99
   3.2.1 Steady State Equilibrium Under the Credit Rationing Regime 113
   3.2.2 Steady State Equilibrium under Self-Revelation Regime .... 116
3.3 Equilibrium Estimation and Calibration .......................... 117
   3.3.1 Parameters Estimated using Discriminant Analysis .... 121
   3.3.2 Calibration: .................................. 126
      3.3.2.1 Parental Education, Altruism, and Child Labor Supply . 127
      3.3.2.2 Increase in Adult Wage Rate and Child Labor Supply: . 129
      3.3.2.3 Credit Rationing Vs. Revelation Regime .............. 133
3.4 Conclusion .................................... 134

Bibliography ..................................... 136
